In recent years, stock market investing has been proven unstable and not very rewarding. In fact, many people have seen their retirement and personal holding accounts dwindle. This new book provides an alternate to investors. It provides detailed information on how to put money to work in a relatively safe private mortgage investment with a high return of 12 to 15 percent (or more) in most cases. Private mortgages have grown into a multi-billion-dollar industry. This market allows investors to earn substantially higher yields while offering the security of real property to back the loan. Private mortgages have become an important fixed income vehicle for many investors with their personal funds, equity, and self-directed IRA accounts. Private mortgage investing isn't for the get-rich-quick type of person. However, you can comfortably double your money every 4 to 6 years. For example, should you invest in your self-directed IRA and re-invest as notes pay off? \$100,000 at 12 percent grows to over \$200,000 in six

years, to \$500,000 in 13 years and to over \$1 million in 19 years. Private mortgage loans are backed by real property. Generally, you would not lend more than 55 percent on the value of the property, thus the investment is again relatively safe. Instead of concentrating on the borrower's credit history, private mortgage lenders concentrate their investment decisions on the real property itself. However, like any business or investment, there are a lot of details to learn, and you do not need to learn them on your own. Learning them on your own can be costly. In this economic environment of very low interest rates, you can still earn high yields with virtually little or no risk to your investment. I wrote this introductory book based upon my real life experiences as a Cleveland Real Estate Investor and flipper. I've been doing this since 2004 and have over 350 properties I did to this day. There is nothing special about me or my real estate books, I just tell the truth, that's my sales pitch. The truth is, this business is not for the light of heart, you need to be a very serious, fully committed person of strong mental fortitude to succeed in real estate cash flow or flipping, especially flipping. There are a lot of horrors that come with real estate wealth; the ones that can see through it can get really rich, sometimes fast. (1) Can you see past nightmare tenants? They can trash your apartment, bring bedbugs in, sue you, set up a meth lab, turn your driveway into a car washing lane! (2) Can you see through a trashed house to the finished product - knowing you have big money on the line? What about finding a buyer, what if the market changes? Appraisal? Financing? (3) You think dealing with contractors is easy - do you really think they will respect you? HA! They won't even show up for the first day of work. (4) How about city inspectors, THEY LOVE LANDLORDS! (5) Professional property management companies are going to run the show for you, you can trust them. NO WAY! In fact, in my book, a professional management firm is guilty before proven innocent. What experience do I have? \*\* Section 8 Income Expert (So simple and routine, so little competition) \*\* Low Income Rentals ( The easiest money ever, if you know what you are doing) \*\* New Construction Foreclosure Properties (My last deal was only \$25,000 That previously sold for

\$150,000...yes this was in 2017) \*\* 100's of Foreclosures and REO's bought. \*\* Mining for deals using direct mail and Google Adwords. (Yes direct mail still works and very very well) \*\* Attracting cash investors through strategic channels. What is the secret to real estate wealth CREATION? Buying low at the right price. Cash flow and other elements can be controlled, but if you buy wrong you are screwed. When you buy right you have the main benefit of capital gains plus cash flow as the bonus. Here is a fact; if you are new and need to make money, you have to flip - period. Do not even think for a second about getting wealthy from real estate rentals. What is the secret to real estate wealth PRESERVATION? Cash flow. You can even buy too high but still shelter your capital through smart cash flow techniques, in residential or commercial. I started out investing in low to moderate-income apartment houses and single-family homes. Based on my experience, this kind of investing has the best cash flow and wealth building potential the fastest in this current economy. But there are rules to this game, like any other business, plus it is simple but not necessarily easy. As an experienced full time real estate investor in Cleveland, I get asked a lot of questions regarding residential investment properties. However, what I always notice is most new investors don't seem to be getting "real life" information that is so critically important to any local market. It is easy to find real estate courses out there that are great for showing the many ways to make money, but what about the real life events and issues that crop up and have the potential to wipe-out the investor's profit? It's my goal to illuminate some key tips and traps of residential (1-4 units) real estate investing in this short e-book that I feel are very important, whether you are a "turnkey" cash flow investor or a rehabber. I am only briefly touching on these topics due to the very broad and large amounts of information it would take to truly cover everything from A to Z. In this

In recent years many smart investors have exited the stock market because they have essentially lost control of their investments. They have relied on the advice and skill of their brokers, bankers, and financial advisors. Many retirement accounts have dwindled or not increased. We will show you how to set up your account with a custodian or IRA administrator to deal with the day-to-day activities, such as depositing contributions and executing and settling investment transactions. - Publisher.

Waarom hebben sommige kleine ervaringen zoveel impact dat ze ons veranderen – en hoe kun je zulke bijzondere momenten creëren in je leven en werk. De meest memorabele positieve momenten in ons leven worden gedomineerd door vier elementen: verheffing, inzicht, trots en verbondenheid. Als we deze elementen omarmen zullen er meer momenten ontstaan die er werkelijk toe doen. Wat gebeurt er als een leraar een les kan voorbereiden die zijn leerlingen over twintig jaar nog onthouden? Wat gebeurt er als een manager een ervaring kan creëren die zijn klanten in verrukking brengt? Wat gebeurt er als je beter weet welke herinneringen er werkelijk toe doen voor je kinderen? Dit boek gaat op zoek naar de fascinerende geheimen van ervaringen. Waarom onthouden we de beste of slechtste momenten van een ervaring, evenals het laatste moment, en vergeten we de rest? Waarom voelen we ons het comfortabelst als dingen zeker zijn, maar voelen we het meest dat we leven als

Zoals het experiment waar twee vreemden elkaar in een kamer ontmoeten en 45 minuten later als beste vrienden vertrekken (Wat gebeurt er in die tijd?). Of het verhaal van de jongste, vrouwelijke miljardair die zegt haar veerkracht te danken te hebben aan een vraag die haar vader aan het gezin stelde tijdens het eten (Wat was die vraag?) Veel van de bepalende momenten in ons leven zijn het resultaat van pech of geluk. Waarom zouden we de meest betekenisvolle, memorabele momenten laten afhangen van toeval als we ze ook kunnen creëren? De kracht van het moment laat zien dat we zelf de vormgever kunnen zijn van rijkere ervaringen.

Volgens Warren Buffet verreweg het beste boek over beleggen dat ooit is geschreven. De klassieker 'De intelligente belegger' uit 1949 wordt zelfs na ruim 70 jaar nog steeds geprezen als de bijbel die iedere belegger gelezen moet hebben. De filosofie van Benjamin Graham heeft zich door de jaren heen keer op keer bewezen – hij behoedt beleggers voor kostbare fouten en leert ze een succesvolle langetermijnstrategie te ontwikkelen. Omdat Graham niet vertelt wélke aandelen je zou moeten kopen, maar juist een effectieve manier van denken en handelen aanleert, is het boek nog steeds verbazingwekkend actueel.

Niet voor niets door Warren Buffet uitgeroepen tot verreweg het beste boek over beleggen dat ooit is geschreven. Met een uitgebreide inleiding van superbelegger John C. Bogle, oprichter van The Vanguard Group.
