The technique of looking with open eyes towards the sun as a form of meditation has long been a mystery, kept in secret, so the strong energies we can harness would not be abused. For a long time there have been rumors and eyewitness accounts of many high saints and initiates living in seclusion in remote places, such as the Himalayas, who have practiced some form of Sun Meditation. Great men like Socrates, Ramakrishna, and Jesus are all believed to have benefited from this practice. We

wonderful way to enjoy it thoroughly. Mythological stories Indian mythology has wonderful stories that reflect the power of Garbh Sanskar.

We can each radiate unconditional love. We don't even need to create it – we are love. But the flow of love is blocked in moments of hurt, blame, anger, criticism, competition or insecurity. These emotions have dominated our emotional space, and hardly enable us to feel our own love. So today, we rely on someone else to love us. This book teaches us to think right, enable self-love, feel it and extend it to other people. The central message here is that love is not 'out there', but within us. A spectrum of emotions like attachment, expectations, hurt, worry, stress, fear or anger, which we use in the pretext of love, are analysed. The conversations also explore the fact that the parent-child relationship is not challenging – It does not need to be. As you free yourself from judgments and expectations, as you start thinking right for people, and as you accept people for who they are, you become a Radiator of unconditional love. You are one decision away from vibrating at a frequency of love ... by not needing love or giving love – but just by being love.

people never fall sick at all and stay healthy, happy and in a state of ultimate bliss. This book will explain you the science behind basic principles of Ayurveda in the contemporary language like; The three fundamental forces on which human mind and body work; How different foods affect these three forces inside us in different parts of the body thereby manifesting in different behaviors as well as diseases proving the point that WE ARE WHAT WE EAT; How different combinations of these forces, makes each of us different and that's why ONE'S NECTAR COULD BE ANOTHER'S POISON; How absence of disease does not necessarily mean good health; How indiscreet dependence on modern medicine and consumption of so called superfoods is the cause of all the chaos and misery in today's world; How science and spirituality are closely connected and how eating and offering the right food is the foremost Karma; How every choice that we make has a consequence of either invoking the GOD or DEVIL inside us. The book will gradually move from Ayurveda to higher knowledge of occult sciences and explain that how Astrology (another discipline of Vedic Sciences) is an outcome of Ayurveda; How Astrology can explain that we are living in a simulated world which Vedas referred to as Maya- the illusion; and How can the principles of these Vedic sciences be gainfully utilized to transform this world from a state of chaos to a state of Ultimate bliss.
