In De man die zijn vrouw voor een hoed hield vertelt Oliver Sacks de verhalen van mensen die lijden aan perceptuele en intellectuele afwijkingen: patiënten die hun herinneringen kwijt zijn, niet langer in staat zijn om geliefden of alledaagse voorwerpen te herkennen, of patiënten die te maken hebben met tics en die zonder dat te willen obsceniteiten schreeuwen. Hoewel deze gevallen ons vaak bizar voorkomen, worden ze door Sacks' respectvolle en sympathieke wijze van vertellen diep menselijk. Aan de hand van fascinerende en vaak ontroerende ziektegeschiedenissen laat Sacks zien hoe het is om te moeten leven met een neurologische afwijking.

This vital new study aid is based on the latest changes in the format of the MRCPsych examination so it is completely up-to-date. It combines both Extended Matching Questions and Individual

Statements along with timed practice papers to reflect the structure and content of the exam. In addition, it contains clear, concise solutions to each

.....

In 1968 besloot Donald Crowhurst mee te doen aan de allereerste solozeilrace rond de wereld. Afgaand op zijn enthousiaste radioberichten dacht iedereen in Engeland dat hij zou winnen. Het land maakte zich al op voor een heldenontvangst. Maar acht maanden na zijn vertrek werd zijn boot gevonden, midden op de Atlantische Oceaan, zonder Crowhurst aan boord. Van hem is nooit meer iets vernomen. In De wonderbaarlijke laatste reis van Donald Crowhurst reconstrueren Nicholas Tomalin en Ron Hall deze fatale tocht over de oceaan. Op basis van de logboeken aan boord en vele gesprekken met Crowhursts familie en vrienden ontdekken ze hoe hij iedereen om de tuin wist te leiden. De stoere oceaanzeiler die velen in Crowhurst zagen, bleek een eersteklas oplichter en fantast. 'Een van de meest bijzondere verhalen over de zee die ooit zijn geschreven.' - Washington Post 'Een virtueuze weergave van de anatomie van de ziel.' - New York Times Book Review 'Het zeedrama van de eeuw.' - Sir Francis Chichester

Instructors have come to know that they can rely on this textbook to provide a critical analysis of the major issues in historical and contemporary psychology in a manner that students find engaging

and comprehensible.-Pref.

This thorough text, now in its fourteenth edition, offers a fresh and up-to-date view of the dynamic nature of contemporary psychology. The authors build a strong foundation in the fundamentals of psychology while featuring the most innovative and groundbreaking current research.

This text offers an up-to-date view of the dynamic nature of contemporary psychology. The authors build a strong foundation in the fundamentals of psychology while featuring the most innovative contemporary research. With plenty of supportive pedagogy, experiments are explained in detail, and charts and figures add to an understanding of the results. The book offers an integrated biological orientation, a trend that is changing the way psychological topics are viewed, exemplified by the coverage of bio-evolutionary research.

Een verrassende kijk op de liefde vanuit een biologisch perspectief Meer nog dan optimisme en geluk oefent liefde een verregaande invloed uit op onze psychische en fysieke gezondheid. Barbara Fredrickson verrichtte baanbrekend onderzoek naar de kracht van positieve emoties. Daaruit bleek dat liefde, dat ze herdefiniëerde als 'een micromoment van verbondenheid', veruit de krachtigste van deze emoties is. In Liefde 2.0 toont ze niet alleen hoe emoties inwerken op ons brein en ons lichaam, maar ook hoe we zelf micromomenten van liefde kunnen creëren en hoe deze je flexibeler, empathischer en creatiever kunnen maken. Inleidend studieboek op universitair niveau.

Now in its 16th edition, Atkinson & Hilgard's Introduction to Psychology has been fully revised and updated to reflect all recent research developments, theories and ideas, whilst also retaining all of the qualities which have established it as a leading undergraduate psychology textbook over the past five decades, including its highly accessible and engaging student-centred approach. The established author team of Susan Nolen-Hoeksema, Barbara Fredrickson and Geoffrey R. Loftus has been joined by Christel Lutz (University of Utrecht), who has helped to add a fresh European influence, and thereby create a truly international introductory textbook. The 'Cutting Edge Research' box features and 'Seeing Both Sides' essays which conclude each chapter have been fully updated and replaced throughout, using contributions from a range of experts across the globe, and really help to bring the text to life for students.
