The traditional production measure of moral judgment has been the Moral Judgment Interview (MJI), which uses hypothetical moral dilemmas to elicit moral judgment. However, the MJI dilemmas have been criticized as artificial and may not be entirely appropriate for children, certain cultures, and practical moral situations. This unique volume utilizes and evaluates a new production measure of moral judgment, the Sociomoral Reflection Measure -- Short Form (SRM-SF), which substitutes brief stimulus materials and evaluative questions for the moral dilemma technique. The authors report that the SRM-SF exhibits an impressive degree of reliability and validity and is quicker to administer and score than other available measures. To illustrate these findings, this book offers the resources needed for the assessment of the Kohlbergian stage of moral judgment using the SRM-SF. These resources include: an up-to-date review of research and theory, a group-administrable questionnaire, an efficient scoring manual, and self-training exercises in assessment.

Psychometrically sound and practical, the SRM-SF has the potential to become the leading moral judgment measure of the 90s.

This book provides a missing link between marginality, migration and education in Zimbabwe, focusing on the educational experiences of migrants' children in an effort to influence government policies concerning migrant parents and their left-behind children. While there is a large body of knowledge on the education of children of immigrants in destination countries, this book aims to fill in the gap by addressing the children who do not migrate with their parents. Through this unique approach, the book examines the education statuses of these left-behind children, offering insights into their educational challenges, rights, and inequities to better inform policy decisions to meet the 2030

There's a saying that goes: "where there's smoke, there was fire". Well I believe that in my case it is where there was love, pain and deceit, only hate can be left. Yes, because I hated him with all my being and that would never change. My nightmare, it had come back to my life, and how. One direct order from the President of the United States himself forced me to coexist twenty four seven with him, and very closely. My name is Isabella Farrel, I am a federal agent. My mission is to "protect the man I hate the most". Hard, isn't it?

The question, "What is the good life? has been the subject of many philosophical discussions and writings over the centuries. Millions of ordinary people have considered it as they started out on the road of life. The author reviews some of the thoughts by Greek philosophers, but concentrates on the Apostle Peter's statement in I Peter 3:10-12. The tongue is a powerful instrument for good or evil. God gave us the power to make choices about the decisions life calls on us to make, but these choices have consequences. Many evil roads open up for us,

and we must choose to turn away from them, and choose to do good. Our happiness in life largely depends on our being at peace with God, ourselves and others. This requires real commitment on our part. Christ promised to give his disciples a special kind of peace, not as the world gives. Paul spoke of it as "the peace of God which surpasses all understanding" Philippians 4:7. This peace comes from such things as: remembering God loves us; keeping our conscience clear; learning the secret of contentment; being satisfied with who we are; keeping contact with the Heavenly Father in prayer. God promises, "The eyes of the Lord are on the righteous, and his ears are open to their cry." Psalm 34:15 The author concludes with some things his ninety three years have taught him. Life will sometimes be hard. God's law of sowing and reaping is unalterable. Need for people in his life. All need meaningful work. Our self-respect affects how others regard us. We all have a need for something to look forward to. God can be trusted. We don't know what tomorrow may bring.

Few Christians realize nearly every problem in life stems from an unwillingness to forgive someone. When we hold grudges, seek retribution, and blame

others, we end up hurting our relationships with God and people—and short-circuit our ability to live the Christian live the way it's meant to be lived. Why is forgiveness so difficult at times? Must we forgive when it's the other person's fault? How should we handle repeat offenses? What if we feel we can't forgive because we've been hurt so badly? Pritchard answers these questions and more by pointing to God's example as the Supreme Forgiver. When we learn to forgive in the way He forgives, then we'll know true freedom, peace, and emotional healing. Your brokenness is the key to knowing God as Father. God has an identity. He does not want to be known as a higher power or confined to our limited understanding and judgment of Him. Those who want to know the name of God—and most importantly want to know God as He desires to be known—can discover him as Abba. Matthew L. Stevenson III captures all the teachings of Jesus that demonstrated the Father. This book also highlights how aggressively Satan distorts the father role to fracture people's lives in the areas of: • Identity • Security • Failures • Confidence Abba addresses the key to a more fulfilling worship life as well as understanding God's heart toward the fatherless. A revelation of the father heart of God is needed more now than ever.

ADULTERY Recognizing the Signs Stopping It Before It Starts Recovering from the Damage One-half of the young and middle-aged couples in this country will at some time struggle with the painful and destructive results of an affair. Can these marriages be saved? Can the number of shaken marriages be reduced?

Psychologist and counselor Henry Virkler has some answers. In this vital book he describes the devastating effects of adultery, how couples can take preventive steps to reduce the likelihood of it happening in their own marriages, and what to do if it does happen. He writes for professional counselors, for pastors, and for those laypersons who find themselves wanting to understand the situation better. While the author is a committed Christian psychologist and counselor, he warns that faith doesn't automatically safeguard couples from sexual temptation. He shows - how to avoid "innocent" situations that can easily lead to an affair; - what you can do to strengthen your marriage and reduce the possibility that you or your partner will be tempted in an affair; - how to tell if your mate is having an affair, and what to do if your worst fears prove true; - how adultery does not need to lead to divorce if approached in the right way.

The definitive history of the marriage equality debate in the United States, praised by Library Journal as "beautifully and accessibly written. . . . An essential work." As a legal scholar who first argued in the early 1990s for a right to gay marriage, William N. Eskridge Jr. has been on the front lines of the debate over same?sex marriage for decades. In this book, Eskridge and his coauthor, Christopher R. Riano, offer a panoramic and definitive history of America's marriage equality debate. The authors explore the deeply religious, rabidly political, frequently administrative, and pervasively constitutional features of the debate and consider all angles of its dramatic history. While giving a full account of the legal and political issues, the authors never lose sight of the personal stories of the people involved, or of the central place the right to marry holds in a person's ability to enjoy the dignity of full citizenship. This is not a triumphalist or one?sided book but a thoughtful history of how the nation wrestled with an important question of moral and legal equality.

In many ways, divorce is a quintessentially personal

decision—the choice to leave a marriage that causes harm or feels unfulfilling to the two people involved. But anyone who has gone through a divorce knows the additional public dimensions of breaking up, from intense shame and societal criticism to friends’ and relatives’ unsolicited advice. In *Intimate Disconnections*, Allison Alexy tells the fascinating story of the changing norms surrounding divorce in Japan in the early 2000s, when sudden demographic and social changes made it a newly visible and viable option. Not only will one of three Japanese marriages today end in divorce, but divorces are suddenly much more likely to be initiated by women who cite new standards for intimacy as their motivation. As people across Japan now consider divorcing their spouses, or work to avoid separation, they face complicated questions about the risks and possibilities marriage brings: How can couples be intimate without becoming suffocatingly close? How should they build loving relationships when older models are no longer feasible? What do you do, both legally and socially, when you just can’t take it anymore? Relating the intensely personal stories from people experiencing different stages of divorce, Alexy provides a rich ethnography of Japan while also speaking more broadly to contemporary visions of love and marriage during an era in which neoliberal values are prompting wide-ranging transformations in homes across the globe. What is a conservative atheist? Isn't that an oxymoron? Well, Frank Cress thinks that it is a valid position and, in fact, thinks he can convince you that the conservative atheist position is most rational of all. Come along for

If you are an atheist with socially conservative values you will probably find most of your thoughts expressed here-maybe even for the first time ever in print. Even if you disagree with some or most of the material you'll find this effort to be thought provoking and unique in presentation.

This book is about salvation within unity, and a reminder to all should be our remission for our sins in knowing spiritual guidance must be accepted and maintained for the continual growth for all humans is and will be the balance needed to weed out the greed of destruction.

We must maintain obedience to the prosperity of growth, not greed. None are god to another, but we do have heroes who do godly things for others. We are the flesh, living with and in the spirit of borrowed time. If we all say Amen, then God's will, will be done.

Parents, do you want to help your child through the peaks and valleys of adolescence? By understanding what your teen is experiencing, you can better communicate and help them make wise choices as they attempt to establish their independence. As teens progress into adulthood, there seems to be a shift in where the brain routes judgment calls. Mixed with the abuse of alcohol or illegal drugs, or risky behavior in general, it becomes more difficult for the young adult mind to fully understand the consequences of some choices they make. This book helps teenagers refocus their energy, and make a smoother transition throughout adolescence into early adulthood.

Children need love. Parents need respect. It is as simple and complex as that! When frustrated with an unresponsive child, a parent doesn't declare, "You don't love me." Instead the parent asserts, "You are being disrespectful right now." A parent needs to feel respected, especially during conflicts. When upset a child does not whine, "You don't respect me." Instead, a child pouts, "You don't love me." A child needs to feel loved, especially during disputes. But here's the rub: An unloved child (or teen) negatively reacts in a way that feels disrespectful to a parent. A disrespected parent negatively reacts in a way that feels unloving to the child. This dynamic gives birth to the FAMILY CRAZY CYCLE. So how is one to break out of this cycle? Best-selling author Emerson Eggerichs has studied the family dynamic for more than 30 years, having his Ph.D. in Child and Family Ecology. As a senior pastor for nearly two decades, Eggerichs builds on a foundation of strong biblical principles, walking the reader through an entirely new way to approach the family dynamic. For instance, God reveals ways to defuse the craziness with our children from preschooler to teen, plus how to motivate them to obey and how to deal with them when they don't. In the Bible, God has spoken specifically to parents on how to parent. This book is about that revelation.

Heartbreaks could break you down, would resist you to believe in life again. However we do realize at the end it is just a "phase". A phase where your mom is there to relive your faith in love, where your dad is there to help you get over it all, where siblings are there to hold you upright and where your friends are there to give you the best piece of advice. Unkept Promises was written in a short period of time and is meant to entertain the readers and to share a story which is very close to the author's heart. Cheers to all the readers. Addiction is a complex condition that affects not only the person struggling with addiction, but their friends, family, and community. It can be hard to treat and even harder to understand. This book breaks down this multifaceted condition by addressing the problems that people with addiction face, how loved ones cope with those closest to them struggling with addiction and how communities and society are affected by this disease. To understand addiction is to understand a problem that affects us on an individual level and a broader level addiction is an illness we all experience personally, among our community and in our society.

Chaos. Frustration. Compassion. Desperation. Hope. These are the five words that author Wendy Welch says best summarize the state of foster care in the coalfields of Appalachia. Her assessment is based on interviews with more than sixty social workers, parents, and children who have gone through "the system." The riveting stories in Fall or Fly tell what foster care is like, from the inside out. In depictions of foster care and adoption, stories tend to cluster at the dark or light ends of the spectrum, rather than telling the day-to-day successes and failures of families working to create themselves. Who raises other people's children? Why? What's money got to do with it when the love on offer feels so real? And how does the particular setting of Appalachia—itself so frequently oversimplified or stereotyped—influence the way these questions play out? In

Fall or Fly, Welch invites people bound by a code of silence to open up and to share their experiences. Less inspiration than a call to caring awareness, this pioneering work of storytelling journalism explores how love, compassion, money, and fear intermingle in what can only be described as a marketplace for our nation's greatest asset.
