Documents specifications, repairs, and servicing procedures for individual models, and provides information on component repair and overhaul

For the first time in one volume, Phil Edmonston, Canada's automotive "Dr. Phil," covers all used vehicles, packing this guide with insider tips to help the consumer make the safest and cheapest choice possible from cars and trucks of the past 25 years.

There are two kinds of classic car buffs: those who have restored an old car, and those who want to. For anyone who has looked at a rusty heap in a field and seen only the gleaming new machine it once was, the urge is powerful, but also intimidating. Restoration can be a difficult, expensive, and--especially for the novice--mysterious undertaking. Dave Floyd, an enthusiast with a lifelong love for the great cars on the road in his youth, is one who answered the call. In this book he traces every step of restoring a long-neglected 1948 Chrysler New Yorker to its original glory, all on a real-world budget and in the spare hours left by a full-time job. Every task, every discovery, every obstacle, every triumph and frustration comes through in a detailed account that is part diary, part practical guide, part love story. Told with great charm, his story is inspiring to any prospective old-car hobbyist, and a special treat for Chrysler devotees.
