Toen Het leven een gebuiksaanwijzing – door Italo Calvino geroemd als ‘de laatste grote gebeurtenis in de geschiedenis van de roman’ – in 1978 verscheen werd het direct bekroond met de Prix Médicis. En in 1995, het jaar waarin de Nederlandse vertaling voor het eerst verscheen, werd het door de verzamelde Vlaamse en Nederlandse kritiek uitgeroepen tot het beste boek van dat jaar. De roman is een magistraal literair vlechtwerk van de bizarre levensverhalen van bewoners in een groot oud flatgebouw in Parijs. Excentrieke miljonairs, croupiers, moordenaars, necrofiele schilders, televisieproducenten, danseressen, kamermeisjes en coureurs passeren de revue. Maar hoe uitzonderlijk die

personages ook mogen zijn, het is de banale, nooit ondervraagde, alledaagse werkelijkheid die Perec op minutieuze wijze beschrijft en onder de loep neemt, en die deze roman zo bijzonder maakt. Dit is een boek van wanhoop, liefde en verraad, een 'wonderbaarlijk compleet boek' dat een heel nieuw beeld van de wereld geeft en geschreven is door een auteur die vaak in één adem genoemd wordt met literaire grootheden als Joyce, Nabokov en Borges.

This book focuses on the role of ethics in the application of mindfulness-based interventions (MBIs) and mindfulness-based programs (MBPs) in clinical practice. The book offers an overview of the role of ethics in the cultivation of mindfulness and explores the way in which ethics have been embedded in the curriculum of MBIs and MBPs. Chapters review current training processes and examines the issues around incorporating ethics into MBIs and MBPs detailed for non-secular audiences, including training clinicians, developing program curriculum, and dealing with specific client populations. Chapters also examine new, second-generation MBIs and MBPs, the result of the call for more advanced mindfulness-based practices . The book addresses the increasing popularity of mindfulness in therapeutic interventions, but stresses that it remains a new treatment methodology and in order to achieve best practice status, mindfulness interventions must offer a clear understanding of their potential and limits. Topics

featured in this book include:

- Transparency in mindfulness programs.
- Teaching ethics and mindfulness to physicians and healthcare professionals.
- The Mindfulness-Based Symptom Management (MBSM) program and its use in treating mental health issues.
- The efficacy and ethical considerations of teaching mindfulness in businesses.
- The Mindful Self-Compassion (MSC) Program.
- The application of mindfulness in the military context.

Practitioner's Guide to Mindfulness and Ethics is a must-have resource for clinical psychologists and affiliated medical, and mental health professionals, including specialists in complementary and alternative medicine and psychiatry. Social workers considering or already using mindfulness in practice will also find it highly useful.
