Accounting: An Introduction to Principles and Practice 9edCengage AU

Third edition of text for TAFE students, first published in 1992. Fully revised, it now includes material on units of use-depreciation. Cross-referencing between chapter questions has also been reorganised. Includes an index. A student workbook is also available. The author teaches accounting and finance at Wetherill Park College, South Western Sydney Institute of TAFE.

Financial Accounting has been written specifically to cover the learning outcomes of the TAFE module in financial accounting taken by students studying for a Certificate 4, Diploma or Advanced Diploma in Accounting. Written in the same style as the best selling introductory TAFE accounting text Accounting: An Introduction to Principles and Practice, fourth edition, this new text will take your students to the next step in their study of TAFE accounting.

New edition retains the popular step-by-step introduction to basic accounting concepts, principles, and procedures leading to a basic accounting system. 2nd edition substantially increases the number of problems and solutions, and adds chapters on partnerships and financial analysis methods. Book comprehensively covers proprietorship, corporation, and partnership accounting.
