India is going through the start-up revolution today and everyone wants a share of it. Everyone wants to get into it; be it a school dropout, a college graduate, a manager who is vexed with his nine-to-five job, a senior director who now wants to cross over the stream to test waters... Entrepreneurship is such an exciting world that everybody wants to just dive in and enjoy the swim. But is it really easy to be an entrepreneur and become successful? Do you have it in you to maneuver the turbulence? The book talks about all the aspects of why you should become an entrepreneur as well as why-not. While it might be rosy from the outside, unless you are prepared for a roller coaster ride, it might put you off badly. But don't worry; all great things are simple, including this one. Passion and Purpose are the two most important aspects that keep the entrepreneur live and kicking. You could gain an in-depth understanding of how to start your entrepreneurial journey in this book. Success is guaranteed when you focus on creating a difference to this world, the society and most importantly, your true self. The journey is all yours! This book is a one of its kind as it offers true interaction with the reader by offering both bookish as well as real-time experiences from successful entrepreneurs and business leaders. Includes index.

For readers of *Damaged* and *Running with Scissors*, a chilling exploration of psychological control that ends with a glorious escape. Maude still remembers the sound of the gate being locked behind her. She was three years old when they moved into the secluded manor and in the coming years, she would only be allowed out a handful of times. Her parents belonged to a fanatical Masonic order. She followed a strict schedule of study, hard labour and endless drills designed to 'eliminate weakness', such as holding an electric fence without flinching and sitting in a rat-infested cellar. But despite their chilling psychological control, her parents could not control her inner life. Befriending animals on the lonely estate and characters in the books she read, Maude nurtured in herself the compassion and love her parents forbade.

masterful collection, he moves through spaces at once sacred and spoiled, within cities, deserts, and other strange environments, reckoning, taking soundings, trying to find firm footing in the world. Global Beat Fusion The History of the Future of Music Words & Pix by Derek Beres Foreword by Ajay Naidu "Derek Beres is part reporter and part prophet standing in the middle of the eye of the World Music storm that is raining new musical genres on the Earth today, each one fused by the love of song and spirit." -Krishna Das, kirtan artist "I met Derek Beres as a writer interested in shedding light on what was happening in the world of future music. I know him now as a major force pushing this scene in all directions. He has gone so far deep inside that he has become exactly what he writes about. He will forget to write one chapter of this book and that is the one about himself." -Karsh Kale, tabla player/DJ/producer "Derek Beres is a modern-day shaman. He knows new hybrids of electronic and non-Western music deliver the same ecstatic release as ancient tribal rituals of so-called primitive societies, and that the implications go far beyond an ambient groove. For Beres, the fusion of technology and ritual, the reconciliation of mind, body and spirit that electronic world music represents, is not just the cutting edge of modern entertainment but the early stages of a numinous revolution in American culture. In Global Beat Fusion he explains why music is the

interdisciplinary collection which addresses global climate change and sustainability by engaging with the issues of race, gender, and class through an intersectional lens. The book challenges readers to foster new theoretical and practical linkages and to think beyond the traditional, and oftentimes reductionist, environmental science frame by examining issues within their turbulent political, cultural and personal landscapes. Through a variety of media and writing styles, this collection is unique in its presentation of a complex and integrated analysis of global climate change and its implications. Its companion book, *Systemic Crises of Global Climate Change*, addresses the social and ecological urgency surrounding climate change and the need to use intersectionality in both theory and practice. This book is a valuable resource for academics, researchers and both undergraduate and post-graduate students in the areas of Environmental Studies, Climate Change, Gender Studies and International studies as well as those seeking a more intersectional analysis of GCC. A number of curious communities sprang up across the United States in the late nineteenth and early twentieth century: simulated cities, states, and nations in which children played the roles of legislators, police officers, bankers, journalists, shopkeepers, and other adults. They performed

real work—passing laws, growing food, and constructing buildings, among other tasks—inside virtual worlds. In this book, Jennifer Light examines the phenomena of “junior republics” and argues that they marked the transition to a new kind of “sheltered” childhood for American youth. Banished from the labor force and public life, children inhabited worlds that mirrored the one they had left. Light describes the invention of junior republics as independent institutions and how they were later established at schools, on playgrounds, in housing projects, and on city streets, as public officials discovered children's role playing helped their bottom line. The junior republic movement aligned with cutting-edge developmental psychology and educational philosophy, and complemented the era's fascination with models and miniatures, shaping educational and recreational programs across the nation. Light's account of how earlier generations distinguished "real life" from role playing reveals a hidden history of child labor in America and offers insights into the deep roots of such contemporary concepts as gamification, play labor, and virtuality.
