Prestaties van mensen hebben steeds meer invloed op de bedrijfsstrategie. Die prestaties moeten dan wel gemeten kunnen worden. Op basis van de succesvolle Balanced Scorecard hebben de auteurs van dit boek een nieuwe methodiek ontwikkeld, de HR-scorecard. Daarmee kan human resources management ingepast worden in de algemene strategie van bedrijven en kan men human resources managen als een onderdeel van het bedrijfskapitaal. Bovendien wordt het mogelijk om met de HR-scorecard een koppeling te maken tussen menselijke prestatiemeting enerzijds en meetfactoren zoals omzet- en winstcijfers anderzijds. Aan de hand van een onderzoek bij 3000 bedrijven hebben de auteurs een model ontwikkeld dat bestaat uit 7 stappen. Zij beschrijven uitgebreid de verschillende stappen met een praktische toelichting hoe deze kunnen worden geïmplementeerd in de bedrijfsvoering. 'De HR-scorecard' is daarmee een boek dat een model neerlegt voor prestatiemeting in relatie tot strategie. Dit zal vele managers behulpzaam zijn in hun zoektocht naar betere instrumenten voor human-resources-management.

This text provides an introduction to the main human resource management issues relevant to contemporary business organizations. Using up to date examples and research, the starting point for the text is to demonstrate HRM in practice. This approach provides a platform for outlining the main HR theories, before critically evaluating these theories.

The paradigm of employee management has undergone rapid transformation in the last decade, from comparative advantage to a state of continuous innovation, strategic intent and a holistic knowledge framework. This implies that to be successful, organisations have to develop and/ or seriously re-look at appropriate HRD strategies to tap the human potential within the organisation and align it with the overall corporate strategy. In an increasingly

difficult global business scenario, where major decisions have gone awry plunging the world into an economic crisis, HRD professionals are compelled to grapple with progressively more complex issues. It is against this backdrop, that an attempt has been made to present the entire contemporary conceptual framework of human resource development in a refreshingly new style so as to facilitate devising of appropriate strategies for the organisation. Fortunately, there is a rich and growing base of theory, research, and practical experience in HRD efforts. This book has been written to help students, HRD professionals, and managers at all levels to take advantage of this. If they do so, they will increase their effectiveness, along with that of individuals with whom they work and the organisations of which they are a part. The book will serve primarily as a comprehensive text for undergraduate and graduate courses in business, management, public administration, educational administration, and other related fields. This, the FOURTH edition of the book, is a thoroughly revised and enlarged version that has been updated to reflect the thinking on HRD theory and practice that has taken place over the last few years. Some of the new features and improvements include: * New, contemporary case studies; * Discussion of recent thinking about the nature of managerial work, strategic management development, global management development, competency-based management education and development, and new practices in leadership and executive development; * Ideas, references and events updated right upto March, 2009; * Humorous cartoons; clearer, more explanatory diagrams. At the same time, care has been taken to maintain the elements that have made the previous editions a useful and meaningful resource to students and practitioners, including uncluttered writing, a comprehensive approach to HRD, a strong research base, and a balance between theory, research, and practice.

Managing people in a multinational context is the essence of international human resource management. This requires a broader perspective of what operating internationally involves, and a clear recognition of the range of issues pertaining to all categories of staff operating in different functional, task and managerial capacities. Books that are available on the subject are heavily loaded with cultural aspects rather than HRM processes. From teaching experience, it is noticed that students who are familiar with domestic HRM books find it difficult to comprehend the subject of international HRM. Therefore the topics are arranged in the traditional HRM style with international implications at each stage. A separate chapter is allocated for Expatriation & Repatriation. Similarly Management of People in international context in sixteen countries is discussed in a separate chapter. The text aims to cover in terms of industries, to illustrate the activities and approaches of international organisations. Also, the coverage of different cultures is not intended to include all the different and diverse cultures of the world, simply to enable sufficient understanding of the cultural contexts from which many of the approaches are derived, and to provide background on the appropriateness of different aspects of managing people in international organisations. A detailed treatment to empirical researches on cross cultural issues and cross cultural, comparative management issues arising out of cross border mergers and acquisitions as well as human resource issues emerging out of global acquisitions of Arcelor and Corus by Indian companies and companies of Indian origin are also treated in the text.
