Redrawing the Historical Past examines how multiethnic graphic novels portray and revise U.S. history. This is the first collection to focus exclusively on the interplay of history and memory in multiethnic graphic novels. Such interplay enables a new understanding of the past. The twelve essays explore Mat Johnson and Warren Pleece's *Incognegro*, Gene Luen Yang's *Boxers and Saints*, GB Tran's *Vietnamerica*, Scott McCloud's *The New Adventures of Abraham Lincoln*, Art Spiegelman's post-Maus work, and G. Neri and Randy DuBurke's *Yummy: The Last Days of a Southside Shorty*, among many others. The collection represents an original body of criticism about recently published works that have received scant scholarly attention. The chapters confront issues of history and memory in contemporary multiethnic graphic novels, employing diverse

methodologies and approaches while adhering to three main guidelines. First, using a global lens, contributors reconsider the concept of history and how it is manifest in their chosen texts. Second, contributors consider the ways in which graphic novels, as a distinct genre, can formally renovate or intervene in notions of the historical past. Third, contributors take seriously the possibilities and limitations of these historical revisions with regard to envisioning new, different, or even more positive versions of both the present and future. As a whole, the volume demonstrates that graphic novelists use the open and flexible space of the graphic narrative page--in which readers can move not only forward but also backward, upward, downward, and in several other directions--to present history as an open realm of struggle that is continually being revised. Bill Warren's *Keep Watching the Skies!* was originally published in two volumes, in 1982 and 1986. It was then greatly expanded in what we called the 21st Century Edition, with new entries on several films and revisions and expansions of the commentary on every film. In addition to a detailed plot synopsis, full cast and credit listings, and an overview of the critical reception of each film, Warren delivers richly informative assessments of the films and a wealth of insights and anecdotes about their making. The book contains 273 photographs (many rare, 35 in color), has seven useful appendices, and concludes with an enormous index. This book is also available in softcover format (ISBN 978-1-4766-6618-1).

an already existing fictional work and explore gaps and discrepancies within it. Working from the idea that texts constitute archives, expanded and altered by each addition, close readings of a selection of fanfics illustrate particular transformative practices in the online environment. The central figure of the vampire is read through the lens of fanfic authors' contributions to the archives, particularly regarding how figuratively or literally refigured versions of the trope are used to subvert norms established in the source texts concerning depictions of sexuality, sexual practices, and monstrosity. Complex relationships between authorial power and subversion, between mainstream messages and individual interpretations, are examined through fanfic analyses, the findings contributing to discussions about contemporary literary creativity. In the late 1830s, London began appearing as a site of literary terror, and by the end of the century a large proportion of the important Victorian "Gothic revival" novels were set in the city. In *Darkest London* is a full-length study of the Victorian Urban Gothic, a pervasive mode that appears not only in straightforward novels of terror but also in the works of mainstream authors. Placing the conventions of the Gothic form in their proper historical context, *In Darkest London* will appeal to scholars and students interested in an in-depth survey of the Urban Gothic. In the three decades between 1946 and 1976, the Central Flying School which was based at Little Rissington, produced over 6000 fledgling Qualified Flying Instructors and continually endeavoured to monitor and improve the wider Royal Air Force's standards of flying, based on its sound, proven instructional methods and a wealth of tradition extending back to Upavon in 1912. With the cessation of hostilities in 1945, the station's role took on a new dimension with the arrival of the Central Flying School (CFS) from RAF Upavon in the following year. The main function of CFS was to fulfil RAF requirements and assist some Commonwealth air force requirements for flying instructors. RAF Little Rissington became CFS's important focal base for the next thirty years. The book covers the 1946 to 1976 period and has been drawn from from the records at the National Archives, the RAF Museum, the Central Flying School Archive, and from published sources. Anecdotes and recollections from over 100 service and civilian personnel, ranging from Air Marshals to AC2s, who were once based at Little Rissington bring these unfolding years to life.

analyzing modern Viennese visual culture, informed by Austro-German theater, contemporary medical treatises centered on hysteria, and an original examination of dramatic gestures in expressionist artworks. It centers on the following question: How and to what end was the human body discussed, portrayed, and utilized as an aesthetic metaphor in turn-of-the-century Vienna? By scrutinizing theatrically “hysterical” performances, avant-garde puppet plays, and images created by Oskar Kokoschka, Koloman Moser, Egon Schiele and others, Nathan J. Timpano discusses how Viennese artists favored the pathological or puppet-like body as their contribution to European modernism.

This is a book about Strindberg and about autobiographical writing, about how a particular writer projects himself in language, the problems this entails, the subterfuges it engenders, about how he finds and loses himself there. It therefore attempts to place this central aspect of Strindberg's project upon a more nuanced and substantial footing than the familiar tradition of biographical criticism in Strindberg studies normally permits, and does not restrict itself only to those works singled out by Strindberg as explicitly autobiographical. Nor, I should perhaps add, does it concern itself in any detailed way with the laborious examination of the relative accuracy of the life Strindberg attributed to himself – whether, for example, the description of his early years in *The Son of a Servant* as a time of fear and hunger is in fact belied by the evident plenitude in the way of food and drink as chronicled in his father's household accounts. In any case, the myth a writer generates about his own experience is as significant a fact as any other, and a writer like Strindberg merely accentuates the way in which all of us live our lives as fictions in terms of the available narrative and plot structures, structures that incorporate those personal symbolic landscapes which (as Strindberg well knew) are in large part unconsciously fostered by the prevailing doxa or mythologies. I am aware, however, that the approach employed here remains partial.

Notwithstanding his achievement in other fields, all of which, including his scientific preoccupations deserve to be taken seriously, Strindberg's major achievement remains his drama. A consummate creator as well as player of roles, the mosaic work of character which he elaborated in his theatrical projections is an essential complement to the life traced in his prose works, and deserves to be studied as such. Moreover, like Janine Chasseguet-Smirgel, in her analysis of Strindberg in *Pour une psychanalyse de l'art et de la créativité* (Paris, 1971), "Je n'ai pas manqué toutefois d'être frappée par la pauvreté relative des thèmes des oeuvres biographiques si on les compare à la richesse des élaborations dont ces mêmes thèmes sont l'objet dans l'oeuvre dramatique." Maybe the occasion to explore this elaborated wealth of drama will one day present itself.

The previous volume of the Vampire Chronicles, *Memnoch the Devil*, was called 'a modern *Paradise Lost*' by the *Washington Post*. Taking the Vampire Lestat from fiction into legend, it left him lying in a New Orleans convent, at the edge of death. Magnificent and electrifying, this new volume in the Vampire Chronicles returns to the glittering story of Armand, mesmerizing leader of the vampire coven at the eighteenth-century Theatre des Vampires in Paris (seductively played by Antonio Banderas in the film of *Interview with the Vampire*). Snatched from the steppes of Russia as a child, and sold as a slave in Renaissance Venice, Armand's story sweeps through several hundred years, to New Orleans at the end of the twentieth century, where Lestat lies waiting for immortality, and the legend continues to grow. . . . .

From 18th Century poetry up to modern 3D cinema, the vampire has developed a genre in its own right. Leaving behind its roots in phantasmagoria and horror, taking in romance, action and adventure, as well as flights of science fiction fantasy and political allegory. The vampire is a part of all these fields of artistry and beyond them, a melting pot of imagination and invention that has captivated audiences around the world. In the first part of this volume, Andrew M. Boylan - author of the famous vampire blog *Taliesin Meets the Vampires*, looks at the genesis of the vampire genre from Ossenfelder's poem *Der Vampir* to Bram Stoker's seminal novel *Dracula*. The second part of the book spreads eclectically out from *Dracula*, just as the genre spread, taking in some famous

kissing cousins of the genre as well as looking at the vampire's changing relationship with the divine and following the toothsome bloodsuckers out into space. This work studies the ways vampiric narratives explore the eco-friendly credentials of the undead. Many of these texts and films show the vampire to be an essential part of a global ecosystem and an organism that can no longer tolerate the all-consuming forces of globalization and consumerism. Re-examining Bram Stoker's *Dracula* and a range of other vampire narratives, primarily films, in a fresh light, this book reveals the nosferatu as both a plague on humankind and the eco-warriors that planet Earth desperately needs.
