The title says it all. Eric Weiss is going for the gold. I'm watching and believing.  
-Michael Murphy, Cofounder of Esalen Institute Author of The Future of the Body As I read Eric Weiss' "The Long Trajectory," I am often lifted beyond understanding into ecstasy. Integrating the physical, transphysical, and spiritual dimensions, Weiss offers a metaphysical model that heals the past and opens the door to a new future for humanity. -Dr. Christopher M. Bache, Youngstown State University Author of Dark Night, Early Dawn What happens to us after we die? Do we cease to exist? Do we survive bodily death? Do we live again in a new body? Without answers to these questions, we cannot know who and what we really are. In The Long Trajectory, author and philosopher Eric Weiss explores these fundamental questions. Inspired by the philosophies of Alfred North Whitehead and Sri Aurobindo, Weiss develops a new metaphysical system he calls "transphysical process metaphysics." It rethinks space, time, matter/energy, consciousness, and personality in ways consistent with the

findings of science, while providing a coherent explanation for the survival of the personality beyond death and how it can reincarnate in a new body.

The Long Walk Home – will most likely be the last book I write – I am eighty-three years old – this book is important to me – it goes over to a degree what has been said in my previous books – The End Was A Beginning – the first – the second The Silent Voice – in much more detail – it is threaded with the never- ending presence of loneliness – but more significantly it brings forth the Four Absolutes – Honesty – Purity – Unselfishness – Love – which were given to me in 1986 – I have talked about these principles in my previous books – I made clear that if these principles were incorporated in society at hand – the world would change in an instant – this I believe is the power of these four words – the society that exists at present – the persistence of – selfishness – self-centeredness – permeated with dishonesty – beyond reproach – the distortion of purity – the use of the word – love – as a panacea – to cover the vile of discontent that exists in the world as is lived in – every crime – every murder – every twisted thought – every lie – every selfish act – every thought of hate - would be reduced to the pleasantries of memory – I cannot – predict where society will rest seventy years from now – 2016 – I do know that in 1927 the world population was two billion – 1960 three billion – 2011 seven billion – projection 2083 ten billion – will make up our society – if the culture is not changed – the present will be a reality for the future – this may be a morbid statement – it is a true statement – for sure – society is doing nothing to change the silhouette as is

the period between John Pym's death in December 1643 and the execution of Charles I in January 1649. MacCormack provides a fresh and coherent interpretation of the events chronicled in the first volume of S. R. Gardiner's monumental History of the Great Civil War, a work long known to be inadequate. Through an exhaustive compilation of the activities of individual members, MacCormack examines the Long Parliament and the structures of its parties. He investigates the degree to which the division between parties was religious or political, the character of the leadership of the two major groups (moderates and radicals), and the transformation of the parties during the five-year period. The author focuses on the way in which the Parliamentary radical group led by Oliver St. John, Sir Henry Vane, Jr., and Oliver Cromwell gradually retreated from their revolutionary stance of 1644 in the face of the genuine populism of the Levellers. He contends that their failure to retain the moral leadership of the revolution led to the fragmentation of parties in 1648 and to the eventual dictatorship of Oliver Cromwell. The book includes fresh interpretations of the role of Oliver Cromwell, especially in 1647 and 1648 when he emerged as the central figure. Significant material is also presented on John Lilburne. In analyzing the transformations of the radical party, the author places Lilburne's party, the Levellers, in the political context of the Revolution.

Israeli tech exec disappears from Charles de Gaulle airport with a woman in red, logic dictates youthful indiscretion. But Israel is on a state of high alert nonetheless. Colonel Zeev Abadi, the new head of Unit 8200's Special Section, just happens to have arrived on the same flight. For Commissaire Léger of the Paris Police, all coincidences are suspect. When a second young Israeli from the flight is kidnapped, this time at gunpoint from his hotel room, his suspicions are confirmed - and a diplomatic crisis looms. As the race to identify the victims and the reasons behind their abductions intensifies, a covert Chinese commando team watches from the rooftops, while hour by hour the morgue receives fresh bodies from around Paris. This could be one long night in the City of Lights. Translated from the Hebrew by Daniela Zamir

Charles L. Grant sets forth to take us across time and into a fantasy world to his remarkable little Connecticut town of Oxrun Station. There are new horrors on the loose to excite each reader. For all of you who, like the author, yearn for something blatantly old-fashioned, here is an opportunity to climb back into the past, and experience the thrill of the classic tale of The Mummy—the jackal-headed god ... ancient Egypt ... mummies ... eternal ...

the pebbles at the bottom of the river, smooth, unblemished, polished, and the water washes them, runs over them with that tiny rush that she herself knows, where did these stones, eternally washing themselves in the Guaso, come from, what sands formed them, there is no air to count them, there is no sun to show them, there is no voice to detail their exact molecules for me, pressed together, pressed together till asphyxiation to form hardness, but I do know of I, of me, of these rough boots that the Guaso licks, the soles stuck to the pebbles, the water at ankle height, and my hands on my knees as van Gogh placed them when I was born in one of my many births, through the graphite of his pencil, to cry, seated in a chair,

Reproduction of the original: True Christianity by Johann Arndt

"I have a sense that the times themselves, apart from more or less deliberately created crises, render strong things fragile, and fragile things mortally endangered. The times themselves are a permanent crisis." So writes Daniel Berrigan in this journal of reflections and musings from the late 1970s. First published in 1981, this book traces Berrigan's work after his release from Danbury Prison in 1972 for his part in the Catonsville Nine antiwar demonstration--from his experiences in Palestine, Northern Ireland, and France (where he lived with Thich Nhat Hanh), to his experiences as a teacher in Manitoba and Berkeley. Throughout, Berrigan ponders the commands of Christ, the struggle to be faithful to these commands, and why so few take them seriously. With wit and wisdom, Berrigan shares his faith journey and encourages us to stay faithful to that journey, to be peacemakers for the long haul.

Long-Term Solutions for a Short-Term World demonstrates the complexity of the challenges that poor countries face and introduces the readers to the concept and impact of participatory research for development. Participatory research requires researchers to work with communities, governments, and other relevant actors to deal with common problems. Finding solutions requires participants to reflect critically on the cultural, economic, historical, political, and social contexts within which the issue under investigation exists. The book contains a collection of essays from development researchers and professionals, each of whom is an activist who has made significant contributions to the struggles of the poor in their own societies. Essays are presented as case studies and, in each, the contributor explains the specific development problem, the paths followed to solve the problem, lessons learned as a

result of the research, and the development challenges on the horizon in his field of research. Together, these essays present a fascinating picture of how some of today's most pressing development issues are being dealt with through research, demonstrating how interdisciplinary and alternative approaches can be implemented in new and innovative ways.

Located on the Dnieper River at the crossroads of Belarus, Russia, and Ukraine, the town of Rechitsa had one of the oldest Jewish communities in Belarus, dating back to medieval times. By the late nineteenth century, Jews constituted more than half of the town's population. Rich in tradition, Jewish Rechitsa was part of a distinctive Lithuanian-Belorussian culture full of stories, vibrant personalities, achievement, and epic struggle that was gradually lost through migration, pogroms, and the Holocaust. Now, in Albert Kaganovitch's meticulously researched history, this forgotten Jewish world is brought to life. Based on extensive use of Soviet and Israeli archives, interviews, memoirs, and secondary sources, Kaganovitch's acclaimed work, originally published in Russian, is presented here in a significantly revised English translation by the author. Details of demographic, social, economic, and cultural changes in Rechitsa's evolution, presented over the sweep of centuries, reveal a microcosm of daily Jewish life in Rechitsa and similar communities. Kaganovitch looks closely at such critical developments as the spread of Chabad Hasidism, the impact of multiple political transformations and global changes, and the mass murder of Rechitsa's remaining Jews by the German army in November to December 1941. Kaganovitch also documents the evolving status of Jews in the postwar era, starting with the reconstitution of a Jewish community in Rechitsa not long after liberation in 1943 and continuing with economic, social, and political trends under Stalin, Khrushchev, and Brezhnev, and finally emigration from post-Soviet Belarus. The Long Life and

Swift Death of Jewish Rechitsa is a major achievement. Winner, Helen and Stan Vine Canadian Jewish Book Award for Scholarship, Koffler Centre of the Arts

When her former director is found dead in the water, librarian Lucy Richardson will have to get to the bottom of the mystery before the killer ends her tale. It's summertime in the Outer Banks of North Carolina and Bertie James's college class is having their 40th anniversary reunion. The opening night reception is held at the Lighthouse Library and Lucy and her colleagues have assembled an exhibit of library artifacts showing how libraries have changed over the years. After the reception, some of the women take a walk down the boardwalk to the pier, using flashlights to illuminate the dark path, but what's scarier than the dark is finding the former director of the Lighthouse Library floating lifeless in the water. Helena Sanchez, the former director, wasn't much loved and spent the party being rude to almost everyone there. As a result, Lucy finds herself in deep water as she rocks the boat, questioning several suspects. But she'll have to batten down the hatches and fast before she's left high and dry...and right in the killer's crosshairs.

Death has long been a pre-occupation of philosophers, and this is especially so today. The Oxford Handbook of Philosophy of Death collects 21 newly commissioned essays that cover current philosophical thinking of death-related

topics across the entire range of the discipline. These include metaphysical topics--such as the nature of death, the possibility of an afterlife, the nature of persons, and how our thinking about time affects what we think about death--as well as axiological topics, such as whether death is bad for its victim, what makes it bad to die, what attitude it is fitting to take towards death, the possibility of posthumous harm, and the desirability of immortality. The contributors also explore the views of ancient philosophers such as Aristotle, Plato and Epicurus on topics related to the philosophy of death, and questions in normative ethics, such as what makes killing wrong when it is wrong, and whether it is wrong to kill fetuses, non-human animals, combatants in war, and convicted murderers. With chapters written by a wide range of experts in metaphysics, ethics, and conceptual analysis, and designed to give the reader a comprehensive view of recent developments in the philosophical study of death, this Handbook will appeal to a broad audience in philosophy, particularly in ethics and metaphysics. The question of the method of salvation deserves a better answer than is commonly given to it; and certainly an answer that does not destroy the atonement. Indeed, such an answer must be given, if the evangelical faith is to stand, if our rational hold on the grounds of salvation is to be maintained, and if we are to strengthen the faith of others. It cannot be that that Cross which is
