Allan's Wife and Other Tales is a collection of Allan Quatermain stories by H. Rider Haggard, first published in London by Spencer Blackett in December 1889. The title story was new, with its first publication intended for the collection, but two unauthorized editions appeared earlier in New York, based on pirated galley proofs. The other three stories first appeared in an anthology and periodicals in 1885, 1887, and 1886. The significance of the collection was recognized by its republication (as *Allan's Wife, With Hunter Quatermain's Story, a Tale of Three Lions, and Long Odds*) by the Newcastle Publishing Company as the twenty-fourth volume of the celebrated Newcastle Forgotten Fantasy Library series in October, 1980. Contents *Allan's Wife* - the story of Quatermain's early life, and his marriage to childhood sweetheart, Stella, mother of his son Harry. *Hunter Quatermain's Story A Tale of Three Lions Long Odds....* Sir Henry Rider Haggard, KBE, Kt (22 June 1856 - 14 May 1925), known as H. Rider Haggard, was an English writer of adventure novels set in exotic locations, predominantly Africa, and a pioneer of the Lost World literary genre. He was also involved in agricultural reform throughout the British Empire. His stories, situated at the lighter end of Victorian literature, continue to be popular and influential. Early years: Henry Rider Haggard, generally known as H. Rider Haggard or

Rider Haggard, was born at Bradenham, Norfolk, the eighth of ten children, to Sir William Meybohm Rider Haggard, a barrister, and Ella Doveton, an author and poet. His father was born in Saint Petersburg, Russia, to British parents. Haggard was initially sent to Garsington Rectory in Oxfordshire to study under Reverend H. J. Graham, but unlike his elder brothers who graduated from various private schools, he attended Ipswich Grammar School. This was because his father, who perhaps regarded him as somebody who was not going to amount to much, could no longer afford to maintain his expensive private education. After failing his army entrance exam, he was sent to a private crammer in London to prepare for the entrance exam for the British Foreign Office, for which he never sat. During his two years in London he came into contact with people interested in the study of psychical phenomena. In 1875, Haggard's father sent him to what is now South Africa to take up an unpaid position as assistant to the secretary to Sir Henry Bulwer, Lieutenant-Governor of the Colony of Natal.[8] In 1876 he was transferred to the staff of Sir Theophilus Shepstone, Special Commissioner for the Transvaal. It was in this role that Haggard was present in Pretoria in April 1877 for the official announcement of the British annexation of the Boer Republic of the Transvaal. Indeed, Haggard raised the Union flag and read out much of the proclamation following the loss of voice of the official originally entrusted with the duty. South Africa, 1875-1882: At about that time, Haggard fell in love with Mary Elizabeth "Lilly" Jackson, whom he intended to marry once he obtained paid employment in Africa. In 1878 he became Registrar of the High Court in the Transvaal, and wrote to his father informing him that he intended to return to England and marry her. His father forbade it until Haggard had made a career for himself, and by 1879 Jackson had married Frank Archer, a well-to-do banker. When Haggard

eventually returned to England, he married a friend of his sister, Marianna Louisa Margitson (1859-1943) in 1880, and the couple travelled to Africa together. They had a son named Jack (who died of measles at age 10) and three daughters, Angela, Dorothy and Liliias. Liliias Rider Haggard became an author, edited *The Rabbit Skin Cap* and *I Walked By Night*, and wrote a biography of her father entitled *The Cloak That I Left* (published in 1951).

H. Rider Haggard, KBE 1856 - 1925) was an English writer, largely of adventure fiction, but also of non-fiction. The eighth child of a Norfolk barrister and squire, through family connections he gained employment with Sir Henry Bulwer during the latter's service as lieutenant-governor of Natal, South Africa. Rider Haggard travelled to southern Africa in 1875 and remained in the country for six years, during which time he served as Master of the High Court of the Transvaal and an adjutant of the Pretoria Horse. Rider Haggard's time in Africa proved inspirational for him, and while still in Natal he wrote two articles for *The Gentleman's Magazine* describing his experiences. He returned to Britain in 1881 and was called to the bar; while studying he wrote his first book, *Cetywayo* and *His White Neighbours*, a critical examination of Britain's policies in South Africa. Two years later he published his first work of fiction

Following a mysterious ancient map, a small group of men trek into southern Africa in search of a lost brother - and the fabled diamond mines of King Solomon. Led by the intrepid English adventurer and fortune hunter Allan Quartermain, they discover a frozen corpse, survive untold dangers in remote mountains and deserts, and encounter the merciless King Twala en route to the legendary hoard of diamonds. This is a diary of Sir Henry Rider Haggard's tour of South Africa in 1914. It captures his feelings and perceptions on the change of Southern Africa, and of himself, since his departure

Lost World literary genre. The book was first published in September 1885 amid considerable fanfare, with billboards and posters around London announcing "The Most Amazing Book Ever Written." It became an immediate best seller. By the late 19th century, explorers were uncovering ancient civilisations around the world, such as Egypt's Valley of the Kings, and the empire of Assyria. Inner Africa remained largely unexplored and King Solomon's Mines, the first novel of African adventure published in English, captured the public's imagination. The "King Solomon" of the book's title is the Biblical king renowned both for his wisdom and for his wealth. A number of sites have been suggested as the location of his mines, including the workings at the Timna valley near Eilat. Research published in September 2013 has shown that this site was in use during the 10th century BC as a copper mine possibly by the Edomites, who the Bible reports were rivals of and frequently at war with King Solomon. Haggard knew Africa well, having travelled deep within the continent as a 19-year-old during the Anglo-Zulu War and the First Boer War, where he had been impressed by South Africa's vast mineral wealth and by the ruins of ancient lost cities being uncovered, such as Great Zimbabwe. His original Allan Quatermain character was based in large part on Frederick Courtney Selous, the famous British white hunter and explorer of Colonial Africa. Selous's real-life experiences provided Haggard with the background and inspiration for this and many later stories.

Haggard's first sequel to "King Solomon's Mines" constitutes an exquisite Lost Race tale of profound importance to the development of fantasy literature as a distinct genre. The character Allan Quatermain is the hero of H. Rider Haggard's 1885 novel King Solomon's Mines. In this adventure novel named after him, Quatermain longs for a return to the wilderness after losing his son. He talks a number of companions into joining him and they journey inland from Africa's east coast, where they are attacked by Masai warriors. Rider Haggard works his unique magic once again. Filled with the trademark touches that have made gentleman explorer Allan Quatermain a fan favorite for nearly a century, this novel is a

This premium quality edition of the sequel to "King Solomon's Mines" includes the complete text of H. Rider Haggard's classic tale of the adventures of Allan Quatermain and his companions in a freshly edited and newly typeset edition.

With a generous 6"x9" page size, this Summit Classic Press

edition is printed on heavyweight bright white paper with a fully laminated cover featuring an original full color design. Page headers and proper placement of footnotes exemplify the attention to detail given this volume. "King Solomon's Mines" is also available from Summit Classic Press in a handsome companion edition (ISBN 978-1480037151). This, the 1887 sequel, opens with "Hunter" Quatermain mourning the death of his only son, a medical student who died of smallpox while working in a hospital, and growing restive with the life of a wealthy English gentlemen. When his old companions, Sir Henry Curtis and Captain Good, appear unexpectedly at his door and express their longing to return to Africa and the adventures of the wilderness, Quatermain reveals his own intention to journey to an unexplored region in search of a fabled lost tribe of white men isolated from the rest of Africa. Joined by the aging but still mighty Zulu warrior Umslopogaas, the company battles Masai warriors, finds and navigates an underground river, and discovers the land of Zuvendis hidden beyond a mountain range. The land is ruled by two sisters as queens, and the advent of Quatermain's party sets in motion a chain of events leading to conflict and ultimately civil war, in which Quatermain and his companions play a major role. When "King Solomon's Mines" was originally published in 1885 it was so successful that it quickly became the best selling book of the year with the publisher working feverishly to print copies fast enough to meet demand. Ironically the book, which was written in less than four months and perhaps in as little as six weeks, had been rejected by numerous publishers who believed its novelty left it completely lacking commercial viability. Indeed, the novel was both the first example of what became the popular "lost world" literary genre and the first English adventure novel set in Africa. The use of the first person subjective viewpoint and a narrative composed in familiar conversational style was also

a radical departure from the ornate language and omniscient viewpoint of the books of the day, many of which were obsessively focused on social class in England. Sir Henry Rider Haggard (1856-1925) wrote "King Solomon's Mines" on a bet, a five shilling wager with his brother that he could write a story "half as good" as "Treasure Island". When young, Haggard had traveled extensively in Africa as a minor government staff official, and the Allan Quatermain character was based in large part on the colorful adventurers he encountered there. Returning to England, Haggard married and became a member of the bar, but soon took up writing full time. Haggard's tales of African adventure were remarkable not only for their originality but for Haggard's attitude toward native Africans. Unusual for writers in the colonial era, Haggard held that many Africans were more noble and admirable than many of the Europeans who arrived in Africa, and his novels include complex and heroic native characters as well as evil and barbaric natives. He penned several popular novels while traveling to various parts of the Empire in the cause of land reform and, like many Victorians, dabbled in spritualism and the paranormal. Haggard's most enduring characters, Allan Quatermain and Ayesha, were brought together in "She and Allan", Haggard's last major work.

H. Rider Haggard, best known as the author of King Solomon's Mines, She, and Allan Quatermain, also wrote three full-length plays. The play Mameena, based on Haggard's novel Child of Storm, is set in Zululand during the 1850s and deals with the struggle for the succession to the Zulu throne. Mameena was staged in 1914 by actor-manager Oscar Ashe, who employed the Zulu expert James Stuart as technical adviser on the production. Star of Egypt was adapted from Haggard's ancient Egyptian romance Morning Star, while the historical melodrama To Hell or Connaught,

set against the backdrop of the Cromwellian colonization of Ireland, was written expressly for the stage. All three plays are published here for the first time, together with previously unrecorded information on how they came to be written and, in the case of Mameena, performed.

Sir Henry Rider Haggard, KBE was born on June 22nd, 1856 at Bradenham in Norfolk, England. After his education he was pushed towards an Army career but failed the entrance exam. Next Haggard was positioned to work for the British Foreign Office but he seems not to have sat that exam. Using family connections, he was sent to Southern Africa by his father in search of a further opportunity of a career. Haggard spent six years there before a return to England and marriage. He had begun to write and publish some non-fiction in Africa but it was only after studying Law in the hope it might prove to be the proper career his father wanted for him that Haggard began to write fiction, using his African experiences as the basis. His first fiction was published in 1885 and the following year King Solomon's Mines was published. It was a phenomenal success. His career was set. Haggard wrote well and wrote often. He managed to sympathise with the local populations even though they were exploited and manipulated by Europeans intent on amassing fortunes in money, people and resources. His writing career covered the great sprint to Empire of several European powers and both reflects and criticizes these events through his well-loved characters including Allan Quatermain and Ayesha. In his later years Haggard pursued much in the way social reform as well as standing for Parliament and writing a great many letters to The Times. Henry Rider Haggard died on May 14th, 1925 at the age of 68. His ashes were buried at Ditchingham Church.

This classic work of fantasy begins with scholar Ludwig Horace Holly being visited by an old friend who is ailing. The friend passes

Holly and Leo travel to Africa to unravel Leo's family secrets and encounter a seemingly immortal tribal leader, Ayesha, whose power and influence are virtually impossible to overcome.

This book contains H. Rider Haggard's 1888 novel, "Mr Meeson's Will". It is based on a famous anecdote of the time and tells the story of Mr. Meeson, the wealthy proprietor of a publishing house, and a young writer named Augusta Smithers. Smithers boards a steamer bound for New Zealand in an attempt to make a new start - only to find that her nemesis is on the same ship. After a collision with another boat, Augusta, Meeson and numerous other survivors wash up on a deserted island in the Indian Ocean. Before dying, Meeson tattoos his will on Augusta's back, which inevitably leads to an interesting court battle in the latter part of the book. In his regiment familiarly they called him "Bottles," nobody quite knew why. It was, however, rumoured that he had been called "Bottles" at Harrow on account of the shape of his nose. Not that his nose was particularly like a bottle, but at the end of it was round and large and thick. In reality, however, the sobriquet was more ancient than that, for it had belonged to the hero of this story from babyhood. Now, when a man has a nickname, it generally implies two things: first, that he is good-tempered, and, secondly, that he is a good fellow. Bottles, alias John George Peritt, of a regiment it is unnecessary to name, amply justified both these definitions, for a kindlier-tempered or better fellow never breathed. But unless a thick round nose, a pair of small light-coloured eyes, set under bushy brows, and a large but not badly shaped mouth can be said to constitute beauty, he was not beautiful. On the other hand, however, he was big and well-formed, and a pleasant-mannered if a rather silent companion. The final book of Haggard's collected fantastic stories H. Rider Haggard's ability to give his audience a good tale well told is not in question. He

was one of the most popular authors of the late nineteenth and early twentieth centuries and some of his novels are well known-at least by title-to almost everyone. His story of Ayesha-'she who must be obeyed'- has been filmed and in its day was one of the best selling novels ever. King Solomon's Mines, introduced the public to the little, wiry, white hunter Allan Quatermain. It too became instantly popular and the character went on to feature in a host of different adventures on the dark continent as well as on the silver screen several times. Leonaur have gathered together several Haggard collections for modern readers to enjoy. There is, of course, the two volume Ayesha quartet, but also the Quatermain series, the African Adventures series, the Historical Adventure series and the series of adventures set in the Ancient World. Irrespective of his central theme Haggard was never one to shy away from elements of the supernatural or fantastical, witches, ghosts, familiar spirits, god gorillas and the like appear unquestioned in even the most realistic of his stories. So it is less than surprising that Haggard also produced a body of work that positions itself uncompromisingly in the realms of the incredible. This special four volume collection from Leonaur gathers together those stories-each book featuring one novel and one or more shorter works-in a satisfying four volume set for his many aficionados to collect and relish. Available in soft cover and hard

back with dust jacket. The final volume of this special collection, includes Love Eternal, a romance of two children who have an affinity with each other that goes far beyond earthly love-they are true soul mates able to commune in spirit. Later their parents oppose their marriage and they must live apart but always connected until every impediment to their union has vanished and they can be together in the physical world. The shorter work that accompanies it here is, Barbara Who Came Back, a fabulous and inspirational tale of love that survives the grave and reincarnation in which the author provides an interesting and reassuring vision of what he considers to be the afterlife.

H. Rider Haggard, 1856 - 1925) was an English writer, largely of adventure fiction, but also of non-fiction. The eighth child of a Norfolk barrister and squire, [1] through family connections he gained employment with Sir Henry Bulwer during the latter's service as lieutenant-governor of Natal, South Africa.[2] Rider Haggard travelled to southern Africa in 1875 and remained in the country for six years, during which time he served as Master of the High Court of the Transvaal and an adjutant of the Pretoria Horse. Rider Haggard's time in Africa proved inspirational for him, and while still in Natal he wrote two articles for The Gentleman's Magazine describing his experiences. He returned to Britain in 1881 and was called to the bar; while studying he wrote his first book, Cetywayo and His White Neighbours, a critical examination of Britain's policies in South Africa. Two years later he published his first work of fiction, Dawn. In 1885 he wrote one of his most popular novels, King Solomon's Mines—detailing the life of the adventurer Allan Quatermain—which was followed by She: A History of Adventure (1886), which introduced the female character Ayesha, both of which became series of books;[a] according to the author Morton N. Cohen, writing for the Oxford Dictionary of National Biography, much of Rider Haggard's reputation rests on these two works. Although he mostly concentrated his non-fiction and

his novels, he also produced a number of short-stories, which have been released in three collection. Though best known for creating the series featuring the unforgettable adventurer Allan Quatermain, author Henry Rider Haggard's other action-adventure heroes are just as compelling and believable. The People of the Mist recounts explorer Leonard Outram's exploits in Africa. Haggard loyalists and other fans of the genre are sure to delight in this thrill-a-minute page-turner. A cantankerous trio of friends sets off on a grand nautical adventure, determined to see the world and shake off the lingering effects of the tragedies and disappointments that each of them have experienced in recent years. But when their boat voyage is thrown off course, they stumble across the vestiges of a mysterious lost civilization. Will the friends be able to escape its evil clutches and make it back home?

King Solomon's Mines (1885) is a popular novel by the Victorian adventure writer and fabulist Sir H. Rider Haggard. It tells of a search of an unexplored region of Africa by a group of adventurers led by Allan Quatermain for the missing brother of one of the party. It is the first English adventure novel set in Africa, and is considered to be the genesis of the Lost World literary genre. The book was first published in September 1885 amid considerable fanfare, with billboards and posters around London announcing "The Most Amazing Book Ever Written." It became an immediate best seller. By the late 19th century, explorers were uncovering ancient civilisations around the world, such as Egypt's Valley of the Kings, and the empire of Assyria. Inner Africa remained largely unexplored and King Solomon's Mines, the first novel of African adventure published in English, captured the public's imagination. The "King Solomon" of the book's title is the Biblical king renowned both for his wisdom and for his wealth. A number of sites have been suggested as the location of his mines, including the workings at the Timna valley near Eilat. Research published in September 2013 has shown that this site was in use during the 10th century BC as a copper mine possibly by the Edomites, [2][3] who the Bible reports were rivals of and frequently at war with King Solomon. Allan Quatermain, an adventurer and white hunter based in Durban, in what is now South
