U.S. Master Auditing Guide combines comprehensive explanation and analysis with practical discussion and authoritative source references to provide a single - source guide to both internal and external auditing.

The Certified Internal Auditor (CIA) designation is the only internationally accepted designation for internal auditors and remains the standard by which individuals demonstrate their competency and professionalism in the internal auditing field. The CIA exams test a candidate's knowledge of current internal auditing practices and understanding of internal audit issues, risks and remedies. The Certification in Control Self-Assessment (CCSA) is a specialty certification program designed primarily for practitioners of control self-assessment (CSA). The Certified Government Auditing Professional (CGAP) is a specialty certification designed for and by public-sector internal auditing practitioners. The CIA certification has 4 parts. The CCSA exam and the CGAP exam are single part specialty exams. The CIA exam parts are: PART 1 - THE INTERNAL AUDIT ACTIVITY'S ROLE PART 2 - CONDUCTING THE INTERNAL AUDIT ENGAGEMENT PART 3 - BUSINESS ANALYSIS AND INFORMATION TECHNOLOGY PART 4 - BUSINESS MANAGEMENT SKILLS Do note that many of the CIA/CCSA/CGAP knowledge areas are overlapped (even though they are differently labeled). My suggestion is that you go through ALL TOPICS before taking any of the individual exam modules. Do NOT study on a per module basis. Instead, treat all of them as a whole - this will guarantee that you don't get tripped up when similar questions show up on different exam parts. And know the IPPF inside and out. Many correct answers come out from the IPPF. You want to know that starting from mid 2013 the CIA exam structure will be changed to a new 3-part format. HOWEVER, content-wise the new structure does not really have anything new. In fact, as said by IIA "the final change consists of a realignment of the exam content outline and question count for each part".

The collection provides insights on developments in post-traditional religiosity (especially 'New Age' and 'Neo-Paganism') through studies of rave's Gnostic narratives of ascensionism and re-enchantment, explorations of the embodied spirituality and millennialist predispositions of dance culture, and investigations of transnational digital-art countercultures manifesting at geographic locations as diverse as Goa, India, and Nevada's Burning Man festival. Contributors examine raving as a new religious or revitalization movement; a powerful locus of sacrifice and transgression; a lived bodily experience; a practice comparable with world entheogenic rituals; and as evidencing a new Orientalism. Rave Culture and Religion will be essential reading for advanced students and academics in the fields of sociology, cultural studies and religious studies.

Internationale bestseller over de impact van technologie op ons leven: Google Glasses, zelfrijdende auto's, computers die het menselijk brein vervangen... De digitalisering heeft ons leven drastisch veranderd, en we staan nog maar aan het begin van deze revolutie. 'Vanaf nu wordt de verandering pas echt duizelingwekkend', aldus Erik Brynjolfsson en Andrew McAfee, beiden verbonden aan het prestigieuze MIT. 'En het is aanpassen of verliezen.' Miljoenen mensen dreigen hun baan te verliezen, precare machtsevenwichten verschuiven en de sociale ongelijkheid groeit. Dit tweede tijdperk der machines kan echter ook zorgen voor meer welvaart. Maar dan moeten we nu de juiste keuzes maken.

The CIA certification is moving into a new structure with 3 parts, which are: Part 1 Exam: Internal Auditing Basics Part 2 Exam: Internal Audit Practice Part 3 Exam: Internal Audit Knowledge Elements The exam objectives are being "realigned" as well. Do keep in mind, in the world of Internal Auditing we have not seen any breakthroughs in methodology or technologies in the past 10 years. CCSA and CGAP are single part specialty exams. If you have strong background in internal auditing you will find these exams relatively easy. Note that we are dealing with the International Professional Practices Framework (IPPF), which is the conceptual framework that organizes authoritative guidance promulgated by the IIA. You just need to memorize it.
