Collective Traumas is about the traumatic European history of the 20th century - war, genocide, dictatorship, ethnic cleansing - and how individuals, communities and nations have dealt with their dark past through remembrance, historiography and legal settlements. Memories, and especially collective memories, serve as foundations for national identities and are politically charged. Regardless whether memory is used to support or to challenge established ideologies, it is inevitably subject to political tensions. Consequently, memory, history and amnesia tend to be used and abused for different political and ideological purposes. From the perspectives of historical, literary and visual studies the essays focus on how the experiences of war and profound conflict have been represented and

remembered in different national cultures and communities. This volume is a vital contribution to memory studies and trauma theory. *Collective Traumas* is a result of the multidisciplinary research project on Memory Culture that was initiated in 2002 at Karlstad University, Sweden. A previous publication with Peter Lang is *Memory Work: The Theory and Practice of Memory* (2005).

Praised for its practical strategies, real-world emphasis, and focus on critical thinking, this successful 4-in-1 text (rhetoric, reading, research guide, and handbook) prepares students for writing in college and in the workplace. *THE SUNDANCE WRITER, FIFTH EDITION*, provides students with essential skills needed for writing in college and beyond, including critical thinking and reading, as well as writing for academic and workplace audiences. The fifth edition features an important restructuring of content that allows students to proceed more quickly to writing projects and to incorporating research into their writing. they want. The Reader's Guide to American History is designed to meet that need by adopting a new and constructive approach to the appreciation of this rich historiography. Each of the 600 entries on topics in political, social and economic history describes and evaluates some 6 to 12 books on the topic, providing guidance to the reader on everything from broad surveys and interpretive works to specialized monographs. The entries are devoted to events and individuals, as well as broader themes, and are written by a team of well over 200 contributors, all scholars of American history.

Readings in American Foreign Policy delivers a contemporary introduction to America's role in world affairs. Useful alone or as a supplementary reader for undergraduate American foreign policy courses, the second edition focuses on the most current problems and how to interpret them. Readings are divided into six parts and each part opens with an introductory essay providing students with a historical framework and "big picture" questions to guide comprehension. Each part incorporates a variety of sources, including not only articles from the most popular journals worldwide, but lesser known government documents and think tank pieces. By exposing students to a unique array of government policies and debates, Readings in American Foreign Policy prompts students to

analyze policy making from multiple perspectives and to develop their own strategies toward evaluating policy positions.

Dominican Republic Foreign Policy and Government Guide

British Foreign Policy since 1945 brings a chronological approach to the study of British foreign policy since the Second World War in order to make the principal events and dynamics accessible within a broader historical and cultural context. The key features included in this book: a detailed chronological survey of developments in post-war British politics; an integrated discussion of foreign and domestic policy developments indicating connections and interlocking themes; illustrations of British foreign policy drawn from popular culture; analysis of Britain's role in the world, particularly in regards to the UK's 'special relationship' with the US and its decision to leave the EU; a range of in-text features including essay questions and seminar/discussion topics. This timely book will be essential reading for anyone interested in British politics, foreign policy analysis and British history. US Foreign Policy since 1945 is an essential introduction to postwar US foreign policy. It combines chronologic and thematic chapters to provide an historical account of US policy and to explore key questions about its design, control and effects. New features of this second edition include:

This book uses a comparative analysis to examine foreign policy discourses and the dynamics of the 'War on Terror'. The book considers the three principal members of the Coalition of the Willing in Afghanistan and Iraq: the United States, Britain and Australia. Despite significant cultural, historical and political overlap, the War on Terror was nevertheless rendered possible in these contexts in distinct ways, drawing on different discourses and narratives of foreign policy and identity. This volume explores these differences and their origins, arguing that they have important implications for the way we understand foreign policy and political possibility. The author rejects prevalent interpretations of a War on Terror foreign policy discourse, in the singular, highlighting that coalition states both demonstrated and relied upon divergent policy framings to make the War on Terror possible. The book thus contributes to our understanding of political possibility, in the process

correcting a tendency to view the War on Terror as a universal and monolithic political discourse. This book will be of much interest to students of foreign policy, critical security studies, terrorism studies, discourse analysis, and IR in general.

Foreign Policy is unique in that it combines theories, actors and cases in one volume. This approach encourages the reader to appreciate a balanced view of the theory, and how foreign policy is carried out in the real world.

At no time in American history has an understanding of the role and the art of diplomacy in international relations been more essential than it is today. Both the history of U.S. diplomatic relations and the current U.S. foreign policy in the twenty-first century are major topics of study and interest across the nation and around the world.

Spanning the entire history of American diplomacy—from the First Continental Congress to the war on terrorism to the foreign policy goals of the twenty-first century—Guide to U.S. Foreign Policy traces not only the growth and development of diplomatic policies and traditions but also the shifts in public opinion that shape diplomatic trends.

This comprehensive, two-volume reference shows how the United States gained “the strength of a giant” and also analyzes key world events that have determined the United States’ changing relations with other nations.

The two volumes’ structure makes the key concepts and issues accessible to researchers: The set is broken up into seven parts that feature 40 topical and historical chapters in which expert writers cover the diplomatic initiatives of the United States from colonial times

through the present day. Volume II's appendix showcases an A-to-Z handbook of diplomatic terms and concepts, organizations, events, and issues in American foreign policy. The appendix also includes a master bibliography and a list of presidents; secretaries of state, war, and defense; and national security advisers and their terms of service. This unique reference highlights the changes in U.S. diplomatic policy as government administrations and world events influenced national decisions. Topics include imperialism, economic diplomacy, environmental diplomacy, foreign aid, wartime negotiations, presidential influence, NATO and its role in the twenty-first century, and the response to terrorism. Additional featured topics include the influence of the American two-party system, the impact of U.S. elections, and the role of the United States in international organizations. *Guide to U.S. Foreign Policy* is the first comprehensive reference work in this field that is both historical and thematic. This work is of immense value for researchers, students, and others studying foreign policy, international relations, and U.S. history.

ABOUT THE EDITORS Robert J. McMahon is the Ralph D. Mershon Professor of History in the Mershon Center for International Security Studies at The Ohio State University. He is a leading historian of American diplomatic history and is author of several books on U.S. foreign relations. Thomas W. Zeiler is professor of history and international affairs at the University of Colorado at Boulder and is the executive editor of the journal *Diplomatic History*.

This biography is the first in English for nearly 30 years.

It re-examines the life of a curiously neglected but important figure in twentieth-century history, Ibn Saud, the founder of the Kingdom of Saudi Arabia. The author uses his knowledge of Arabic and of the Arabian Peninsula to fill the many gaps in existing accounts. This is a clear account with much new detail on the many dramatic episodes in the life of Ibn Saud, from the flight of his family from Riyadh into exile in Kuwait just 100 years ago through his daring recapture of Riyadh in 1902, the expulsion of the Turks, the capture of the Holy Cities of Islam, the discovery of oil and the creation of the Kingdom of Saudi Arabia.

American foreign policy often looks like a trail of man-made debris and disaster. Of course, the explanations for many poorly-made decisions are rather complex. In this brief and cogent analysis, Houghton shows us that understanding American foreign policy often comes down to recognizing the cognitive limitations of the decision-makers, which affects the foreign policy process. Then there is the nature of the decisions themselves. Quite a few decisions in American foreign policy involve 'tragic' choices, where leaders are effectively confronted with a series of progressively bad or uncomfortable options. And it is equally clear that some policies are not the product of any one individual's preferences, but emerge as a consequence of the way in

which complex modern governments with large bureaucracies operate. Written with the interested layperson in mind, as well as students of international affairs, this Citizen's Guide to American Foreign Policy asks questions like, "Why do presidents so often do things which seem to be directly against the national interests of the United States – not just in retrospect, but even at the time?" "Why do there seem to be so many fiascoes in US foreign policy?" "Why does Congress sometimes tie the hands of the president in foreign affairs?" "Why do presidents seem to respond more to opinion polls or to what's on CNN and Fox News than they do to the core interests of the United States?" Houghton's overview helps us see past the partisan infighting that too often obscures the central issues in foreign affairs. This is vital, required reading for all readers who wish to better understand America's involvement in the world.
