The book weaves the story of the complex links between education and its territories. The aim here is to examine the education couple - understood in the broadest sense: school, college, high school, universities - and territory, according to three main axes: the history and the characterization of the different ties maintained And which the school and its territory always maintain; That of the categorization and characterization of the territories in which the school is situated, of the educational policies - both explicit and grassroots - connected with it and their effects on the school; That of recent pedagogical, didactic and organizational innovations. The book is based on French specialists in territorial education issues.
