Concepts in Fitness Programming presents comprehensive material about various aspects of exercise testing and prescription in a simple, straightforward manner. Intended for individuals who design exercise and fitness programs but who lack extensive background in fitness training, this book provides a wealth of knowledge beyond the basic "how to's" of fitness programming. Exercisers require some background in fitness and exercise-related injuries and nutrition. For safety, exerciser and instructor need to know the medical problems that limit exercise capacity or eliminate someone from safely exercising, and how drugs used for medical problems influence exercise. Background in medical terminology and the interrelationships of disease and exercise are useful for understanding exercise literature.

Health and Wellness, Tenth Edition is written in a personal and engaging style with specific tips and aids to help students improve their health habits. This text encourages students to learn the skills they need to enhance the quality and longevity of life. Health and Wellness covers the many perspectives of personal health, including physical, emotional, mental, social, environmental, and spiritual perspectives, with a central theme of self-responsibility for one's behavior.

FITNESS AND WELLNESS, Seventh Edition is a colorful, concise, less expensive option for instructors who value the powerful instruction that is the hallmark of the Hoegers' fitness and wellness texts. If you want the beauty found in the more comprehensive fitness and wellness text, the large ancillary package (see the Ancillaries section for a full listing), but are concerned about price and/or do not have enough time to get through the material, then this is your text! FITNESS AND WELLNESS, packaged with the Profile Plus 2007 CD-ROM, concentrates on health-related physical fitness components, with beneficial information about wellness. Inside, you'll also find discussions on motivation and behavior modification with an emphasis on teaching individuals how to take control of their personal fitness, health and lifestyle habits so they can make a constant and deliberate effort to stay healthy and realize their highest potential for well-being. Fitness for Life Canada: Preparing Teens for Healthy, Active Lifestyles is the only health and fitness education program backed by research and focused on shifting teens from dependence to independence when it comes to lifelong healthy lifestyles. Through Fitness for Life Canada, students are engaged in the process of personal program planning for a variety of health behaviours including physical activity, fitness, and health eating. This evidence-based and standards-based program follows a pedagogically sound scope and sequence to enhance student learning and progress and presents the science of healthy living at age-appropriate levels. Research clearly demonstrates that active and healthy adults use a variety of self-management skills to maintain their positive behaviours. Fitness for Life Canada helps students develop numerous self-management skills—such as self-assessment, self-monitoring, goal setting, finding social support, overcoming barriers, and managing time—to prepare them to independently engage in healthy lifestyles. Students also learn to engage in community physical activity opportunities, with national sport and health organizations, and with technology that supports healthy lifestyles. Through Fitness for Life Canada, students explore these aspects: The foundations of active and healthy living, including adopting healthy lifestyles and self-management skills and setting goals and planning personal programs Learning the basics for lifelong activity and health, including engaging in smart and safe physical activity, knowing how much activity is enough, and understanding healthy eating Beginning activity and building fitness, including participating in moderate- and vigorous-intensity physical activity and developing cardiorespiratory endurance Building muscle fitness and flexibility, including understanding muscle fitness applications and ergogenic aids Maintaining a healthy lifestyle, including achieving a healthy body composition, choosing nutritious foods, and making good consumer choices Creating positive and healthy experiences, including managing stress, developing lifelong leadership skills, understanding reproductive and sexual wellness, and making wise choices regarding alcohol, drugs, and tobacco Fitness for Life Canada has extensive teacher resources with more than 100 lesson plans (classroom and activity based) that provide teachers with numerous options for student assessment and opportunities to demonstrate evidence of student learning (e.g., quizzes, tests, worksheets, student demonstrations, student projects). Teachers can integrate the program with existing curricula or deliver it as a stand-alone program. They can also apply our Fitness Club approach to deliver fitness education to large numbers of students using multiple activity areas. Teacher Ancillaries are available free with the adoption and purchase of a class set of the student text. Special Features in Chapters and Units Every chapter in the student text features two classroom lessons, one feature that engages students with prominent Canadian sport organizations and health organizations, and a chapter review. The book devotes multiple lessons to personal program planning, implementation, and evaluation. Go to Sample Content to view sample page layouts that show these special features. Each unit offers a Consumer Corner feature. The teacher web resources feature the same chapter content as the student text plus three physical activity lessons per chapter that help students apply what they've learned from the classroom lessons. In addition, the chapters have a series of other prominent features: Lesson objectives direct student learning. Lesson vocabulary helps students understand multiple uses of words (definitions in glossary and online). Art includes a version of the physical activity pyramid for teens. Photos and design give the chapters a refreshing student-friendly look with its dynamic four-color design. Muscle art identifies the muscles used in each exercise. Fit Facts give quick information about relevant topics. Quotes from famous people reveal their thoughts on fitness, health, and wellness. Fitness Technology offers opportunities for students to use and study technology. Science in Action provides in-depth coverage of innovations in fitness, health, and wellness. Self-Assessment allows students to evaluate their fitness, health, and wellness as the first step in personal planning for improvement. Taking Charge and Self-Management allow students to learn self-management skills for adopting healthy behaviors and interacting with other students to solve problems encountered by hypothetical teens. Taking Action features activities that are supported by the lesson plans. Consumer Corner helps students become good consumers of information on fitness, health, and wellness as they learn how to separate fact from fiction. Web-Based Resources Fitness for Life Canada provides physical educators with numerous delivery and assessment options in health and physical education. Specifically, the program has more than 100 detailed activity- and classroom-based lesson plans that can be delivered out of the box for beginner teachers and are modifiable for experienced teachers. The lesson plans are supported with assessment and teaching materials such as worksheets, activity cards, PowerPoint slides, quizzes, chapter and unit tests, an online test bank, portfolios (including digital), demonstrations (live, video, and pictures), journals and reflections (written and video), class presentations and video presentations, and supplemental project ideas. For students, web

Fitness for Life is a comprehensive fitness education program that helps students take responsibility for their own activity, fitness, and health. Through Fitness for Life, students are prepared to be physically active and healthy throughout their adult lives. This evidence-based and standards-based program follows a pedagogically sound scope and sequence to enhance student learning and progress. What's new in the Sixth Edition New to this book are three chapters (Strategies for Active Living, The Science of Active Living, and Lifelong Activity) that will help students transition from being active in school to sustaining the skills and motivation to remain active and fit for their lifetime. These chapters reinforce the Stairway to Lifetime Fitness concept, created by author Chuck Corbin, to serve as a guide for physical education standards nationwide. Some specifics include the following: · The New Physical Activity Pyramid for teens · Photos and art to illustrate concepts and engage students · Video that illustrates self-assessments and exercises · Information about the sciences on which physical education and fitness education are based · Information on scientific analysis of human movement using biomechanical principles · Information on simplified scientific method for use in decision making · Web icons and content · Technology features encouraging application as well as understanding · Science in Action feature that provides in-depth coverage of fitness, health, and wellness innovations · Exercise photos with art illustrating the muscles used · Taking Action feature that applies concepts and principles in physical activity · Planning activities for all activities in the Physical Activity Pyramid In addition, the authors went through an exhaustive process in revising and updating all the chapters to reflect current research and the new national physical education standards and fitness education standards. The entire book has been reorganized and completely rewritten. Award-Winning Text, Evidence-Based Approach The evidence-based Fitness for Life text earned a Texty Award for excellence from the Text and Academic Authors Association. It is based on scientific evidence and meets national and state physical education standards and national health and physical education guidelines. Materials have been field tested and used throughout the United States and the world. This comprehensive, interactive new resource will help students in the following ways: · Meet the national, state, and local grade-level standards and outcomes developed for K-12 physical education by SHAPE America based on the new standards outlined in Healthy People 2020 and published in 2014. · Learn the values and benefits of lifelong physical activity through the HELP philosophy, which specifies the goal of promoting health for everyone with an emphasis on lifetime activity designed to meet personal needs. · Become informed consumers on matters related to lifelong physical activity and fitness. · Learn self-management skills that lead to adopting healthy lifestyles. · Recognize and overcome the barriers to reaching activity and fitness goals. · Use technology to promote healthy living. · Separate fitness facts from fiction. · Take personal responsibility for program planning and setting individualized goals. This best-selling text, written by internationally renowned authors and educators Charles B. Corbin and Guy C. Le Masurier and contributing author and

educator Karen McConnell, is suited for use in a general physical education or personal fitness class. It will help students meet national and state physical education standards—not only those focused on health-related fitness and physical activity but also those related to movement skills and concepts, diversity, and social responsibility. Fitness for Life can be modified to fit any schedule, including block and accelerated block. It can be taught as semester-long, yearlong, or multiyear courses. The HELP philosophy on which the book is based (health for everyone with an emphasis on lifetime activity designed to meet personal needs) teaches the value of lifelong physical activity as well as the idea that physical activity can and should be fun. The authors use the Stairway to Lifetime Fitness concept to show the importance of learning decision-making and problem-solving skills that enable students to develop their own health-related fitness programs and maintain a physically active lifestyle into adulthood. Special Features in Every Chapter Every chapter of Fitness for Life, Sixth Edition, includes self-assessments for the students to perform—including Fitnessgram assessments—and lessons on self-management skills such as reducing risk factors, resolving conflicts, setting goals, managing time, and overcoming barriers to success. The book devotes multiple lessons to personal program planning, implementation, and evaluation. The chapters have a series of prominent features:

- Lesson objectives direct student learning.

With content targeted specifically toward higher education students in Canada, Fitness and Wellness in Canada: A Way of Life With Web Study Guide presents evidence-based physical and mental health guidance to point students toward healthy choices that will develop into healthy lifestyles. Authors Sarah J. Woodruff Atkinson, Carol K. Armbruster, and Ellen M. Evans have more than 80 years of combined professional experience in health and wellness, the majority of which has focused on the higher education population. This enables them to present the material in a contemporary manner that is relatable and easily understood by students. Relevant information on topics such as cardiorespiratory exercise, strength training, stretching, nutrition, weight management, stress management, substance abuse and addiction, and sexual health will start students on the path to

developing a healthy mind and body, which can lead to a better quality of life. Additionally, because *Fitness and Wellness in Canada: A Way of Life* emphasizes behaviour modification to develop desired habits, students are armed with the tools they need to make healthy lifestyle changes—for both the present and future: A web study guide offers more than 50 video clips and practical learning activities to provide real-life context for the material. Behaviour Check sidebars help students integrate health and wellness concepts into their daily lives. Now and Later sidebars encourage students to consider how their actions today will affect them in the future. The Functional Movement Training section shows exercises to strengthen specific muscles and explains their importance for everyday activities. Infographics, research-based tables, and figures illustrate and reinforce key concepts so they are easy to understand. Canada's Food Guide is included to assist students in making healthy nutritional choices. The companion web study guide offers students the unique opportunity to engage directly with the content and practice the exercises and strategies presented. Lab activities for each chapter will guide students in completing individual assessments, setting goals, and identifying the pros and cons of modifying their behaviour. Video clips of 48 exercises demonstrate proper exercise technique, and additional learning activities and quizzes gauge student comprehension of the content. In addition, students will benefit from learning aids such as key terms, a glossary, and review questions for each chapter. Instructors will benefit from an abundance of online ancillaries: a presentation package plus image bank, test package, chapter quizzes, and an instructor guide that includes chapter summaries, chapter objectives, class outlines, sample answers to the chapter review questions, and suggested class activities. The primary goal of *Fitness and Wellness in Canada: A Way of Life* is to provide evidence-based guidance to help students embrace living well. Students will learn how to make healthy choices and positive behaviour changes to lead healthier, happier, and more productive lives, now and in the future.
