for theology, an action of embodied community, as well as a means to a divine encounter. This multidisciplinary anthology approaches congregational music as media in the widest sense - as a multivalent communication action with technological, commercial, political, ideological and theological implications, where processes of mediated communication produce shared worlds and beliefs.

Bringing together a range of voices, promoting dialogue across a range of disciplines, each author approaches the topic of congregational music from his or her own perspective, facilitating cross-disciplinary connections while also showcasing a diversity of outlooks on the roles that music and media play in Christian experience. The authors break important new ground in understanding the ways that music, media and religious belief and praxis become 'lived theology' in our media age, revealing the rich and diverse ways that people are living, experiencing and negotiating faith and community through music.

Taking as its theme 'beauty from ashes' the beautiful image from Isaiah 61:3, *All the Beautiful Things: Finding Truth, Beauty and Goodness in a Fractured Church* is written at a time when the Catholic Church and its people are reeling from years of scandal. This book asks questions throughout and attempts to answer them based on the author's lived experience; but it also engages a wide range of conversation partners. These answers are the result of interviews, surveys and conversations with people who love the Church, but seek reform and renewal. It is a 'cri de coeur', a cry of the heart to try to reclaim what has been lost. It is a taking up of a cross and walking on a journey paved with all manner of challenge. In the end, the author's hope is to help others to rediscover the truth, beauty and goodness that still exist within Catholicism.

place. Churches and religious groups are forced to 'sell god' in order to be attractive to 'religious consumers'. More and more, religions are seen as 'brands' that have to be recognizable to their members and the general public. What does this do to religion? How do religious groups and believers react? What is the consequence for society as a whole? This book brings together some of the best international specialists from marketing, sociology and economics in order to answer these and similar questions. The interdisciplinary book treats new developments in three fields that have hitherto evolved rather independently: the commoditization of religion, the link between religion and consumer behavior, and the economics of religion. By combining and cross-fertilizing these three fields, the book shows just what happens when religions become brands. The Bloomsbury Handbook of Religion and Popular Music is the first comprehensive analysis of the most important themes and concepts in this field. Drawing on contemporary research from religious studies, theology, sociology, ethnography, and cultural studies, the volume comprises thirty-one specifically commissioned essays from a team of international experts. The chapters explore the principal areas of inquiry and point to new directions for scholarship. Featuring chapters on methodology, key genres, religious traditions and popular music subcultures, this volume provides the essential reference point for anyone with an interest in religion and popular music as well as popular culture more broadly. Religious traditions covered include Christianity, Islam, Judaism, Hinduism, Buddhism, Paganism and occultism. Coverage of genres and religion ranges from heavy metal, rap and hip hop to country music and film and television music. Edited by Christopher Partridge and Marcus Moberg, this Handbook defines the research field and provides an accessible entry point for new researchers in the

Christian Sacred Music in the Americas explores the richness of Christian musical traditions and reflects the distinctive critical perspectives of the Society for Christian Scholarship in Music. This volume, edited by Andrew Shenton and Joanna Smolko, is a follow-up to SCSM's Exploring Christian Song and offers a cross-section of the most current and outstanding scholarship from an international array of writers. The essays survey a broad geographical area and demonstrate the enormous diversity of music-making and scholarship within that area. Contributors utilize interdisciplinary methodologies including media studies, cultural studies, theological studies, and different analytical and ethnographical approaches to music. While there are some studies that focus on a single country, musical figure, or region, this is the first collection to represent the vast range of sacred music in the Americas and the different approaches to studying them in context.

I had always believed in the healing power of our Lord, and viewed my life as one of service to Him via the practice of medicine. But, in retrospect, I had a deeper trust in the power of modern medicine and science than I did in Jesus Christ and His fully accomplished work on the Cross. My thinking was flawed, but, as I grew in my walk with the Lord and meditated on Scripture more fully, I began to see the superiority of faith over the limited interventions modern medical science had to offer, and that this interplay between faith and science was not mutually exclusive, but

His absolutely miraculous healing was the impetus to start putting these thoughts into writing, in the form of weekday morning emails entitled "A Christian Doctor's View of Healing, Faith, and Science". It was soon made clear to me that these writings were to take the form of a year long devotional book, comprised of short weekday messages that are intimately linked, such that they can be read through as a book. And that book was to paint a picture, and that picture was to be of a face, and the face was to be that of Jesus, for He is the source of all healing

Daniel Thornton shows how these perspectives taken together provide unique insight into the current global CCS genre, and into its possible futures.

Bill Johnson, Joyce Meyer, Heidi Baker. The fame of these names is evidence enough that, though the controversies are less intense, the Charismatic Movement is alive and well today. It continues to attract thousands of adherents who find its vision of a supernatural lifestyle uniquely compelling. Now, for the first time, all that is most theologically innovative about the movement is synthesized into five distinct and original ideas. These five brand new theologies have been created, not by theologians, but by practitioners who believed their concepts were inspired by the Spirit: Inner Healing, Shepherding, Word of Faith, Spiritual Warfare, and Signs and Wonders. Plenty of studies have been written by Pentecostal scholars about Pentecostal theology, but these tend to group the very distinct approaches of Charismatics together with Classical Pentecostals. Bold Faith aims to analyze and evaluate the ways in which practitioners within independent Charismatic networks, especially in their Anglo-American expressions, have responded to the challenges of secular modernity.

The parable in Luke 15:1–7 can be seen from three angles. The dilemma of the shepherd is whether or not to leave the ninety-nine and go in search of the one lost sheep. It may not make sense economically and rationally, but he leaves them anyway and begins his search. The poor sheep has wandered away and is lost—not hopelessly so, but lost. The sheep does have hope, and it rests with the shepherd whose love for her is so vast and so relentless that he won't rest until he finds the sheep. And then there's the ninety-nine. Their attitude and behavior toward the lost sheep is paramount in the story. Will they join in the search? Will they celebrate with the shepherd once the sheep is returned? Or will they criticize and whine about how the shepherd spends all his time searching for the one who is lost? The One explores the foundational nature of this parable and how important its implications are for the church and one's own walk with the Lord. The value that God places on the one is life-changing for those who come to understand it. There are only two paths: Freedom or Slavery Spirit or Flesh Faith or Law Blessing or Cursing Life or Death Which path are you on? This is Paul's argument in the first letter he ever wrote under the Spirit's inspiration. He wants his readers--then and now--to live in the path of freedom and life. The Galatians had traded salvation by grace alone through faith alone for a ""gospel"" of works of Law. Paul has some seemingly harsh words for them, because to replace grace with anything else is to destroy the Gospel of Jesus Christ. Discover the secret to living a powerful and abundant life through the upside-down kingdom of God. In our constant search for a life filled with blessing and abundance, we often follow our human instinct, and then wonder why we come up short. God always has a better idea. And it most often requires us to move in the opposite direction. In *The Opposite Life*, pastor and author Alex Seeley explains the secret to living a powerful and abundant life through the upside-down kingdom of God. Each chapter unpacks the opposite-life principles that begin with our way of thinking and yield miraculous results. They include death vs. life fear vs. faith last vs. first love vs. hate worry vs. worship give vs. receive impossible vs. possible We all want the blessed life but sometimes go about it in the wrong way. God's promises are conditional. He says follow Me, and I will change your weakness into strength, your foolishness into wisdom, and your nothing into everything.

chronicles his journey of self-reflection and revelation, evaluating not only personal beliefs but external influences that have significantly impacted the American Christian church. He shares a Biblical look at money, politics, and sin and how the gospel impacts culture in power. Geared toward the approximately sixty percent of Americans who identify as Christians, *God is Not on Your Side* tackles difficult and controversial topics. It brings to light the many ways in which secular culture has influenced American Christianity both individually and corporately. It calls the follower of Jesus to a renewal of faith and a life set apart from the surrounding culture that bears witness to the power of almighty God. The word *If* is a powerful little word. Some people are stuck in *if* only, trudging through lives marked with regret. But God wants us to live lives marked with possibilities, with the *what if* attitude that looks forward to the future with confidence. Why? Because the answer to "If God is for us, who can be against us?" is "No one." God is always on our side, every day, in every way. Young people especially need to

hear this life-changing message of hope and freedom from Mark Batterson and his son Parker. With his trademark enthusiasm and contagious joy, Batterson helps teens and young adults overcome those feelings of guilt, fear, and doubt that plague them and embrace the truth that in Christ there is no condemnation. Unpacking the promises of Romans 8, he shows young readers that they are more than conquerors--right now and forever. And because of that, the possibilities for their lives are limitless. This book studies the concepts and philosophies governing globalized faiths. *Transnational Religious Movements* is a convincing narrative of how global religions have moved beyond spirituality to become key players in the world of welfare, education, economics, politics, and international relations. It examines the major faiths of the world, viz., Christianity, Islam, Buddhism, and a sect. of Hinduism, to demonstrate transnational religious movements in the wake of globalization. The book focuses on the strategies and practices of six representative religious organizations that operate transnationally and helps us understand how they are formed, structured, and institutionalized in society, and how they operate. It dwells on how individuals, groups, media, and state as well as non-state actors come to terms with these organizations. World religions do not simply respond to globalization; they also shape and affect the future

dynamics of globalization.

This book is a study of how congregational song developed and has been used in the worship of Western churches in general and specifically churches in the United States. Beginning with the worship of ancient peoples, the Hebrews, and early Christians and continuing to the present, the author examines historically how song has been and is used as an intentional sacred ritual action, like prayer or Scripture reading. Written primarily as an introductory text for college and seminary students, the overall goal is to make a historical journey with the people, events, and ideas from which have evolved the various types of song we have in American worship today. To help readers think more deeply about the material, study questions are given at the end of each chapter.

You may have heard that churches in Europe are vanishing. Yet church growth in London has been steady for decades, fueled by such innovations as Alpha and Fresh Expressions. What about outside the capital? Some, both inside and outside the church, say churches “cannot grow.” But here they are—growing churches—in the north of England of all places. This is not only a story about England. It is about growing churches wherever you’ve heard they “can’t” grow. God is always up to something precisely where (we think) God shouldn’t be. You may be looking at the back of this book, watching as someone else is reading it—a book entitled: *Love: Expressed*. And you’re thinking, ‘They must have issues.’ So to help them out for a moment: This isn’t another one of those ‘self-help’ manuals. This isn’t a book about romance and sex, or feelings and cuddles. This isn’t a guidebook offering relationship advice, giving tips on how to find

‘love’ and ‘look after’ it. In those senses, this isn’t even a book about love. It’s a book about life—every part of it. About how it should be lived, how it should be explored, how it should be expressed. This is a book about meaning, about life’s trajectories. It’s about God. It’s about you. It’s about them. In that sense, this is all about love. But if I could capture here what I mean by ‘love’ in that sense, I wouldn’t have needed to write a book. “Tristan Sherwin has written a smart and beautiful book showing us that Jesus Christ is the love of God expressed as a human life. This is the life we are called to imitate; this life of love is what we are made for.” —Brian Zahnd; Author of *A Farewell To Mars* “Refreshing, authentic, inspiring, and yet practical—Tristan is a breath of fresh air.” —Jeff Lucas; Author, Speaker, Broadcaster “Love: Expressed is a work of dirt-under-your-fingers spirituality.” —Jonathan Martin; Author of *Prototype*

Indonesia is the largest Muslim majority nation in the world and at the same time has a growing Pentecostal/Charismatic movement, gaining more public attention, both for its size and wealth. Building on two years of research, thousands of member surveys, and visits to almost 300 churches, this book gives insights into the reasons for its growth. It explores the characteristics of the growing community and its social relations with other Christian communities as well as Muslims in Indonesia.

When a thread of illnesses and unexplainable symptoms pile on top of one another, a young woman's cancer diagnosis comes as no huge surprise. The road to healing, however, is much harder and less predictable than she and her family could have ever anticipated. With a combination of humor and heartfelt musings, Darla invites you into her personal faith journey on the road of suffering.

This interdisciplinary volume brings together leading writers and thinkers to provide a critique of a broad range of topics related to Hillsong Church. Hillsong is one of the most influential, visible, and (in some circles) controversial religious organizations/movements of the past thirty years. Although it has received significant attention from both the academy and the popular press, the vast majority of the scholarship lacks the scope and nuance necessary to understand the complexity of the movement, or its implications for the social, cultural, political, spiritual, and religious milieus it inhabits. This volume begins to redress this by filling important gaps in knowledge as well as introducing different audiences to

new perspectives. In doing so, it enriches our understanding of one of the most influential Christian organizations of the late 20th and early 21st centuries. Why do people identify with growing late modern churches – and does identification lead to morally transforming commitments beyond late modern consumerism? This case study presents findings that may inspire both social scientists and theological practitioners to new forms of thinking.

The title of Dr. Harris' book suggests that life is like a two-sided coin: it can be an Ocean of Love but can also be a Sea of Troubles. The subtitle clarifies this paradox: first, there are many signs of God's reality and activity in the world, and the first section of the book examines ways in which people are aware of God as both a creative and immanent presence in life. The "signs" of God are not philosophical "proofs" but empirical realities accessible to all people. In the second section, the biblical responses to suffering in the world are explored--through both Old and New Testaments. In the third section the writings of two modern apologists, C. S. Lewis and Philip Yancey, are assessed, and then finally there is a chapter of interviews with people who have known suffering in their lives.

International apologists present a compelling and inspiring case for how to draw on the resurrection for everyday Christian living.
