Synthesizing the best thinking on conducting qualitative research in education, Marilyn Lichtman uses a conversational writing style that draws readers into the excitement of the research process. --from publisher description.

In a research project, the most critical part is writing the report in a way which presents not just our findings, but the process through which we arrived at these findings. It demands honesty about our research design and our perspectives, so that others can understand not just the research we have produced, but something about the way in which we have produced it. When carrying out research it is all too easy to become embroiled in our own research questions and objectives, so that when it comes to presenting our research we forget about situating it within the wider body of knowledge. For the lack of proper knowledge, many people find it difficult to writing up their paper. This book is intended to help you organize and write a quality research paper for Social Sciences. Schokkend en controversieel was Steinbecks klassieke meesterwerk toen het in 1939 verscheen en Amerika met zijn eigen zelfkant confronteerde. Tegen de achtergrond van het kurkdroge Oklahoma en het migrantenleven in Californië volgen we de familie Joad, die, net als duizenden andere kleine boeren en landarbeiders in de jaren dertig, gedwongen is naar het westen te vertrekken op zoek naar het beloofde land of in ieder geval naar werk. Hun verhaal is er een van valse hoop, onmogelijk verlangen en dromen die in duigen vallen. Toch weet Steinbeck hun strijd zó intens menselijk, groots en met een geweldige morele visie te beschrijven, dat *De druiven der gramschap* een lofzang op het uithoudingsvermogen en de waardigheid van de menselijke geest is.
