Cramer, author of *Jim Cramer's Real Money: Sane Investing in an Insane World*, CNBC commentator, and cofounder of *TheStreet.com* American opportunity is not dead. Bestselling author and entrepreneur John Hope Bryant outlines the mindset and practices that will allow us to achieve the American Dream, no matter what our current circumstances are. Facing a challenging economy, too many Americans despair of improving their lives. But John Hope Bryant insists that America is still the Land of Opportunity. *Up from Nothing* revives the forgotten story of the American Dream. It's about our beginnings as a nation of go-getters who believed they were winners before they won. Using the inspiring story of his own rise from humble beginnings, and that of his parents and grandparents, Bryant shows how individually we can change our mindset from survivor to thriver to winner and move beyond just getting by or being financially independent to becoming wildly successful. Collectively, we need to become a nation of winners once again. By ensuring that every stakeholder in America has access to the Five Pillars of Success—massive education, financial literacy, strong family structure, self-esteem, and supportive role models—Bryant shows how we can fulfill the promise of America's greatness. But to do so, we must turn away from distractions—such as political in-fighting or racial and class divisions—and focus on what we can control. This is not a book of tips on how to get a better job or make more money. It's about adopting a new way of thinking that will do all that for us and more. *Up from Nothing* is the new (old) business plan to keep us winning as a country.

Two decades after barbecue kingpins Vince Staten and Greg Johnson published their ode to the top 100 barbecue joints around the United States, they have logged thousands more miles—and at least as many rib racks—in their quest to monitor, taste, and even create the very best. Part travel guide, part recipe book, REAL BARBECUE is really a celebration of a way of life, peppered with such sage advice as, “A man that won't sleep with his meat don't care about his barbecue” (Early Scott). This update of the classic has a completely new design with photos, trivia, detailed locations of great eating joints coast to coast, sidebars about sauces and sides, columns about cook pits and shack architecture, sections devoted to Texas ribs, Cowboy-que, lowcountry pulled pig, California-que-zeen, and real-man reviews of rib joints such as Allen & Sons in Pittsboro and Vince Staten's Old Time Barbecue in Prospect (he put his money where his mouth is). Secret recipes and mail-order finds are also included. This is your guide to the best barbecue across America, often identified only by a thick black column of smoke in the distance. A syndicated columnist and author of ten books, including Kentucky Curiosities (Globe Pequot Press), Vince Staten has appeared on such media as “Late Night with David Letterman,” “Dateline NBC,” “Today on NBC,” and NPR's “Morning Edition.” His varied career encompasses writing, lecturing, teaching, and co-owning Vince Staten's Old Time Barbecue in downtown Prospect, Kentucky. Greg Johnson is the Features Editor for The Courier-Journal in Louisville, Kentucky. “This book is to barbecue what Rand-McNally is to maps.”—Playboy magazine “What Masters and Johnson did for sex, Staten and Johnson do for barbecue.”—Willard Scott “This is a helluva readable book... There's as much flavor in the writing as in the Rev. Noble Harris' sauce at House of Prayer Bar-B-Que in Fort Lauderdale... Toss this on the dash and hit the road.”—Gannett News Service

The definitive guide to the nation's toughest football conference; the Bible of SEC Football, the fascinating history of the nation's toughest football conference told by one of the best storytellers In the business, Dr. Chris Warner. Tailgater's Guide to SEC Football Volume V – The definitive guide to the history and traditions of the 14 schools of the Southeastern Conference (2020). Contains profiles of great players and coaches, school histories, recipes, famous alumni, where to shop and golf, etc. The Bible of SEC Football. \$15.95 Paperback, 320 pages. Synopsis: “Dan Jenkins, author and sportswriter, simply summed up the popularity of the game of football in the South with the following statement: “To Southerners, football is as essential as air conditioning.” The irreplaceable “Voice of the Volunteers” on radio during the 1950's, George Mooney, once stated, “...No matter where I was broadcasting from, I found the fans in the South to be knowledgeable, fair—and yes, loud and frenzied. They are very proud of their rich football heritage. And they are very proud of their schools, their teams—and the deep pride that goes with being from the South.” Late legendary college football commenter Keith Jackson, in describing the SEC

Football experience, once aptly stated that " ...there are few instances of alleged entertainment and relaxation that can match a college football game in stirring the deepest flames of partisanship and outright provincialism. And down South you can color that partisanship passionate!" Southeastern Conference Football is the paragon of the college athletic experience. During its storied, 87-year existence, the SEC has evolved into the most impressive league of organized, intercollegiate gridiron competition in the history of the United States. No other Football Bowl Subdivision (FBS) conference can boast of the many accolades and attendance records that the SEC currently holds. Furthermore, the Southeastern Conference has produced more All-American football players than any other conference. This book is dedicated to all the Southern people who live for Saturdays in the fall, for those individuals who plan their business and personal engagements around their favorite team's football schedule; for those who always experience a rise in their body temperature when they enter the stadium; for those who shed a tear during the singing of their alma mater; and especially, for those who know all the words to their school's fight song. It is for the people who wake up early on Sunday morning after a win so they can read each and every one of the sports columns about the game they witnessed the day before. It is for all those who enjoy good company and good food in the parking lot before the game, as much, and if not more, than the food and company at a fancy restaurant. These things that we hold dear – all true SEC fans know and love, and look forward to each autumn. It's that time of year when the heated summer temperatures begin to fade and yield to colder days, when the leaves begin to change color, and when the youthful partisan spirit within us all crackles like the kindling of a well-planned winter fire.

Will Friedwald's illuminating, opinionated essays—provocative, funny, and personal—on the lives and careers of more than three hundred singers anatomize the work of the most important jazz and popular performers of the twentieth century. From giants like Ella Fitzgerald, Louis Armstrong, Frank Sinatra, and Judy Garland to lesser-known artists like Jeri Southern and Joe Mooney, they have created a body of work that continues to please and inspire. Here is the most extensive biographical and critical survey of these singers ever written, as well as an essential guide to the Great American Songbook and those who shaped the way it has been sung. The music crosses from jazz to pop and back again, from the songs of Irving Berlin and W. C. Handy through Stephen Sondheim and beyond, bringing together straightforward jazz and pop singers (Billie Holiday, Perry Como); hybrid artists who moved among genres and combined them (Peggy Lee, Mel Tormé); the leading men and women of Broadway and Hollywood (Ethel Merman, Al Jolson); yesterday's vaudeville and radio stars (Sophie Tucker, Eddie Cantor); and today's cabaret artists and hit-makers (Diana Krall, Michael Bublé). Friedwald has also written extended pieces on the most representative artists of five significant genres that lie outside the songbook: Bessie Smith (blues), Mahalia Jackson (gospel), Hank Williams (country and western), Elvis Presley (rock 'n' roll), and Bob Dylan (folk-rock). Friedwald reconsiders the personal stories and professional successes and failures of all these artists, their songs, and their performances, appraising both the singers and their music by balancing his opinions with those of fellow musicians, listeners, and critics. This magisterial reference book—ten years in the making—will delight and inform anyone with a passion for the iconic music of America, which continues to resonate throughout our popular culture.

Dark tourism has become widespread and diverse. It has passed into popular culture vernacular, deployed in guide books as a short hand descriptor for sites that are associated with death, suffering and trauma. However, whilst books have been devoted to dark tourism as a general topic no single text has sought to explore dark tourism in spaces where crime - mass murder, genocide, State sanctioned torture and violence - has occurred as an organising theme. *Dark Tourism and Crime* explores the socio-cultural contours of this unique type of tourism and explains why spaces/places where crime has occurred fascinate and attract tourists. The book is marked by an ethics of respect for the suffering a place has experienced and an imperative to learn something tangible about the history and legacy of that suffering. Based on empirical ethnographic research it takes the reader from the remnants of Auschwitz concentration camp to the tranquil Australian island of Tasmania to explore precisely what things a dark tourist might encounter - architecture, art installations, gardens, memorials, physical traces of crime - and how these things invoke and evoke past crimes. This volume furthers understanding of dark tourism and will be of interest to students, researchers and academics of criminology, tourism and cultural studies.

The Oxford Handbook of Qualitative Research presents a comprehensive overview of the field of qualitative research. It is intended for students of all levels, faculty, and researchers across the social sciences. The contributors represent some of the most influential and innovative researchers in the field as well as emerging scholars. This handbook provides a broad introduction to the field of qualitative research to those with little to no background in the subject, while simultaneously providing substantive contributions to the field that will be of interest to even the most experienced researchers. It serves as a user-friendly teaching tool suitable for a range of undergraduate or graduate courses, as well as individuals working on their thesis or other research projects. With a focus on methodological instruction, this volume offers both a retrospective and prospective view of the field. The first two sections explore the history of the field, ethics, and philosophical/theoretical approaches. The next three sections focus on the major methods of qualitative practice as well as newer approaches (such as arts-based research and internet research); area studies often excluded (such as museum studies and disaster studies); and mixed methods and participatory methods (such as community-based research). The next section covers key issues including data analysis, interpretation, writing and assessment. The final section offers a commentary about politics and research and the move towards public scholarship.

From its small headwaters in Hall County, Georgia, the North Oconee winds nearly seventy miles, tumbling over granite outcroppings at Hurricane Shoals and on to Athens, where it meets the Middle Oconee. From there, the Oconee courses 220 miles through east-central Georgia to meet the Ocmulgee convergence near Lumber City, forming the Altamaha River, which flows

to the Atlantic Ocean. As the Oconee's importance as a recreational amenity has grown over the years, University of Georgia students and instructors, the Altamaha Riverkeeper, Georgia River Network, Upper Oconee Watershed Network, and the North Oconee River Greenway have worked together to create a plan for water trails and recreational trails along the river as it flows through Athens. In the Oconee River User's Guide, both novice and experienced water sports enthusiasts will find all the information required to enjoy the river, including detailed maps, put in and take out suggestions, fishing and camping locations, mile-by-mile points of interest, and an illustrated guide to the animals and plants commonly seen in and around the river. Daytrippers will enjoy Joe Cook's fascinating description of the cultural and natural heritage of this richly diverse waterway. The Oconee River is home to seventy-four species of fish, including the Altamaha shiner, found only in the Altamaha River basin, as well as thirty-seven species of salamanders and frogs and forty-three species of reptiles, including the American alligator, found in the lower Oconee downstream of Milledgeville. FEATURES: an introduction and overview of the river chapters describing each river section with detailed maps and notes on river access and points of interest a compact natural history guide featuring species of interest found along Georgia's rivers notes on safety and boating etiquette a fishing primer notes on organizations working to protect the river
