Analyses of the political and ideological transformation of Hizbullah.

""Tidak ada yang pernah membayangkan, Saddam Hussein yang karismatik dan flamboyan dapat berlaku preman, menggunakan segala cara untuk memenuhi ambisinya. Invasi militer Irak terhadap Kuwait pada tahun 1990 merupakan puncak ambisi Saddam Hussein untuk menjadi pemimpin bangsa Arab. Namun, ambisi itu hancur ketika Pasukan Koalisi pimpinan Amerika Serikat yang didukung PBB melancarkan Operasi Badai Gurun dan berhasil mengusir Irak dari Kuwait. Buku ini mengungkap dengan jelas tarik-menarik kepentingan antara Amerika Serikat, Saddam Hussein, dan PBB, serta menganalisis proses kolaborasi dan interdependensi PBB-Amerika Serikat yang menghasilkan Resolusi 678 Dewan Keamanan PBB. Buku ini juga menggambarkan strategi dan taktik Pasukan Koalisi pimpinan Jenderal H. Norman Schwarzkopf dalam "Operation Desert Storm" yang dapat menghancurkan Pasukan Irak, mengeluarkan Saddam Hussein dari Kuwait, memulihkan keamanan dan perdamaian di Timur Tengah, dan mengembalikan kedaulatan negara dan pemerintah Kuwait yang sah. Penulisnya, Mayjen TNI Marinir (Purn.) Yussuf Solichien, adalah seorang perwira militer Indonesia yang terlibat langsung dalam proses perdamaian di Timur Tengah, yang saat itu bertugas pada Kontingen Garuda IX/UNIIMOG di Irak. The rise of China could be the most important political development of the twenty-first century. What will China look like in the future? What should it look like? And what will China's rise mean for the rest of world? This book, written by China's most influential foreign policy thinker, sets out a vision for the coming decades from China's point of view. In the West, Yan Xuetong is often regarded as a hawkish policy advisor and enemy of liberal internationalists. But a very different picture emerges from this book, as Yan examines the lessons of ancient Chinese political thought for the future of China and the development of a "Beijing consensus" in international relations. Yan, it becomes clear, is neither a communist who believes that economic might is the key to national power, nor a neoconservative who believes that China should rely on military might to get its way. Rather, Yan argues, political leadership is the key to national power, and morality is an essential part of political leadership. Economic and military might are important components of national power, but they are secondary to political leaders who act in accordance with moral norms, and the same holds true in determining the hierarchy of the global order. Providing new insights into the thinking of one of

China's leading foreign policy figures, this book will be essential reading for anyone interested in China's rise or in international relations. In a new preface, Yan reflects on his arguments in light of recent developments in Chinese foreign policy, including the selection of a new leader in 2012.

Could global government be the answer to global poverty and starvation? Cosmopolitan thinkers challenge the widely held belief that we owe more to our co-citizens than to those in other countries. This book offers a moral argument for world government, claiming that not only do we have strong obligations to people elsewhere, but that accountable integration among nation-states will help ensure that all persons can lead a decent life. Cabrera considers both the views of those political philosophers who say we have much stronger obligations to help our co-citizens than foreigners and those cosmopolitans who say our duties are equally strong to each but resist restructuring.

This volume, a product of the first Tricontinental Conference organized by Yeditepe University, Istanbul, brings together perspectives on democracy and development in Africa, the Middle East and Latin America. Representing local voices and insight, the

contributors here respond to the dearth of comparative analysis on these three regions. In spite of the differences observed in colonial practices and postcolonial transitions, a shared disenchantment with the performance of competitive politics comes to the forefront in these geographical areas. Decades after decolonization, low-intensity democracy and the continuing potential for democratic reversals and backsliding make the study of these three regions relevant. Considering the debates on protests, social upheavals, activism, change and continuity, this book encourages the reader to survey the various trials and tribulations of the postcolonial era.

The academic field of Peace Studies emerged during the Cold War to address the nature and sources of interstate and internal conflict and methods to prevent it and deal with its consequences.

Race, Rights, and Justice explores questions of the nature of law and constitutional interpretation, international law and global justice, and the nature, function, and importance of rights each from a perspective that takes seriously the realities of race and racism. After a critical assessment of various contemporary theories of law is provided, a new theory of legal interpretation is set forth and defended. The respective words of Immanuel Kant and H.L.A. Hart on the possibility and desirability of international law are carefully explicated. Following this, Race, Rights, and Justice defends John Rawls' Law of Peoples from the cosmopolitan liberal critique of it. The nature and importance of rights, both individual and collective, are clarified while correcting some political philosophies that have propagated confused rhetoric about rights. And the collective right to humanitarian intervention is investigated philosophically in terms of the recent problems in Colombia, with surprisingly original results. While the methodology of this book is thoroughly analytical, philosophically speaking, some of the conclusions drawn are substantially original, infusing the facts of race and racism into mainstream matters of philosophy of law. "In this collection of essays, J. Angelo Corlett continues his important work of bringing the perspective of indigenous peoples, and more generally of race, into mainstream philosophical debates about justice and rights. Corlett's book also has very valuable insights into the nature of international law that will greatly enrich our contemporary debates." (Larry May, Washington University in St. Louis, USA) "Angelo Corlett is a prolific writer whose work is invariably stimulating, provocative, and insightful. Race, Rights, and Justice is an

analyse and address global environmental problems. Kate O'Neill develops an innovative historical and analytical framework for understanding global environmental issues, integrating insights from different disciplines, and she identifies the main actors and their roles, thereby encouraging readers to engage with the issues and equip themselves with the knowledge they need to apply their own critical insights. Revised and updated, the new edition features new figures, examples, textboxes, and a new chapter on the emergence and politics of market mechanisms as a new mode of global environmental governance. The latest developments in the field, including the December 2015 Paris Climate Agreement, along with new perspectives and recent thinking, are incorporated throughout. This will be invaluable for students of environmental issues both from political science and environmental studies perspectives.

International Relations, 5th Edition
Vikas Publishing House

This book is the first volume in a trilogy that traces the development of the academic subject of International Relations, or what was often referred to in the interwar years as International Studies. This first volume takes on the origins of International Relations, beginning with the League of Nations and the International Studies Conference in Berlin in 1928 and tracing its development through the Paris Peace Conference, the quest for cooperation in the Pacific, the Institute of Pacific Relations and lessons from Copenhagen, Shanghai and Manchuria. This project is an impressive and exhaustive consideration of the evolution of IR and is aptly

published in celebration of the discipline's centenary. This book offers a critical engagement with contemporary IR textbooks via a novel folklorist approach. Two parts of the folklorist approach are developed, addressing story structures via resemblances to two fairy tales, and engaging with the role of authors via framing gestures. The book not only looks at how the idea of 'social science' may persist in textbooks as many assumptions about what it means to study IR, but also at how these assumptions are written into the defining stories textbooks tell and the possibilities for (re)negotiating these stories and the boundaries of the discipline. This book will specifically engage with how the stories in textbooks constrain how it is possible to define IR through its (re)production as a social science discipline. In the first part, story structures are explored via Donkeyskin and Bluebeard stories which the book argues resemble some structures in textbooks that define how it is permissible to tell stories about IR. In the second part the role of authors is explored via their framing gestures within a text, drawing on a number of fairy tales. By approaching the stories in textbooks alongside fairy tales, Starnes reflects back onto IR the disciplining practices in the stories textbooks tell by rendering them unfamiliar. Aiming to spark a critical conversation about the role of textbooks in defining the boundaries of what counts as IR and by

extension the boundaries of the IR canon, this book is of great interest to students and scholars of international relations.

Uluslararası ilişkilerdeki güvenlik kuramları konjonktürel değişimlerle birlikte sürekli gelişmekte ve zenginleşmektedir. Teorik yaklaşımlarla ilgili güncel tartışmalar, disiplinin daha iyi anlaşılabilmesi için önem arz ederken güvenlik yaklaşımlarının ve algılamalarının deyimlerinin de hesaba katılarak bu yaklaşımların ortaya konulması ve vaka analizleri üzerinden uygulaması önemlidir. Günümüzde “güvenlik” kavramı uluslararası ilişkiler disiplini içerisinde çevre veya toplumsal güvenlik ya da cinsiyet gibi farklı güvenlik boyutları ile analiz edilmeye başlanmıştır. Bu kitabın temel hedeflerinden bir tanesi farklı bakış açıları yansıtan kuramsal çerçevelerle “güvenlik” kavramına bakabilmektir.. İçindekiler Önsöz Giriş –

This book examines the key motivations for and challenges to greater regional integration in Southeast Asia. It demonstrates how security and economic concerns -domestic, regional and international - have either contributed to, or detracted from, an increased level of unity and cooperation in ASEAN. It also explores how the patterns of interaction and socialization generated by these issues, together with the nature of domestic political systems, have affected the emergence of common values, norms and interests. It covers the full range of issues confronting ASEAN at present, and the full range of ASEAN countries, and discusses both developments in ASEAN to date and also likely future developments.

The conference "The United States and the World: from Imitation to Challenge" was meant to gather those interested in various aspects of the mutual connections between the United States and the world. It concentrated on the problem of the model of American democracy, the presidential system, American politics, American society, American culture and the world's reflections about them from imitation to challenge. For this, there was an

invitation to scholars from many research fields: political science, philosophy, law, culture studies, economy, and sociology. It was a result of our vision of American Studies as an interdisciplinary effort. And so, thanks to the rich and diverse approaches of the participants, our vision turned out to be true. The effect of the conference is reflected in the contributions that follow in this volume and in the rich, interdisciplinary debate over the American impact on the world, integration in Pax Americana and patterns of integration in other parts of the world, different and/or similar approaches to challenges to international order, and last but not least the issue of continuity and change in politics. Here one also needs to mention the ever-present debate on the American “export” of values: separation of church and state, human rights, the idea of sovereignty, the rule of separation of powers, modern federalism, democratization approaches, Americanism, American Studies dilemmas, American exceptionalism, uniqueness in contemporary American society, and patterns in foreign policy. This book investigates a phenomenon in world politics that is largely overlooked by scholars, namely entities lacking international recognition of their status as independent states. It includes case studies on the Eurasian Quartet, Kosovo, Somaliland, Palestine, Northern Cyprus, Western Sahara and Taiwan.

The traditional assumption holds that the territory of money coincides precisely with the political frontiers of each nation

state: France has the franc, the United Kingdom has the pound, the United States has the dollar. But the disparity between that simple mental landscape and the actual organization of currency spaces has grown in recent years, as territorial boundaries of individual states limit currency circulation less and less. Many currencies are used outside their "home" country for transactions either between nations or within foreign states. In this book, Benjamin J. Cohen asks what this new geography of money reveals about financial and political power. Cohen shows how recent changes in the geography of money challenge state sovereignty. He examines the role of money and the scope of cross-border currency competition in today's world. Drawing on new work in geography and network theory to explain the new spatial organization of monetary relations, Cohen suggests that international relations, political as well as economic, are being dramatically reshaped by the increasing interpenetration of national monetary spaces. This process, he explains, generates tensions and insecurities as well as opportunities for cooperation.

popular sovereignty: should power merely come from, and be exercised in the name of, the people? Or, should those in power be fully accountable to the people? The dilemma warrants a closer look. The present volume comes out of an international conference held in Calcutta, India organised by the Institute of Foreign Policy Studies and the Centre for Pakistan and West Asian Studies, University of Calcutta in March 2013. This volume aims not at a definitive analysis of why what happened did happen; it aims instead at getting a sense of what was actually happening, and what is at issue.

The fifth edition of a bestseller, *Air Quality* provides students with a comprehensive overview of air quality, the science that continues to provide a better understanding of atmospheric chemistry and its effects on public health and the environment, and the regulatory and technological management practices employed in achieving air quality goals. Macau History and Society illuminates the early Portuguese maritime exploration along China's south coast, political and economic development in Macau, and current social problems. The book makes significant contributions to a political sociology of Macau, emphasizing how different civilizations and cultures interacted with one another, and explores how a new Macau identity can be constructed.

Democratization has been a never-ending process in Macau since the 1500's. Macau's experience indicates that sovereignty has been shared rather than exclusive. Although civilizations and cultures do clash, they also cooperate. But the Macau model is

Communication in the broadest sense gains increasing importance in UN peace missions. However, a gap between demand and reality can be observed that points to a multitude of problematic issues. These are taken up by the thesis and it is finally argued: Successful communication strategies need to be aligned to the goals and tasks of the UN mission on all levels in order to be credible; they need to be conflict and context responsive, inclusive and participatory, consider cultural peculiarities and

In the tradition of conflict transformative approaches a framework for analysis and evaluation of communication strategies is built and applied to the UN peace missions in Timor-Leste and Nepal.
