'Sex/Life' van BB Easton is een hilarisch memoir over een man, een vrouw en een dagboek. 'Sex/Life' is de inspiratie voor de gelijknamige Netflix-serie. De getrouwde psychologe BB zit vast in een saai huwelijk met accountant Ken. Ze probeert al jaren hun seksleven te verbeteren, maar dat wil nog niet echt lukken. BB besluit een dagboek bij te houden en daarin komen ook haar vorige passionele relatie en haar ex-vriendjes aan bod: een stoere tatoeëerder die bij een motorclub zit, een knappe maar foute rocker en een zachtaardige heavy-metal bassist. Ze lijken precies op de mannen uit haar favoriete romanceboeken en in de verste verte niet op Ken, maar zo heeft BB toch weer wat passie in haar leven, ook al blijft het een geheim. Of dat dacht ze tenminste. Want dan vindt Ken het dagboek, en hij leest het niet alleen, hij leert er ook iets van... 'Sex/Life' van BB Easton is een steamy, hilarische en unieke roman, vanaf juni 2021 ook te zien als Netflix-serie!

The term 'quality' is frequently used in early years practice - both in professional discussions and in key policy and literature - but often without question or an agreed understanding of what quality is and as though it is an entirely unproblematic concept. Through a series of inspiring and thought-provoking chapters this book supports you in considering and developing your own notion of 'quality early years practice' across a broad range of key strands of early years provision – from the environment to policies, from work with vulnerable children and babies to curriculum and research. This book helps you to construct your own idea of quality and challenges you to develop your own understanding through stimulating discussion and reflection points. A key argument is that whilst there are several 'indicators' and 'measures' of quality there is no one universally agreed definition of 'quality' in early years provision and hence developing your own notion of quality and working towards that with others is paramount. Key features include: •Consideration of what 'quality' looks like within a contemporary early years landscape•How you might deliver quality practice when other influences might appear to hinder or contradict this•Reflection points to help you embed and link your learning to practice•A graduated approach for a greater depth of engagement with the topic and relevant literature. With each chapter written by an early years expert Quality in the Early Years is a vital companion for those studying towards any early years qualification, as well as established practitioners and leaders within the field.

Jongeren zitten iedere dag zes uur voor een scherm. Dat is meer tijd dan ze op school doorbrengen. Hadden we het vroeger over schoolgaande jeugd, nu kunnen we beter spreken van schermgaande jeugd. Wat doet al dit schermgebruik met de jeugd? Wordt ze daar slimmer of dommer van, dikker of dunner, beter of slechter? En hoe moeten ouders ermee omgaan? Schermgaande jeugd gaat in op alle belangrijke kwesties die spelen. Waarom hebben tablets zo aantrekkingskracht op peuters? Wat is de invloed van de enorme hoeveelheid porno waarmee pubers zo gemakkelijk in aanraking komen? Maken games en Google tieners dom of juist intelligent? Hoe kunnen ouders het smartphonegebruik van pubers het best binnen de perken houden? En wat te doen met het veelvuldige mediamultitasken? Patti Valkenburg bespreekt, duidelijk en genuanceerd, de laatste stand van zaken over de aantrekkingskracht en effecten van media. Een must voor ouders, studenten, docenten en iedereen met belangstelling voor jeugd, media en opvoeding. Patti M. Valkenburg is een internationaal befaamd onderzoeker op het gebied van jeugd en media. Ze is als universiteitshoogleraar verbonden aan de Universiteit van Amsterdam. Ze publiceerde eerder verschillende succesvolle boeken, waaronder Vierkante ogen en Beeldschermkinderen. Valkenburg is lid van de Koninklijke Nederlandse Akademie van Wetenschappen. Voor haar vernieuwende onderzoek ontving zij in 2011 de NWO-Spinozapremie, de hoogste Nederlandse wetenschapsprijs. Over Beeldschermkinderen: `Beeldschermkinderen is een goed geschreven boek. Het heeft een heldere structuur en alles wat je verwacht, staat erin. () Een must voor alle ouders die nadenken over hun kinderen in de grotemensenwereld. OUDERS ONLINE `This is a book I will recommend to students and it occupies a prominent place on my bookshelf. PROFESSOR BRIAN YOUNG, UNIVERSITY OF EXETER, UK `An excellent resource and one that researchers with a variety of backgrounds and training will turn to often. () The material has been presented in a manner that makes it accessible to non-researchers such as parents, policy makers and journalists. PROFESSOR KAVERI SUBRAHMANYAM, CALIFORNIA STATE UNIVERSITY, LOS ANGELES, USA

Een razendspannende politieke thriller vol actie en internationale intrige en doorspekt met het soort informatie waarover alleen een insider als Hillary Clinton kan beschikken. De nieuwe minister van Buitenlandse Zaken, Ellen Adams, wordt geconfronteerd met terroristische dreigingen en een verzwakte natie, na vier jaar leiderschap van een president die de positie van Amerika op het politieke wereldtoneel ernstige schade toebrengt. >br> De aanslagen zorgen voor wereldwijde chaos en verwarring, en de minister en haar team moeten erachter komen wie er achter de dodelijke samenzwering zit, die zorgvuldig lijkt ontworpen om te profiteren van een Amerikaanse regering die er internationaal zwakker voor staat dan ooit.

Oesophagogastric Surgery meets the needs of surgeons in higher training and practising consultants for a contemporary and evidence-based account of this sub-specialty that is relevant to their general surgical practice. It is a practical reference source incorporating the most current information on recent developments, management issues and operative procedures. The text is thoroughly referenced and supported by evidence-based recommendations wherever possible, distinguishing between strong evidence to support a conclusion, and evidence suggesting that a recommendation can be reached on the balance of probabilities. For this Sixth Edition the authorship team across the

series has been expanded to include additional European and World experts, with an increased emphasis on global practice. Throughout all six volumes the contents have been extensively revised in line with recently published evidence. Detailed supportive key references are provided and are also included within the comprehensive list of references in the accompanying ebook. Links to recommended online videos have been added where appropriate. The Companion to Specialist Surgical Practice series provides a current and concise summary of the key topics within the major sub-specialties of general surgery. Each volume highlights evidence-based practice both in the text and within the extensive list of references at the end of every chapter. This new Sixth Edition includes contributions from a number of world renowned authors which reflects the global nature of oesophagogastric surgery. In particular, to reflect the increasing role of bariatric surgery, there are three new chapters covering obesity, bariatric surgical procedures, and the follow up and outcomes of bariatric surgery. Other chapters have been extensively revised by world experts and include up to date evidence and advances in the assessment, management, and treatment of oesophagogastric disease.

E-Books in Academic Libraries: Stepping Up to the Challenge provides readers with a view of the changing and emerging roles of electronic books in higher education. The three main sections contain contributions by experts in the publisher/vendor arena, as well as by librarians who report on both the challenges of offering and managing e-books and on the issues surrounding patron use of e-books. The case study section offers perspectives from seven different sizes and types of libraries whose librarians describe innovative and thought-provoking projects involving e-books. Read about perspectives on e-books from organizations as diverse as a commercial publisher and an association press. Learn about the viewpoint of a jobber. Find out about the e-book challenges facing librarians, such as the quest to control costs in the patron-driven acquisitions (PDA) model, how to solve the dilemma of resource sharing with e-books, and how to manage PDA in the consortial environment. See what patron use of e-books reveals about reading habits and disciplinary differences. Finally, in the case study section, discover how to promote scholarly e-books, how to manage an e-reader checkout program, and how one library replaced most of its print collection with e-books. These and other examples illustrate how innovative librarians use e-books to enhance users' experiences with scholarly works.

Annotation "The editors have brought together a range of eminent contributors who present a range of issues throughout the life cycle. The book asserts that it hopes to 'assist readers to anticipate change and discontinuity in people's lives and think about strategies to support them' through the many challenges that they may face in their lives. In my view this book certainly does that and the editors and contributors are to be congratulated on the production of a relevant and contemporary text that I have no hesitation in both endorsing and recommending to all involved in supporting and or caring for people with learning disabilities." Professor Bob Gates, Project Leader - Learning Disabilities Workforce Development, NHS Education South Central, UK "The editors have gathered an authoritative faculty to present and discuss a range of contemporary issues; both practical and ethical. The text is well grounded in the lived experience of people with disability and draws on the evidence-base of contemporary science. Each chapter includes thought provoking exercises. This is a seminal text for students and practitioners, researchers and policy makers." Associate Professor Keith R. McVilly, Deakin University, Australia "I currently own a copy of the first edition and it has proved an invaluable resource time and time again. There is not an essay I complete that does not make reference to the book and I can consistently use it to reflect back on my practice as a student nurse and social worker. Having read several extracts from the new edition it does appear to include very high quality content covering learning disabilities over the lifespan ... if I were to personally recommend any book for budding or current learning disability professionals then this would be it." James Grainger, Student Nurse/Social Worker, Sheffield Hallam University, UK "I like the way it has primary and secondary information from a range of sources. The exercises in the book also get you to think about the situation in question which helps us think about our values and anti-oppressive practice ... This book really does start with the basics and having a learning disability from birth and the effects, to in depth knowledge and literature ... This book would be very helpful to me as it brings in literature policies and models from both a health and social side, which is important for my course and collaborative working." Laura Jean Lowe, Student Nurse, Sheffield Hallam University, UK "It is written with a clearly conveyed in-depth knowledge and in a way that has professional lived experience within the context of the work. The authors have taken into account the emotional, client-centred approach to the modern practitioner's practice ... The book gives a true wealth of good practice scenarios that can only help practitioners be good at what they do and aspire to be." Lee Marshall, Student Nurse, Sheffield Hallam University, UK With its spread of chapters covering key issues across the life cycle this text has established itself as the foundational primer for those studying the lived experiences of people with learning disabilities and their families, and outcomes achieved through services and support systems. Recognising learning disability as a lifelong disability, this accessible book is structured around the life cycle. The second edition is refreshed and expanded to include seven new chapters, covering: Aetiology Breaking news (about disability) and early intervention Transition to adulthood The sexual lives of women Employment Personalisation People with hidden identities With contributions from respected figures from a range of disciplines, the book draws heavily upon multidisciplinary perspectives and is based on the latest research and evidence for practice. The text is informed by medical, social and legal models of learning disability, exploring how "learning disability" is produced, reproduced and understood. Extensive use is made of real-life case studies, designed to bring theory, values, policy and practice to life. Narrative chapters describe, in the words of people with learning disabilities themselves, their lives and aspirations. They helpfully show readers the kinds of roles played by families, advocates and services in supporting people with learning disabilities. New exercises and questions have been added to encourage discussion and reflection on practice. Learning Disability is core reading for students entering health and social care professions to work with people with learning disabilities. It is a compelling reference text for practitioners as it squarely addresses the challenges facing people with learning disability, their loved ones and the people supporting them. Contributors Dawn Adams, Kathryn Almack, Dorothy Atkinson, Nigel Beail, Christine Bigby, Alison Brammer, Jacqui Brewster, Hilary Brown, Jennifer Clegg, Lesley Cogher, Helen Combes, Clare Connors, Bronach Crawley, Eric Emerson, Margaret Flynn, Linda Gething, Dan Goodley, Peter Goward, Gordon Grant, Chris Hatton, Sheila Hollins, Jane Hubert, Kelley Johnson, Gwynnyth Llewellyn, Heather McAlister, Michelle McCarthy, Alex McClimens, Roy McConkey, David McConnell, Keith McKinstrie, Fiona Mackenzie, Ghazala Mir, Ada Montgomery, Lesley Montisci, Elizabeth Murphy, Chris Oliver, Richard Parrott, Paul Ramcharan, Malcolm Richardson, Bronwyn Roberts, Philippa Russell, Kirsten Stalker, Martin Stevens, John Taylor, Irene Tuffrey-Wijne, Sally Twist, Jan Walmsley, Kate Woodcock

Brené Brown heeft de afgelopen twintig jaar onderzoek gedaan naar de emoties en ervaringen die betekenis geven aan ons leven, en werkte de afgelopen zeven jaar nauw samen met leiders en cultuurveranderaars over de hele wereld. Ze ontdekte dat allerlei bedrijfstakken, van kleine start-ups tot Fortune 50-bedrijven, met dezelfde vraag worstelen: 'Hoe ontwikkelen we moediger leiders en hoe verankeren we moed en durf in onze bedrijfscultuur?' In dit nieuwe boek combineert Brené haar onderzoeksresultaten met persoonlijke verhalen en voorbeelden om deze vraag te beantwoorden. Durf te leiden gaat over echt leiderschap: vanuit het hart en vol moed.

Theo Decker, een dertienjarige jongen uit New York, overleeft op wonderbaarlijke wijze een aanslag waarbij zijn moeder om het leven komt. Zijn vader is een paar maanden daarvoor verdwenen en Theo komt na de aanslag bij de familie van een rijke vriend terecht. Hij is verbijsterd door zijn nieuwe leefomgeving, verward door zijn klasgenoten die het moeilijk vinden met hem om te gaan en diepbedroefd door het verlies van zijn moeder. Theo vindt houvast aan dat ene object dat hem aan haar doet denken: een klein, mysterieus schilderij, dat hem uiteindelijk in de onderwereld van de kunst doet belanden. Het puttertje is een roman met een ongekeerde energie en vertelkracht, waarin Donna Tartt levendige personages, betoverend taalgebruik en adembenemende spanning combineert met diepgaande bespiegelingen over liefde, identiteit en kunst. Een prachtig boek over verlies, obsessie, overlevingskracht en de meedogenloze speling van het lot. Donna Tartt is geboren in Greenwood, Mississippi. Ze studeerde klassieke talen en filosofie aan Bennington College, Vermont. Ze is de auteur van *De verborgen geschiedenis* en *De kleine vriend*. Haar werk is in meer dan dertig talen verschenen.

E-Books are part of the new frontier of cyberspace. They are an entirely new medium for sharing marketing information, ideas, techniques, and expert knowledge. Each day the number of people accessing the Internet grows, causing the exposure of your E-Book to increase incrementally. It's obvious why electronic self-publishing has become so popular so quickly. The publishing industry, I hope, does not intend to forever banish the printed word to the dustbin of history. Books in print have their own special qualities and merits, and the world would be diminished by their disappearance. Having said that, let's look at what makes E-Books so important and so unique.

It provides an interdisciplinary compilation of recent innovations, trends, and concerns as well as the challenges encountered and solutions adopted in the fields of digital pedagogies and educational design. It is

becoming increasingly important to develop adaptive, robust, scalable, and digital teaching-learning mechanisms in academics. This volume addresses this need by discussing the advancements in flipped and blended learning, student- and teacher-centric learning in technical institutes, critical digital pedagogies, and the complex analyses and collaborations with organizations outside the academy. This book also deals with protocols for educational and administrative policies, IoT-based teaching-learning methodology, teaching education and the process of assessment, testing and evaluation, integration of technology with digital education, and different case study-based approaches in digital teaching-learning methodology.

This book outlines approaches to networked e-learning course design that are underpinned by a belief that students learn best in these contexts when they are organised in groups and communities. As such, the book is one of the first to provide a detailed analysis of what goes on in e-learning groups and communities.

With straightforward, in-depth coverage of the use of physical agents to improve patient outcomes, *Physical Agents in Rehabilitation: An Evidence-Based Approach to Practice*, 5th Edition reflects how physical agents and modalities are being discussed in the classroom. This new edition brings the ideal balance of evidence and practical instruction to the learning and practice of physical agents in rehabilitation. Comprehensive coverage of all physical agents includes the mechanisms, clinical effects, and application techniques for thermal agents, ultrasound, electrical currents, electromagnetic radiation, hydrotherapy, traction, and compression. Plus, each chapter includes a scientific rationale and step-by-step instructions in the use of the agent(s), as well as up-to-date research support and new Find the Evidence tables. The new edition is supported with electronic ancillaries including review questions for students, PowerPoints®, and links to all references on Medline. Comprehensive coverage of all physical agents includes the mechanisms, clinical effects, and application techniques for thermal agents, ultrasound, electrical currents, electromagnetic radiation, hydrotherapy, traction, and compression. Find the Evidence tables guide the reader in finding up-to-date, patient-specific evidence using the PICO framework. UNIQUE Step-by-step illustrated application techniques boxes guide you in reproducing effective treatment options. Electronic ancillaries *Electrical Stimulation, Ultrasound & Laser Light Handbook* helps you to understand the material and can be printed out for quick reference to use in the clinical setting. NEW! Chapter on biofeedback complements the coverage of powered devices used in rehabilitation. UNIQUE! New Find the Evidence tables guide the reader in finding up-to-date, patient-specific evidence using the PICO framework.

*Vascular and Endovascular Surgery* meets the needs of surgeons in higher training and practising consultants for a contemporary and evidence-based account of this sub-specialty that is relevant to their general surgical practice. It is a practical reference source incorporating the most current information on recent developments, management issues and operative procedures. The text is thoroughly referenced and supported by evidence-based recommendations wherever possible, distinguishing between strong evidence to support a conclusion, and evidence suggesting that a recommendation can be reached on the balance of probabilities. For this Sixth Edition the authorship team across the series has been expanded to include additional European and World experts, with an increased emphasis on global practice. Throughout all six volumes the contents have been extensively revised in line with recently published evidence. Detailed supportive key references are provided and are also included within the comprehensive list of references in the accompanying ebook. Links to recommended online videos have been added where appropriate. The Companion to Specialist Surgical Practice series provides a current and concise summary of the key topics within the major sub-specialties of general surgery. Each volume highlights evidence-based practice both in the text and within the extensive list of references at the end of every chapter. Vascular surgery is developing at a rapid pace, especially in the field of medical therapy and endovascular interventions. This new edition aims to put these developments into context, and give a balanced view with regard to technological advances and more traditional techniques. Vascular and endovascular practitioners will find this a very useful resource in their day to day clinical practice.

The Second Middle East Edition blends theory with contemporary management practice. Dr. Marina Apaydin (American University of Beirut) joins the authoring team in this edition for significant enhancements to content and presentation of topics. New chapter-opening cases have been added to feature companies and management personalities from the Middle East. Management Insights vignettes offer balanced representation of international as well as local, small-to-medium sized companies and start-ups, to ensure applicability of theory in a variety of contexts. Updated content and improved topics coverage ensure closer alignment with introductory management courses: • Two new topics have been added on the history of management in the Arab world in Chapter 2, and Islamic ethics in Chapter 5. • Improved content coverage includes a new Chapter 3 focusing on the Manager as a Person. • Improved and streamlined coverage of managerial processes relating to organizational culture in Chapter 4. • Managing in the Global Environment includes revised terminology consistent with International Business courses. • Chapters 8 through 11 have gone through substantial revision to focus on control as part of managing the organizational structure, and organizational learning as part of change and innovation. • Chapter 16 includes contemporary topics on communication including social media, influencers, and a guide to networking. Dr. Marina Apaydin is an Assistant Professor of Strategic Management at the Olayan School Business at the American University of Beirut, Lebanon. Dr. Omar Belkohodja is an Associate Professor of Strategic Management and International Business at the School of Business Administration at the American University of Sharjah, UAE.

Thesis Easy was never a choice. It had to be created. Too many struggle with the idea of research, what more with carrying it out and reporting its findings. As days, weeks, months and years passed, the inception of Thesis Easy bloomed first through banter with students, next through discussions with experts, then, a research grant and finally, and [timely] - an ebook by students for students. I am proud to introduce these student-authors through this ebook and congratulate them for being authors before graduating. Thesis Easy delivers six

reader-friendly chapters broken down into sections that are colourful, fun, and most importantly, everybody's to enjoy. Chapter one draws an introduction to qualitative and quantitative research, while chapter two illustrates the path to write literature review. Chapter three adds colour to an understanding of research methodology where data collection, tools, and trustworthiness of research are laid out. Chapter four paints ideas on analysis of data including challenges that one may face. Chapter five carefully sketches plagiarism, accessibility, and referencing with examples and explanations, while the final chapter tints the book with a selected thesis broken down into five chapters with each picturing the format step by step for easy understanding. So, if you were stranded on a deserted island, would you be reading Thesis Easy? Of course, not. Understand its functions, and you would definitely benefit from them.

With more than 400 projections, Merrill's Atlas of Radiographic Positioning & Procedures, 14th Edition makes it easier for you to learn anatomy, properly position the patient, set exposures, and take high-quality radiographs. This definitive text has been reorganized to align with the ASRT curriculum — helping you develop the skills to produce clear radiographic images. It separates anatomy and positioning information by bone groups or organ systems — using full-color illustrations to show anatomical anatomy, and CT scans and MRI images to help in learning cross-section anatomy. Merrill's Atlas is not just the gold standard in radiographic positioning texts, and the most widely used, but also an excellent review in preparing for ARRT and certification exams! Comprehensive, full-color coverage of anatomy and positioning makes Merrill's Atlas the most in-depth text and reference available for radiography students and practitioners. Frequently performed essential projections identified with a special icon to help you focus on what you need to know as an entry-level radiographer. Summary of Pathology table now includes common male reproductive system pathologies. Coverage of common and unique positioning procedures includes special chapters on trauma, surgical radiography, geriatrics/pediatrics, and bone densitometry, to help prepare you for the full scope of situations you will encounter. Collimation sizes and other key information are provided for each relevant projection. Numerous CT and MRI images enhance comprehension of cross-sectional anatomy and help in preparing for the Registry examination. UPDATED! Positioning photos show current digital imaging equipment and technology. Summary tables provide quick access to projection overviews, guides to anatomy, pathology tables for bone groups and body systems, and exposure technique charts. Bulleted lists provide clear instructions on how to correctly position the patient and body part when performing procedures. NEW! Updated content in text reflects continuing evolution of digital image technology. NEW! Updated positioning photos illustrate the current digital imaging equipment and technology (lower limb, scoliosis, pain management, swallowing dysfunction). NEW! Added digital radiographs provide greater contrast resolution for improved visualization of pertinent anatomy. NEW! Revised positioning techniques reflect the latest ASRT standards.

Een aangrijpende pageturner over een verloren liefde Op een vroege zomerochtend, lang voordat de anderen wakker worden, duikt de vijftigjarige Elle Bishop in het ijskoude water van het meertje naast Het papieren paleis, het zomerhuis waar ze al sinds haar jeugd elke vakantie doorbrengt. Elle is gelukkig getrouwd en heeft drie kinderen, maar deze ochtend is alles anders. De avond tevoren is ze tijdens het diner weggeglippt met Jonas, al sinds hun kindertijd haar beste vriend. Terwijl hun partners binnen zitten te kletsen hebben Jonas en Elle voor het eerst van hun leven seks met elkaar. De volgende vierentwintig uur zullen allesbepalend zijn voor Elle. Kiest ze voor het veilige bestaan dat ze zo zorgvuldig heeft opgebouwd? Of gooit ze alles overboord voor het leven met Jonas waar ze nooit eerder van durfde te dromen? Gaandeweg dringen de herinneringen aan haar jeugd zich steeds meer aan haar op. Hoewel ze een afschuwelijk deel daarvan altijd zo goed mogelijk verborgen heeft gehouden, wordt Elle nu gedwongen de confrontatie met zichzelf aan te gaan. Het papieren paleis is een verrassende en aangrijpende pageturner over liefde, familie, en de fouten uit het verleden die altijd boven water komen.

This book provides models for acquisitions policies and reports on several surveys of faculty and librarian attitudes toward e-books. It also discusses certain issues in acquiring cataloguing and collection development regarding this important new library resource.
