A critical transition period in the archaeology and history of Palestine—the Late Bronze Age and Early Iron Age—is described in detail from the perspective of a group of sites in the Baq'ah Valley. A major emphasis is on how scientific techniques, including magnetic location of undisturbed burial deposits and analytical reconstruction of very early industries, can be effectively integrated into an archaeological project.

Contrary to traditional views, the evidence supports a relatively peaceful development within a single cultural tradition rather than the intrusion of a new people or segment of the existing population, by invasion, migration, or revolt. University Museum Monograph, 65

The University Museum excavated at Beth Shan from 1921-1934, when stratigraphical methods were first being developed. For this study the two Late Bronze levels (VII and VIII) have been reevaluated by the careful analysis of field records, photographs, and drawings along with the restudy of all artifacts housed in The University Museum and a selection of objects in the Rockefeller Museum in Jerusalem. The structures of these levels have parallels in New Kingdom Egypt and Late Bronze/Early Iron Age sites of southern Levant and the Sinai. Included are contributions by 13 specialists on specific classes of objects and technologies. University Museum Monograph, 85

In this reprint of the revised edition of his well known Harvard dissertation, the author traces the historical development of the oracle against a foreign nation from its origin in the early military traditions of Israel down to its refinement as a form of prophetic speech. Christensen begins with early material related to oracular divination and moves chronologically through Israelite history down to the early sixth century BCE, observing in the process two major transformations of the war oracle.

Presents conclusive evidence that ancient Egypt was originally the remnant of an earlier, highly sophisticated civilization

- Supports earlier speculations based on myth and esoteric sources with scientific proof from the fields of genetics, engineering, and geology
- Provides further proof of the connection between the Mayans and ancient Egyptians
- Links the mystery of Cro-Magnon man to the rise and fall of this ancient civilization

In the late nineteenth century, French explorer Augustus Le Plongeon, after years of research in Mexico's Yucatán Peninsula, concluded that the Mayan and Egyptian civilizations were related--as remnants of a once greater and highly sophisticated culture. The discoveries of modern researchers over the last two decades now support this once derided speculation with evidence revealing that the Sphinx is thousands of years older than Egyptologists have claimed, that the pyramids were not tombs but geomechanical power plants, and that the megaliths of the Nabta Playa reveal complex astronomical star maps that existed 4,000 years before conventional historians deemed such knowledge possible. Much of the past support for prehistoric civilization has relied on esoteric traditions and mythic narrative. Using hard scientific evidence from the fields of archaeology, genetics, engineering, and geology, as well as sacred and religious texts, Malkowski shows that these mythic narratives are based on actual events and that a highly sophisticated civilization did once exist prior to those of Egypt and Sumer. Tying its cataclysmic fall to the mysterious disappearance of Cro-Magnon culture, Before the Pharaohs offers a compelling new view of humanity's past.

This illustrated two-volume history of Egypt, 'derived entirely from the monuments', was first published in an English translation in 1879. Brugsch brings to bear his wide experience of the archaeological sites together with his linguistic expertise, and deliberately eschews later Greek and Roman accounts of Egypt.

evidence of a highly advanced global culture that disappeared 11,500 years ago In this completely revised and expanded edition of *Catastrophobia*, bestselling author Barbara Hand Clow explains how we are on the cusp of an age of incredible creative growth made possible by restoring our lost prehistory. Examining legendary cataclysms--such as the fall of Atlantis and the biblical Flood--and the mounting geological and archaeological evidence that many of these mythic catastrophes were actual events, she reveals the existence of a highly advanced global maritime culture that disappeared amid great earth changes and rising seas 14,000 to 11,500 years ago, nearly causing our species' extinction and leaving humanity's collective psyche deeply scarred. Tracing humanity's reemergence after these prehistoric catastrophes, Clow explains how these events in the deep past influence our consciousness today. Guided by Carl Johan Calleman's analysis of the Mayan Calendar, she reveals that as the Earth's 26,000-year precessional cycle shifts, our evolution is accelerating to prepare us for a new age of harmony and peace. She explains how we are beginning a collective healing as ancient memories of prehistory awaken in our minds and release our unprocessed fear. Passed from generation to generation, this fear has been responsible for our constant expectations of apocalypse. She shows that by remembering and moving beyond the trauma of our long lost past, we bring the era of cataclysms to an end and cross the threshold into a time of extraordinary creative activity.

[It] is a project of international and interfaith scope: Protestant, Catholic, and Jewish scholars from many countries contribute individual volumes ... A decade ago, Michael Bradley published the Canadian bestseller, *Holy Grail Across the Atlantic* (Hounslow Press, 1988), presenting the astounding evidence that a European settlement in Canada had been established in Nova Scotia ninety-four years before Columbus and ninety-nine years before John Cabot. Incredibly, mediaeval documents and maps showed that this settlement had been founded by refugee Knights Templar from Scotland - knights who had been created for the sole purpose of guarding the Holy Grail. Bradley presented evidence that these Grail-believing religious refugees and their knightly protectors had been instrumental in discovering, settling, and influencing the development of New France and, later, the fledgling American Republic. The book was automatically ridiculed by conventional North American historians, while at the same time serving as the model for European works (e.g. *The Sword and the Grail* by Britain's Andrew Sinclair). Michael Bradley's investigation stimulated some serious professional and academic researchers to join his quest to find further evidence of the Knights Templar in Canada and the United States. Now, in 1998, comes the publication of the long-awaited sequel to *Holy Grail Across the Atlantic* - *Grail Knights of North America*. Realizing from mediaeval documents that the initial Nova Scotia refuge of AD 1398 must have harboured many Grail believers, and that the secret colony must have expanded, Bradley began to trace evidence of Grail Knights from Nova Scotia, through New Brunswick to the St. Lawrence River, and on to the Great Lakes as far as Niagara, New York State, and central Pennsylvania. Evidence of their presence has been uncovered on both the Canadian and American sides of this great waterway. Bradley poses compelling questions about his discoveries, and offers plausible and provocative answers as we travel with him and his companions (both academic and amateur) along the trail of the Grail Knights of North America.

"Peoples of the Sea" is, in some sense, the culmination of the series "Ages in Chaos." In this volume the erroneous time shift of classical history reaches its maximum span - 800 years! With carefully documented evidence and indisputable arguments, Velikovsky places Ramses III firmly into the 4th century B.C. thereby solving, once and for all, numerous conundrums that historians had been confronted with in the past. He unveils the surprising identity of the so-called "Peoples of the Sea," clarifies the role of the Philistines and solves the enigma of the Dynasty of Priests. This volume leads Velikovsky's revised chronology up to the time of Alexander where it links-up with the records of classical chronology. In an extensive supplement Velikovsky delves into the fundamental question of how such a dramatic shift in chronology could have come about. Analyzing the main pillars of Egyptian chronology, he points out where the most dramatic mistakes were made and addresses the misunderstanding underlying the "astronomical chronology." In a further supplement he discusses the very interesting conclusions that can be drawn from radiocarbon testing on Egyptian (archeological) finds.

Pawns of the Game is a novel written loosely off the old conspiracy theory of the Illuminati utilizing the mystery system of Free Masonry and that of ancient Egypt's religiosity to control contemporary societies massive. The historical, archaeological, and biblical material is real, as are the (gospel) quotations and fragments. Contemporary characters are my own creation, but many of the ancillary characters actually exist merely to lend support for realism sake. However, the portraits I paint of them are fictional—in respect to names, things, places and time. The lead characters in the novel are a secret clique of streetwise men who gained possession of the true knowledge that creates the TRINITY of the Illuminati, Freemasons, and ancient Egypt's star cult religious mystery system—in order to mastermind their own plot to gain economic and political power within society of the city of New York.
