But the great options of public colleges aren't neglected, as the benefits of community colleges, public honors colleges, tuition discounts in nearby states, affordable regional colleges and flagship universities are explained. Finances and financial aid are covered, with estimates of what to expect from both public and private colleges, with examples for various household income levels. Students and parents will find advice on how to meet admissions staff. Learn how to build an impressive record based on what the colleges are looking for. Students will find practical advice on how to make the best impression with their attire, conversational interactions, paperwork and correspondence. Learn which questions to ask and how to best convey your story, while knowing what things to avoid doing (and there are a few). High school guidance counselors will like the reference information on testing (test by test, 8th grade to 12th grade, in reference summary pages) and admissions statistics. The book covers test schedules, reporting, fees, fee waivers, test cancellation procedures, information websites, admissions events, admissions statistics for 120 colleges in one spot (the publisher

looked them up and calculated them so you don't have to). See about fine print admissions details, like the lowest test scores for admissions at a college. The Starter Guide to College for Clueless Students & Parents is a good value. It doesn't have to be read all at once, but can guide a student and the parents as time passes, even loaned to others.

Studying English Literature is a unique guide for

undergraduates beginning to study the discipline of literature and those who are thinking of doing so. Unlike books that provide a survey of literary history or non-subject specific manuals that offer rigid guidelines on how to write essays, *Studying English Literature* invites students to engage with the subject's history and theory whilst at the same time offering information about reading, researching and writing about literature within the context of a university. The book is practical yet not patronizing: for example, whilst the discussion of plagiarism provides clear guidelines on how not to commit this offence, it also considers the difficulties students experience finding their own 'voice' when writing and provokes reflection on the value of originality and the concepts of adaptation, appropriation and intertextuality in literature. Above all, the book prizes the idea of argument rather than insisting upon formulaic essay plans, and gives many ways of finding something to say as you read and when you write, in chapters on Reading, Argument, Essays, Sentences and References.
