Impression Management Theory and Social Psychological Research gathers together the various strands of thinking and research on impression management. This book does not easily lend itself to a singular organization. Not only do the authors deal with very different topics, they sometimes disagree with one another on assumptions and interpretations. Nevertheless, there are chapters that tend to group together. The book can be organized into six parts. Part I, General Theory, consists of chapters that deal primarily with issues related to the reasons for, and specific tactics of, impression management. Part II, Impression Management and Laboratory Research, includes two chapters that make a major contribution to the social psychology of the experiment. Part III, Attitudes as Tactics of Self-Presentation, centers around the concept of attitudes. The chapters in Part IV, Self-Presentation and Harm-Doing, are organized around the theme of harm-doing. Part V, Bargaining, Distributive Justice, and Impression Management, focuses on the distribution of rewards in groups. Part VI, Individual Differences and Impression Management, is concerned with individual differences such as mental illness, social anxiety, and shyness.

The 3rd Edition of Literacy & Learning in the Content Areas helps readers build the knowledge, motivation, tools, and confidence they need as they integrate literacy into their middle and high school content area classrooms. Its unique approach to teaching content area literacy actively engages preservice and practicing teachers in reading and writing and the very activities that they will use to teach literacy to their own students in middle and high school classrooms. Rather than passively learning about strategies for incorporating content area literacy activities, readers get hands-on experience in such techniques as mapping/webbing, anticipation guides, booktalks, class websites, and journal writing and reflection. Readers also learn how to integrate children's and young adult literature, primary sources, biographies, essays, poetry, and online content, communities, and websites into their classrooms. Each chapter offers concrete teaching examples and practical suggestions to help make literacy relevant to students' content area learning. Author Sharon Kane demonstrates how relevant reading, writing, speaking, listening, and visual learning activities can improve learning in content area subjects and at the same time help readers meet national content knowledge standards and benchmarks.

In this sweeping literary, cultural, and political history, French sociologist Ginette Castro vividly and dramatically tells the story of the contemporary women's movement in the United States. From the liberal feminists, like Betty Friedan, Mary Daly, and the members of NOW, to the radical feminists, including Kate Millett, Ti-Grace Atkinson, New York Radical Women, and Cell 16, Dr. Castro offers an enlivened yet balanced account of the many different ideological currents within the movement. Central to her contribution is the detailed reexamination of the role of the radical feminists, and her efforts to neutralize the sensationalism which

has become attached to this segment of the movement. Captured here is the diversity of expression and yet the underlying unity, and potential for ideological synthesis in the American feminist movement. American Feminism makes an invaluable contribution to understanding the course of feminism in the United States and its radical roots.

From the Reagan years to the present, the labor movement has faced a profoundly hostile climate. As America's largest labor federation, the AFL-CIO was forced to reckon with severe political and economic headwinds. Yet the AFL-CIO survived, consistently fighting for programs that benefited millions of Americans, including social security, unemployment insurance, the minimum wage, and universal health care. With a membership of more than 13 million, it was also able to launch the largest labor march in American history--1981's Solidarity Day--and to play an important role in politics. In a history that spans from 1979 to the present, Timothy J. Minchin tells a sweeping, national story of how the AFL-CIO sustained itself and remained a significant voice in spite of its powerful enemies and internal constraints. Full of details, characters, and never-before-told stories drawn from unexamined, restricted, and untapped archives, as well as interviews with crucial figures involved with the organization, this book tells the definitive history of the modern AFL-CIO.

Kaplan's, 5-Steps, Crash Course and other review books are great resources for that last month before the exam, but Tamm's Textbook Tools student activity books are meant to be an accompaniment all year long. This AP* U.S. History companion is filled with vocab and assignments that follow the Kennedy/Cohen sixteenth edition for all 41 chapters. They can be used as regular weekly assignments or reviews. They can be used on short notice if there is a sub, or be assigned as regular homework. All you need is the textbook. Teachers can copy at will, or the book can be used as a student consumable. As publishers began putting their content online, a niche for traditional classwork was opened, a void filled by this series. And whether the textbook itself is written in ink or electrons, many students still find it more valuable to write and keep notes for themselves on paper, and portfolios still matter. The activities in this workbook challenge students to apply the concepts, give examples, and diagram every chapter. Find TTT on FB.

This book analyses how oppressed citizens - women, African Americans, and political radicals - create their own forms of public expression.

Now in its 4th edition, this popular text for secondary social studies methods courses integrates discussions of educational goals and the nature of history and social studies with ideas for organizing social studies curricula, units, lessons, projects, and activities. A major theme throughout is that what teachers choose to teach and the way they teach reflect their broader understanding of society, history, and the purpose of social studies education. Advocating an inquiry and activity-based view of social studies teaching that respects the points of view of students and teachers, and based in practice and experience, it offers systematic support and open, honest advice for new teachers. Each chapter addresses a broad question about social studies education; sub-chapters begin with narrower questions that direct attention to specific educational issues. Lesson ideas and materials in the book and online are especially designed to help new teachers to address common core learning standards, to work in inclusive settings, and to promote literacy and the use of technology in social studies classrooms. Chapters include highlighted Learning Activities, Teaching Activities, and Classroom Activities designed to provoke discussion and illustrate different approaches to teaching social studies, and conclude with recommendations for further reading and links to on-line essays about related social studies topics. Activities are followed by four categories: "Think it over," "Add your voice to the discussion," "Try it yourself," and "It's your classroom." All of these are supported with online teaching material. Designed for undergraduate and graduate pre-service social studies methods courses, this text is also useful for in-service training programs, as a reference for new social studies teachers, and as a resource for experienced social studies educators who are engaged in rethinking their teaching practice. New in the Fourth Edition Provides a number of new lesson ideas paired with online lesson plans and activity sheets in every chapter Takes a new focus on data-driven, standards-based instruction, especially in relation to the common core curriculum Addresses the interactive nature of learning in updated technology sections Reflects current trends in history education Includes more of what the author has learned from working teachers Offers a wealth of additional on-line material linked to the text
