Of the three horses that were the ancestors of the modern thoroughbred, the first and greatest was undoubtedly the Byerley Turk. This book gives an account of the life of this breed, extending from the palaces of the Ottoman Empire to the streets of London and beyond, and featuring a cast of historical figures. It begins in 1679 in a remote Balkan village, where a seyis - a penniless groom - finds himself caring for a remarkable young foal. Believing it destined for greatness, and seeing a chance to escape his own humble circumstances, he begins schooling the animal in the disciplines of war. Hewing closely to the historical record, the author goes on to trace the fortunes of the Turk and its new master: In 1682, they arrived in Istanbul, where the horse was selected for the Ottoman Empire's renowned cavalry. Ridden as a battle charger in the Turkish sieges on Vienna and Buda, it was captured, along with its groom, by a party of adventuring British aristocrats and taken back to England in 1686. In London, it was bought by Captain Robert Byerley, who rode the Turk to Ireland to take on the Jacobite forces in several pivotal encounters, including the Battle of the Boyne. Eventually, the Turk was put to stud, initiating what was to become

A Bike Ride through My Life chronicles the life of author Frank Clements with bicycles following the twists and turns that his life has taken in pursuit of his passion for riding. Clements is the younger brother of Ernie Clements, winner of several British Cycling Championships and a Silver Medal in the 1948 Olympic Games Bicycle Race. Despite his love of cycling, he first chose to join National Service in the RAF to establish a unique place for himself and spent virtually all of his final twelve months of service riding a bike. After his tour of duty ended, he began training to become the best cyclist in the world, his life's ambition since his success as a potential world class cyclist as a teen. Clements has had many ups and downs in his cycling life. At a young age, he came in second in the British under-eighteen championships and just missed being a member of the British Olympic Cycling team for the 1956

In this book, first published in 1970, Ruth L. Tongue has collected a number of county folk tales recorded by her from childhood onwards, from old people, village children and farm round-the-fire sessions. Many of the beliefs embodied in the gipsy and witchcraft tales are still in practice today among the travelling people and locally 'gifted' healers. The tales reveal a good deal of fairy lore, some tree lore, including ghostly trees like Crooker, and the 'uncanny' Black Dog makes his appearance in more than one tale. The collection includes several of the long fireside tales which would be told on succeeding evenings on winter nights round the kitchen fire, and rhozzums from various localities.

I See That You Are Down, But When Are You Going To Get Up? chronicles the trials and tribulations I encountered during transition for boyhood to man-hood through the transformative powers of Christ and the Holy Spirit within us all. We are far more than our parental DNA, and far greater than the product of our environment. We have far more in common within the human experience than we are willing to accept. At the height of the civil rights movement in Mississippi, as hundreds of volunteers prepared for the 1964 Freedom Summer Project, the Council of Federated Organizations (COFO) compiled hundreds of statements from activists and everyday citizens who endured police abuse and vigilante violence. Fifty-seven of those testimonies appear in *Mississippi Black Paper*. The statements recount how white officials and everyday citizens employed assassinations, beatings, harassment, and petty meanness to block any change in the state's

segregated status quo. The testimonies in Mississippi Black Paper come from well-known civil rights heroes such as Fannie Lou Hamer, Aaron Henry, and Rita Schwerner, but the book also brings new voices and stories to the fore. Alongside these iconic names appear grassroots activists and everyday people who endured racial terror and harassment for challenging, sometimes in seemingly imperceptible ways, the state's white supremacy. This new edition includes the original foreword by Reinhold Neibuhr and the original introduction by Mississippi journalist Hodding Carter III, as well as Jason Morgan Ward's new introduction that places the book in its context as a vital source in the history of the civil rights movement.

What prompts a well-renowned scientist in molecular biology to write memoirs about a part of his life? In the case of Gunther Stent, it was not to reflect on his career as a scientist, but to come to an understanding of his own soul. In his seventies, he had come to see that he had been, throughout his life, an emotional sleepwalker, especially as regards women and, in addition, that he had been troubled by Jewish self-hatred. His story may have more to do with St. Augustine's Confessions than with a scientist's memoirs. Stent provides insight into the power of political correctness, and the ability of a government to establish a perverse vision of reality. For readers interested in bioethics, Stent's memoirs help to explain how Germany could have been the first country to enact an all-encompassing protection for human research subjects while it was also the country that produced the medical experiments of the Nazis and the greatest perversion of medical morality in history. Stent is a person of intelligence and subtlety, an accomplished writer, a deep and wise man, and a loyal friend. His narrative is centered emotionally on a youth spent in Berlin in the Nazi period. As a boy of fourteen he was an eyewitness of the horrors of the Kristallnacht pogrom. On New Year's Eve 1938 he escaped from Germany across the "green frontier." He came to America in his teens, only to return to Berlin at the end of World War II as a scientific consultant for the U.S. Military. On his return to the States, Stent participated in the exciting early scientific breakthroughs of molecular biology that transformed the twentieth-century life sciences. His Nazis, Women and Molecular Biology is a piercing self-examination, and as its review in Science Newsletter says, "an act of self-exposure, abnegation, contrition, and expiation." It will be of keen interest to those who have inhabited Stent's worlds or shared

his experiences, as well as those who wish to learn more about them. Gunther S. Stent is professor emeritus of neurobiology at the University of California, Berkeley. He is the author of such classic texts as *Molecular Biology of Bacterial Viruses* and *Molecular Genetics*, as well as philosophical books, such as *The Coming of the Golden Age*, *Paradoxes of Progress*, and, most recently (2002), *Paradoxes of Free Will*.

This book contains a collection of formal and informal reading assessments for use with students in Grades k-12. These assessments assist the teacher in targeting areas of strength and weakness, in monitoring student reading development, and in planning appropriate instruction. Unlike large-scale achievement tests, the majority of these assessments can be administered individually. Each assessment was selected because it measures an important research-based reading skill and because

it is quick, reliable, and easy to use. Each assessment provides clear and accurate individual student information. The assessments included in this book are informal assessments designed to measure specific skills critical to successful reading. Some of the assessments are curriculum-based, while others are criteria-based, depending on the purpose of the assessment. Similarly, some assessments target specific skills, some are instruments for broader screening, and some can be used for both types of assessment. Spanish assessments are provided for the early grades where many students may still be in bilingual programs or may be receiving Spanish primary language instruction before transitioning to English programs. Profile Forms and Class Records found in the Appendix provide an easy way for teachers to summarize assessment results. Appended are: (1) core Reading Assessment Profile Forms; (2) core Reading Assessment Class Records; (3) Performance Criteria for Fluency and Fluency Scores: a Discussion; (4) Assessment-Driven Instruction: a Systems Approach; and (5) Resources for Assessing Reading.
