This book focuses on case studies of vocabulary strategy use and presents an in-depth account of the vocabulary learning experiences of Chinese students in the UK. It challenges the view that vocabulary strategies result only from learners' cognitive choices, and provides insightful analysis of the interplay between learner characteristics, agency and context in the process of strategic learning. The author makes a strong case for using qualitative methodologies to examine the dynamic, complex and contextually situated nature of strategic vocabulary learning. Drawing on multiple data sources, the book discusses issues that are central to the continuing development of vocabulary strategy research and offers theoretical, research-based and practical suggestions for future exploration. This book will appeal to students and scholars of second language acquisition, vocabulary and applied linguistics.

This book examines the relationships between foreign language learning beliefs and learning preferences of two English language learners and the beliefs and teaching practices of two Native English-speaking teachers in the EFL context. In such an environment, the learners were not satisfied with learning English in their public school; they paid a great deal of money to attend a private school and had many expectations regarding the course and the teachers. On the other hand, the teachers had to satisfy their students without any personal experience in learning English as a foreign language. Practically, the book will help private schools and other similar contexts to enhance their competitiveness in the market and serve their learners better. In addition, the book will also help EFL teachers to raise their awareness of the nature and effects of the relationship between teachers' and students' beliefs. Theoretically, this book contributes to the current literature on this subject by relating not only learners' beliefs and preferences, but also teachers' beliefs with their on-going practices.

Curriculum design options cover a continuum from regional and school-based programs to national and international frameworks. How does policy speak to practice? What have teacher-researchers discovered through in-classroom studies? Where do you begin to describe or measure 'effective' language education curriculum design? The Routledge Handbook of Language Education Curriculum Design presents a comprehensive collection of essays on these issues by 31 established practitioners and new researchers. Informed by experienced scholarship and fresh studies, this handbook shares international perspectives on language education from policy and curriculum to teacher training and future directions. The handbook addresses language education curriculum design across five sections: Language curriculum design: perspectives, policies and practices Designs across the curriculum Curriculum designs in language education Curriculum resources, evaluation and assessment Teacher education, research and future projects With contributions from Australia, Brazil, Indonesia, Switzerland, Timor-Leste and more, the handbook represents the breadth of research into and the global implications for sound language education curriculum design. It considers equally the needs of students and policy makers from urban metropolises and remote communities. It is designed to reinvigorate discussions about education policy, curriculum management and the role of teacher-researchers.

Reflective Dialogue presents professional educators with the necessary background and skills to engage in reflective dialogue with language learners effectively. It draws on work in the fields of advising in language learning, reflective practice, sociocultural theory, language learner autonomy, counseling, and life coaching to provide both an introduction to the field and guidance for researching advising in action. The book also includes a wide variety of practical ideas and over 30 sample dialogues that offer clear demonstrations of the concepts discussed in practice. This dynamic textbook's practical approach illustrates how reflective dialogue can promote language learner autonomy and how language advising can be implemented successfully both inside and outside the classroom.

IELTS General Training measures English language proficiency in a practical, everyday context. It is appropriate for those planning to study in high school or a vocational training program. People migrating to Australia, Canada, New Zealand and the UK must take the IELTS General Training test. (Source: ieltsessentials.com). If you're here reading this book, it means you're taking your first step in your immigration plan: to prove your language ability. You should be proud of yourself. When IELTS test takers have been asked: "Which is the most difficult skill out of the four skills in an IELTS General Training test?" Most of them answered: Writing You see, writing is hard. Even native speakers make mistakes in punctuation, spelling, and grammar. They do it all the time. Next time, pay attention when you read emails, Facebook posts, Instagram posts or even magazines, you will realize that not any native speakers are be able to write correctly. It happens because not all of them reach the same level of literacy. Many professionals rarely write in their day-to-day life. Remember, native speakers have to take IELTS for immigration purposes, too! Keep that thought in mind, you have an equal opportunity to get a band 7 or above in an IELTS test. With a strong desire to succeed, a detailed learning strategy and well-prepared course from our books, you will get the score you deserve. This book focuses on the language you need for success in IELTS Writing Task 2. It covers five sections: 1. Improving your range - Grammar and Vocabulary 2. Improving your accuracy - Grammar and Vocabulary 3. Using an academic style 4. Writing cohesively and coherently 5. Expressing your ideas effectively
