'My dears: this is but a brief note to welcome you to the new world, where you are now no longer all too far away from us. ' So begins Adorno's letter to his parents in May 1939, welcoming them to Cuba where they had just arrived after fleeing from Nazi Germany at the last minute. At the end of 1939 his parents moved again to Florida and then to New York, where they lived from August 1940 until the end of their lives. It is only with Adorno's move to California at the end of 1941 that his letters to his parents start arriving once more, reporting on work and living conditions as well as on friends, acquaintances and the Hollywood stars of his time. One finds reports of his collaborations with Max Horkheimer, Thomas Mann and Hanns Eisler alongside accounts of parties, clowning around with Charlie Chaplin, and ill-fated love affairs. But the letters also show his constant longing for Europe: Adorno already began to think about his return as soon as the USA entered the war. Adorno's letters to his parents – surely the most open and direct letters he ever wrote – not only afford the reader a glimpse of the experiences that gave rise to the famous *Minima Moralia*, but also show Adorno from a previously unknown, very personal side. They end with the first reports from the ravaged Frankfurt to his mother – who remained in New York – and from Amorbach, Adorno's childhood paradise

Help your students craft convincing arguments with award-winning mentor texts written by teenagers and companion teaching guide. This bundle includes one copy each of Student Voice: 100 Argument Essays by Teens on Issues That Matter to Them and Raising Student Voice: 35 Ways to Help Students Write Better Argument Essays, from The New York Times Learning Network. At a time when examples of "student voice" are everywhere, from Greta Thunberg to the Parkland students to the teenagers in the streets of Hong Kong, the argument writing that students study in school is still almost entirely written by adults. It is a wholly different experience for teenagers to study the work of their peers. It's relatable. It's relevant. And it doesn't feel like an untouchable ideal. In this new collection of 100 essays curated by The New York Times, students will find mentor texts written by their peers—13-18-year olds—on a wide range of topics including social media, race, school lockdown drills, immigration, tackle football, the #MeToo movement, and COVID-19. For any teacher who feels that students write better when they have some choice over the topic and form, when they write for an audience beyond the teacher and a purpose beyond a grade, and when they get to sound like themselves, this anthology is an invaluable resource to accompany any composition text. In the companion teacher's guide, Katherine Schulten—a former teacher and writing coach herself—provides teachers with 35 strategies and classroom-ready activities for using these peer mentor texts with their students. Raising Student Voice also includes 500 writing prompts, a "topic generator" with questions to help students decide what they'd like to write about,

and a sample essay annotated with the comments of Times judges.

Paul is a Freshman at a Kansas high school and he feels bored at how things are currently going. Although he is smart, Paul becomes laid-back and apathetic for his school life and just wants school to be out. Sooner than later, however, Paul's dull and anticlimactic school life is turned upside down as a pandemic, driven by a highly contagious and deadly virus, ravages the whole world. Paul and his family, as well as citizens across the United States and in other countries, are awe-struck yet traumatized that they are forced to confine to their homes in a strict lockdown in hopes of stopping the spread of the virus. While Paul takes in account what is going on in this heavy state of dystopia, crises such as racial injustice, radical police enforcement, nationwide violence and confusion, and much more create a stronger sense that this is a tough and very deep hole to crawl out from. Paul realizes that things will never go back to normal, as seen through an irresponsible President running the country and the embarrassment that followed the failures of vaccine development, but only one can be so sure. Will Paul ever return to school? Will the protests and violent riots ever stop, or will the pandemic become eradicated before it becomes irreversible and permanent? Read on to find out how Paul handles it all.

The Visual is Political examines the growth of feminist photography as it unfolded in Britain during the 1970s and 1980s. This period in Britain was marked by instability following the collapse of the welfare state, massive unemployment, race riots, and workers' strikes.

However, this was also a time in which various forms of social activism emerged or solidified, including the Women's Movement, whose members increasingly turned to photography as a tool for their political activism. Rather than focusing on the aesthetic quality of the images produced, Klorman-Eraqi looks at the application of feminist theory, photojournalism, advertising, photo montage, punk subculture and aesthetics, and politicized street activity to emphasize the statement and challenge that the photographic language of these works posed. She shows both the utilitarian uses of photography in activism, but also how these same photographers went on to be accepted (or co-opted) into the mainstream art spaces little by little, sometimes with great controversy. The Visual is Political highlights the relevance and impact of an earlier contentious, creative, and politicized moment of feminism and photography as art and activism.

A great university in turbulent times From the deluge of World War II vets on the GI bill through the 1960s radicalism that made national headlines, the University of Wisconsin's history has been a part of American history. Historians, as well as the University's hundreds of thousands of alumni, faculty, staff, and students, will welcome this fourth volume covering the University's recent past. E. David Cronon and John W. Jenkins record in lively, readable prose a period that began with the influx of returning war veterans, more than doubling the University's enrollment in a single year. They explore the dark McCarthy era of loyalty oaths and blacklists during the 1950s and detail the actions of University president E. B. Fred, who stood out among American academic leaders for his commitment to principle and fair play. The turbulent 1960s, which opened with students reporting on their summertime Freedom Ride experiences throughout the American South and ended with the Vietnam War-related bombing of Sterling Hall in 1970, are a record of how an era of idealism gave way to one characterized by angry dissent and disorder, the rise of women's liberation, flower power, black power, and student power. The history concludes with the passage of legislation creating the University of Wisconsin System of campuses in 1971--an action that followed nearly three decades of experiments, compromises, and political struggles involving several governors.
