

## Christian Hymns 558 Songs

This superb hymnal features more than six hundred hymns. It is designed for use by a variety of denominations and ecumenical settings.

As America's geography and societal demands expanded, the topics in *The Etude* magazine (first published in 1883) took on such important issues as women in music; immigration; transportation; Native American and African American composers and their music; World War I and II; public schools; new technologies (sound recordings, radio, and television); and modern music (jazz, gospel, blues, early 20th century composers) in addition to regular book reviews, teaching advice, interviews, biographies, and advertisements. Though a valued source particularly for private music teachers, with the de-emphasis on the professional elite and the decline in salon music, the magazine ceased publication in 1957. This Index to the articles in *The Etude* serves as a companion to E. Douglas Bomberger's 2004 publication on the music in *The Etude*. Published a little over fifty years after the final issue reached the public, this Index chronicles vocal and instrumental technique, composer biographies, position openings, department store orchestras, the design of a successful music studio, how to play an accordion, recital programs in music schools, and much more. The Index is a valuable tool for research, particularly in the music culture of American in the late nineteenth and early twentieth centuries. With titles of these articles available, the doors are now open for further research in the years to come. The Index is published in two parts and sold as a set for \$250.00.

*Singing the Lord's Song in a New Land* is one of the first books to address ministry in Korean American contexts and the first from the highly regarded Valparaiso Project to explore how faith practices work differently in a racial ethnic community. The groundbreaking work identifies eight key practices of the Korean American culture: keeping the Sabbath, singing, fervent prayer, resourcing the life cycle, bearing wisdom, living as an oppressed minority, fasting, and nurturing.

This anthology contains over 60 hymns from all ages and traditions. Each one is presented with a profile of the hymn's author, the personal and cultural context in which it was written, a note on the source of the tune and, where useful, the treble line of the tune.

One of the most popular and memorable American musicians of the 20th century, Nat King Cole (1919-65) is remembered today as both a pianist and a singer, a feat rarely accomplished in the world of popular music. Now, in this complete life and times biography, author Will Friedwald offers a new take on this fascinating musician, framing him first as a bandleader and then as a star. In Cole's early phase, Friedwald explains, his primary task of keeping his trio going was just as much of a focus for him as his own playing and singing, always a collective or group performance. In the second act, Cole's collaborators were more likely to be arranger-conductors like Nelson Riddle and Gordon Jenkins, rather than his sidemen on bass and guitar. In the first act, his sidemen were equals, in the second phase, his collaborators were tasked exclusively with putting the focus on him, making him sound good, while being largely invisible themselves. Friedwald brings his full musical knowledge to bear in putting the man in the work, demonstrating how this duality appears over and over again in Cole's life and career: jazz vs. pop, solo vs. trio, piano vs. voice, wife number one (Nadine) vs. wife number two (Maria), the good songs vs. the less-than-good songs, the rhythm numbers vs. the ballads, the funny songs and novelties vs. the "serious" songs of love and loss, Cole as an advocate for the Great American Songbook vs. Cole the intrepid explorer of other options: world music, rhythm & blues, country & western.

Cole was different from his contemporaries in other ways; for roughly ten years after the war, the majority of hitmakers on the pop charts were veterans of the big band experience, from Sinatra on down.

The first of its kind, this book contains 3,816 references to the music and dance of the world's religions, large and small, tribal, regional, and global.
