personalities "on the other side," received and written down by the Rev. G. Vale Owen, Vicar of Orford, Lancashire, England. It was first published as four separate books: The Lowlands of Heaven (1920), The Highlands of Heaven (1920), The Ministry of Heaven (1921), and The Battalions of Heaven (1921). This volume combines all four works, and includes revised and standardized introductory pages. As described by Editor H. W. Engholm in his introduction to Book I, *The Life Beyond the Veil* brings us "face to face with a Spiritual Universe of unimaginable immensity and grandeur, with sphere upon sphere of the realms of light which stretch away into infinity. We are told that those who have passed from our earth life inhabit the nearer spheres, amid surroundings not wholly dissimilar from those they have known in this world; that at death we shall enter the sphere for which our spiritual development fits us. There is to be no sudden change in our personality. We shall not be plunged into forgetfulness. A human being is not transformed into another being. . . . So small a thing is the change which we call death . . . that many do not realize it. They have to be taught that they are in another world, the world of reunion. . . ." Books II, III and IV cover a wider range than the first book, more fully explaining the afterlife and giving, in H.W.E.'s words, "a little more of those 'many things' designed to broaden our vision, strengthen our faith, and help us to realize more fully the wonderful things which God has in store for all those that love Him." * * * "Is it subversive of old beliefs? A thousand times No. It broadens them, it defines them, it beautifies them, it fills in the empty voids which have bewildered us . . . it is infinitely

Ancient Caul Bearer lore runs dark and mysterious. Whispers of witch trials, vampires, and werewolves echo over thousands of years of folklore. Malevolent powers, secret cults, and illusive figures loom in the minds of hunters of the occult, leaking into literature in mystical bits and pieces, creating ever more questions of who these enigmatic beings truly are. But how much truth and how much sensationalized rumors are connected with the caul? And what of the modern day caul bearer? The purpose of this book is to demystify the caul; for the Good caul bearer who knows not where to turn for understanding their own nature as deeply sensitive and spiritual beings, who feel the alarming need to "save the world, before it's too late."

where she discovered cancer had returned? Richard D. Rowland seeks the answer to fascinating questions as he explores the connection between humans and animals. As someone who was diagnosed with a rare blood cancer and given three years to live (more than twelve years ago), the human-animal bond is a subject he knows well. Animals caused him to rethink life and showed him things he never thought possible—and they led him to write his previous book, *Unspoken Messages: Spiritual Lessons I learned from Horses and Other Earthbound Souls*. Based on his interviews with people throughout the world, this book expands on how animals are misunderstood—and how they're much smarter than most people believe.

As the worldwide prayer movement continues to flourish, never before have so many Christians from so many faith traditions joined together to intercede for so long--in their homes, in their churches, in their communities. As the prayer movement continues to explode, leaders emerge to give guidance to the growing number of intercessors . . . and Alice Smith is at their forefront, leading the leaders who have lifted the banner of passionate, effective intercessory prayer for this generation and the next. In *Beyond the Veil*, Smith proclaims God's call for His people to pray and shares what she has learned on her own journey toward deeper intimacy with God through prayer. Whether readers are new to intercession or are veteran prayer warriors, they will discover sound, biblical methods for binding the enemy and loosing the Holy Spirit in their families, churches, and nations. Each chapter includes questions and prayer exercises, with a

corresponding devotional to bring the principles of intercession to life, making *Beyond the Veil* the essential guidebook for the prayer revival that is sweeping the globe. In 2004, the French government instituted a ban on the wearing of "conspicuous signs" of religious affiliation in public schools. Though the ban applies to everyone, it is aimed at Muslim girls wearing headscarves. Proponents of the law insist it upholds France's values of secular liberalism and regard the headscarf as symbolic of Islam's resistance to modernity. *The Politics of the Veil* is an explosive refutation of this view, one that bears important implications for us all. Joan Wallach Scott, the renowned pioneer of gender studies, argues that the law is symptomatic of France's failure to integrate its former colonial subjects as full citizens. She examines the long history of racism behind the law as well as the ideological barriers thrown up against Muslim assimilation. She emphasizes the conflicting approaches to sexuality that lie at the heart of the debate--how French supporters of the ban view sexual openness as the standard for normalcy, emancipation, and individuality, and the sexual modesty implicit in the headscarf as proof that Muslims can never become fully French. Scott maintains that the law, far from reconciling religious and ethnic differences, only exacerbates them. She shows how the insistence on homogeneity is no longer feasible for France--or the West in general--and how it creates the very "clash of civilizations" said to be at the root of these tensions. *The Politics of the Veil* calls for a new vision of community where common ground is found amid our differences, and where the embracing of

This insightful book considers the arguments used to justify such laws and analyses the legitimacy of these arguments both generally and in regards to whether such laws can be seen as justified interferences with the rights of women who wish to wear such garments.

Farheen Khan was the victim of an Islamophobic attack by a stranger in a residential apartment building in Toronto. She managed to elude her attacker, but the assault on her body had only just begun. For fear of dishonoring her family in the South Asian and Muslim community, Farheen didn't report the incident. very different reason—poverty and food insecurity. Despite her allergies, Farheen worked tirelessly to make a difference locally on building the foundation for the Muslim social-services sector in her city. From the first lick of soy pudding, to despair and back again, she realized that not only can we not fight adversity alone—we are not expected to. This is an honest and candid story about accepting the angels that come in and out of our lives when we need them the most, to show us to ourselves as a reflective surface on a dirty wall. Sometimes being swept away by a giant wave beyond our understanding can take us to beaches we never knew existed; and in losing control, we can often gain control of who we are and what we are really about. Today, cured of 95 percent of her allergies, Farheen has founded and presides over several non-profit organizations to help relieve poverty.

A Saudi woman discusses what life is like for women in her country, describing how women are sold into marriage to men five times their age, are treated as their husbands' slaves, and are often murdered for the slightest transgression. In ancient Israel, only high priests were allowed through the veil into the "Holy of Holies" of the temple. Thousands of years later, this legacy continues with a baby girl. As the Great Depression looms, Naomi is born with the legendary "birth veil" over her face. In those superstitious times, many believed this meant the child possessed supernatural abilities. After leaving their Jewish faith in the old country, Naomi's family dabbled in such mystical beliefs. But what would "the veil" really mean to Naomi and what does it mean to us today? And who is the mysterious visitor only little Naomi can see? Part the curtains of time with Naomi, then her daughter and granddaughter, as each discovers the hidden secrets of the veil.

From the writing of her first book, *Beyond the Veil: Male-Female Dynamics in Modern Muslim Society* in 1975, Mernissi has sought to reclaim the ideological discourse on women and sexuality from the stranglehold of patriarchy. She critically examines the classical corpus of religious-juristic texts, including the Hadith, and reinterprets them from a feminist perspective. In her view, the Muslim ideal of the silent, passive, obedient woman has nothing to do with the authentic message of Islam. Rather, it is a construction of the 'ulama', the male jurists-theologians who manipulated and distorted the religious texts in order to preserve the patriarchal system. Mernissi's work explores the relationship between sexual ideology, gender identity, sociopolitical organization, and the status of women in Islam; her special focus, however, is Moroccan society and culture. As a feminist,
