The first section of the book is devoted to an explanation of the major issues to be considered in acquiring or establishing a business in Germany. The second section focuses on areas of commercial law that are important for an operating business. In comparison to the last edition four new areas (transportation law, customs regulations, insurance law and state liability law) are treated. The following sections deal with labor law as an independent part of German business law and with computer law. Furthermore, procedural law and European law are addressed. Finally, the last two sections of the book are devoted to an overview over the German tax law, which has an enormous impact on business decisions, and IP law. In all sections special attention has been paid to highlighting and explaining the differences between the German legal system and that of the United States. Nevertheless, the intention is to provide information that will prove valuable to all foreigners, particularly business men and women and lawyers advising clients with an interest in doing business in Germany.
