

## Jack Coe

Engeland, 2010. Autofabrieken worden vervangen door inwisselbare winkelketens en in Londen gaan verhitte rellen en demonstraties over in enthousiasme voor de aanstaande Olympische Spelen. In Klein Engeland beschrijft Jonathan Coe, een van de beste chroniqueurs van onze tijd, de levens van een kleurrijke groep personages in een periode van grote veranderingen. Ian en Sophie zijn net getrouwd en hebben ieder een ander idee van de toekomst van hun land en mogelijkserwijs over de toekomst van hun relatie. Doug, een politiek commentator, schrijft gepassioneerde columns over de arm-rijkverhoudingen vanuit zijn onbetaalbare appartement in Chelsea, terwijl zijn dochter juist alles doet om sociale gelijkheid te bevorderen. Benjamin Trotter heeft moeite met zijn middelbare leeftijd en probeert nog één keer iets nieuws in zijn leven. Dit is het verhaal van het moderne Engeland. Een verhaal van nostalgie en verwarring, van teleurstelling en onverholen woede.

God's Generals: Jack CoeWhitaker House

Bill Vincent combines a biblical balance and practical teaching to draw readers into new spiritual levels of relationship with God. Bill has been a prophetic leader for over 20 years. Learn how to integrate prophetic ministry into the life of your church. What is prophecy? Who is to prophesy? How do the prophetic gifts and ministries function in the local church? How can we recognize counterfeit gifts of the Spirit? This book will answer your questions and challenge you to know God and hear from Him as you never have before!

The extremely popular children's book series God's Generals for Kids by Roberts Liardon and Olly Goldenberg bring you volume 10 of their collection focussing on the life of Jack Coe. Jack learned to obey God in every detail of life. He joined the army, because God told him to. He even sold his house and bought a crusade tent to obey God's call on his life. In that tent thousands of people were saved, healed and restored by God. Life was not always easy, but Jack Coe was not afraid. He faced problems head-on, knowing God was with him. His remarkable story will encourage you to the same. If you are a beginner or have been in the prophetic for years, this book is for you. This book starts out with basic principles of the prophetic ministry. You will discover and be encouraged as you read chapter after chapter of Increasing Your Prophetic Gift. It is time for everyone to tap into their prophetic call and dig to a deeper anointing than ever before. At the end of this book you will read and be activated as you hear the personal experiences of a young prophet. Bill started as a simple minister and increased to a powerful prophetic minister. Bill has prophesied to many and has seen hundreds healed and set free through personal prophetic ministry. It is time for you to increase your prophetic gift today. Most modern prejudice against biblical miracle reports depends on David Hume's argument that uniform human

experience precluded miracles. Yet current research shows that human experience is far from uniform. In fact, hundreds of millions of people today claim to have experienced miracles. New Testament scholar Craig Keener argues that it is time to rethink Hume's argument in light of the contemporary evidence available to us. This wide-ranging and meticulously researched two-volume study presents the most thorough current defense of the credibility of the miracle reports in the Gospels and Acts. Drawing on claims from a range of global cultures and taking a multidisciplinary approach to the topic, Keener suggests that many miracle accounts throughout history and from contemporary times are best explained as genuine divine acts, lending credence to the biblical miracle reports.

This revealing, disturbing, and thoroughly researched book exposes a dark side of faith that most Americans do not know exists or have ignored for a long time—religious child maltreatment. After speaking with dozens of victims, perpetrators, and experts, and reviewing a myriad of court cases and studies, the author explains how religious child maltreatment happens. She then takes an in-depth look at the many forms of child maltreatment found in religious contexts, including biblically-prescribed corporal punishment and beliefs about the necessity of "breaking the wills" of children; scaring kids into faith and other types of emotional maltreatment such as spurning, isolating, and withholding love; pedophilic abuse by religious authorities and the failure of religious organizations to support the victims and punish the perpetrators; and religiously-motivated medical neglect in cases of serious health problems. In a concluding chapter, Heimlich raises questions about children's rights and proposes changes in societal attitudes and improved legislation to protect children from harm. While fully acknowledging that religion can be a source of great comfort, strength, and inspiration to many young people, Heimlich makes a compelling case that, regardless of one's religious or secular orientation, maltreatment of children under the cloak of religion can never be justified and should not be tolerated.

Few black groups in the United States carry with them the romance, the gripping history, the pathos, the indestructible spirit of the Coe Ridge colony during the ninety years of its existence. ". . . a new and long needed departure in American historiography. . . . This is in every way an impressive book. It contains detailed accounts of the informants, tables of folklore motifs, genealogical charts, a prologue and epilogue explaining authoritatively the hypotheses of oral traditional history, and handsome photographs of the Coe Ridge area." --Richard M. Dorson, *Journal of American History*.

"Lynwood Montell has written an invaluable book for all those interested in the use of oral tradition as a tool in the reconstruction of history. . . . This is a book worthy of being on any folklorist's shelf." --Richard A. Reuss, *Journal of American Folklore*.

Until now, the resolution of international commercial and investment disputes has been dominated almost exclusively by international arbitration. But that is changing. Whilst they may be complementary mechanisms, international mediation

and conciliation are now coming to the fore. Mediation rules that were in disuse gather momentum, and dispute settlement centres are introducing new mediation rules. The European Union is encouraging international mediation in both the commercial and investment spheres. The 2019 Singapore Mediation Convention of the United Nations Commission on International Trade Law (UNCITRAL) is aiming to ensure enforcement of international commercial settlement agreements resulting from mediation. The first investor-State disputes are mediated under the International Bar Association (IBA) rules. The International Centre for Settlement of Investment Disputes (ICSID)'s conciliation mechanism is resorted to more often than in the past. The International Chamber of Commerce (ICC) has recently administered its first mediation case based on a bilateral investment treaty, and a new training market on mediation is flourishing. Mediation in Commercial and Investment Disputes brings together a line-up of outstanding, highly-qualified experts from academia, mediation and arbitration institutions, and international legal practice, to address this highly topical, complex subject from a variety of angles.

Everything in your Christian life is built on the way you view God's Word. It shapes your relationship with God. It influences your faith. It determines what you will or won't receive from heaven. If Satan can attack God's Word and get you to doubt it, the foundation of your faith will crack. But when you build your life on the unshakable truth of God's Word, all things are possible (Mark 9:23). In the pages of this book, Andrew Wommack invites you to discover the infallibility of the Word of God. The Word's integrity isn't something you accept on "blind" faith. Scripture itself teaches the vital place the Bible must command in your life as a believer.

"... a book about healing revivalists that takes them seriously and treats them fairly." *Journal of Southern History*"... will be a definitive work for some years to come." *Reviews in American History*"Harrell has obviously attended countless rallies, read sheafs of literature, and personally interviewed many of the principals. He... tell[s] the story in a largely biographical format. This makes for lively reading." *Harvey G. Cox, New York Times Book Review*"... will attract readers interested in the reasons behind the various fat and lean periods among revivalists." *Publishers Weekly*"All Things Are Possible is the first book to tell the story of the enterprisers who have personal followings. The narrative is full of surprises: of seriousness and scandal strangely blended. Professor Harrell has done a staggering amount of research in hard to discover sources; his scholarship is impressive and he is eminently fair-minded. Here is a missing link in the chain of American religious movements." *Martin E. Marty, The University of Chicago Divinity School*"Harrells book will doubtless be the definitive work on the subject for a long whilewho else will wade through *Healing Waters* and *Miracle Magazine* with such fastidious care?" *The Kirkus Reviews*This is the first objective history of the great revivals that swept the country after World War II. It tells the story of the victories and defeats of such giants of the revival as William Branham,

Oral Roberts, Jack Coe, T. L. Osborn, A. A. Allen. It also tells of the powerful present day evangelists who are carrying on the revival, including Robert Schambach and Morris Cerullo. The book includes pictures of Schambach, Allen, Cerullo, Branham, Roberts, Osborn, Coe and many others. Those who lived through the great revival of the 1950s and 1960s will be thrilled to read about those exciting days. Those who do not remember those days need to read this book to see what has led us up to this present moment in time. David Edwin Harrell, Jr. is a professor of history at the University of Alabama in Birmingham. He has tried to write this book in an objective way, although you may not agree with all that he says. Dr. Harrell has visited Schambach revivals.

"This book may give you the best opportunity of deciding the truth about me and the ministry I hold so dear." -- Oral Roberts  
"Among several biographies of Oral Roberts, the most recent, most accurate, and best documented is Oral Roberts: An American Life, an objective, impressive study..." -- New York Review of Books  
"Oral Roberts: An American Life is more than the story of a well-known evangelist and educator. It is the story of a part of the American religious life that not many Americans know or understand.... Dr. Harrell has researched thoroughly and written superbly." -- Billy Graham  
"... a first-rate biography, one which should give pause to Roberts' supporters and critics alike.... Roberts' first scholarly biographer has done a beautiful job." -- Allen Boyer, Newsday

B. G. Holcomb was the country's leading radio and television evangelist until a TV expose of a phony healing brought the ministry to its knees. Having lost his wife, his daughter and most of the people he thought were his friends, B. G. spends the next twenty years in self-imposed obscurity until his lifeless body is discovered in a cheap motel room, alone and forgotten. Max Needleman, a freelance writer who cannot forget his own childhood encounter with the former evangelist, happens across a notice about B. G.'s death in the newspaper and is drawn to find out more. A cryptic message scribbled in the margin of a Bible found next to the body makes the detective in charge of the investigation suspect murder in spite of the fact that there is no evidence to suggest that B. G. died of anything other than natural causes. Max manages to find Forrest Taylor, B. G.'s last remaining friend, but while the alcoholic Taylor acts as though he wants to help, it's obvious that he knows things he doesn't want to talk about. It's only after B. G.'s ex-wife shows up that Max and the police find out about Tony Pellerman, the son of B. G.'s ex-partner, who not only has a possible motive but was staying in B. G.'s motel the night of the murder. While the police are rapidly losing interest in the case because of the absence of any hard evidence, Max finds himself more deeply absorbed in spite of his wife's objections and his editor's demands. He not only wants to understand B. G. but Tony, as well, the man B. G. had come to love like a son but who had come to hate B. G. with unrestrained intensity. In the end, B. G.'s death manages to match his life, a mangle of miracles and ambiguities, uniquely satisfying to some, empty and preposterous to others.

This book explores the intricate manifestations of contemporary power, its related ideology, and the "resistance" and reaction to the dominant discourse in Jonathan Coe's political fiction, covering the dismantling of the British social-democratic consensus,

Thatcherism and Blairism, up to the new ideology of "Globalism." Beyond the predictable dichotomy of support-opposition to power, the book argues the modern individual seems to have found another ontological approach, for which it coins the concept of "intentional unpower". Furthermore, it demonstrates that there are three possibilities regarding the evolution of this type of social response, and invites the readers to discover them, while enjoying Coe's subtlety and humour. Given its broad approach, the book will appeal to researchers in a wide range of domains, including literary and cultural studies, political theory, and sociology, as well as any reader fascinated with the essence of power, intellectual response, and discourses containing their own elements of subversion.

The true story of how George, the eleventh child born to Swiss immigrants in the mountains of Colorado grew up, experiencing the rugged life of hunting and fishing for food and the enjoying the care and nurturing of a large and loving family. He was the only one graduating from the eighth grade in Marble, Colorado and finished high school in Glenwood Springs, Colorado. He gained great experience working in a variety of jobs before being drafted into the US Army. He spent two years in the field artillery, much of it in Korea during the Korean War, rising from Private to Sergeant First Class. Using the GI Bill, he graduated from the University of Colorado with a BS Degree in Civil Engineering. He spent 38 years in key engineering positions with the California Department of Water Resources, the US Section, International Boundary and Water Commission, the State Water Contractors and the World Bank. He is a registered Professional Civil Engineer in California and Texas. He is now retired in McKinney, Texas. Obedient Faith Jack Coe learned to obey God in every detail of life. He joined the army, because God told him to. He even sold his house and bought a crusade tent to obey God's call on his life. In that tent thousands of people were saved, healed and restored by God. Life was not always easy, but Jack Coe was not afraid. He faced problems head-on, knowing God was with him. His remarkable story will encourage you to do the same.

Can science, psychology, and biology explain miracles? This work explores this subject. It examines "miracles" of body, mind, and spirit, presenting the research and writing on these uncommon events.

This initial volume collects and thoroughly indexes selected primary documents essential to a full understanding of the adjudications contained in subsequent volumes. It is designed to be a convenient, stand-alone reference valuable in connection with investor-state arbitrations of all kinds. Among the documents compiled are treaties, arbitration rules, and other legal texts relied upon by arbitrators and parties. The work orders the documents in a logical, user-friendly manner, and includes a detailed index and a full bibliography.

This volume combines three best-selling books—The Invading Force, A Call to Action, and Run to the Battle—in their original form but updated for today's reader. The prophetic message they bring is just as powerful and relevant today as it was when author Roberts Liardon first spoke it. "When you invade, do not have second thoughts and retreat—just invade. You are in it to the death—not your death, but the devil's death! Your attitude needs to be, I am going to win, or I am going to die fighting." The Holy Spirit is bringing revival to the church, and the church is rising up in a fresh anointing, a holy faith, and a Spirit-led zeal to win the lost as never before. If you are a believer who is serious about fulfilling God's call on your life and taking this world for Jesus Christ, the truths in this new edition will transform you into a powerful soldier in God's army. These three books in one provide the vital information and wisdom you need to hear God's voice and Run to the Battle!

In the present volume James Robinson completes his trilogy, which deals with the history of divine healing in the period 1906-1930. The first volume is a study of the years 1830-1890, and was hailed as "a standard reference for years to come." The second book covers the years 1890-1906, and was acclaimed as "a monumental achievement" that combines "careful historical scholarship and a high degree of accessibility." This volume completes the study up to the early 1930s and, like the other two works, has a transatlantic frame of reference. Though the book gives prominence to the theology and practice of divine healing in early Pentecostalism, it also discusses two other models of healing, the therapeutic and sacramental, promoted within sections of British and American Anglicanism. Some otherwise rigorous Fundamentalists were also prepared to practice divine healing. The text contributes more widely to medical and sociocultural histories, exemplified in the rise of psychotherapy and the cultural shift referred to as the Jazz Age of the 1920s. The book concludes by discussing the major role that divine healing plays in the present rapid growth of global Christianity.

Who is God? Are angels and demons real? Does God care how you live your life? Are the promises of the Bible really true? Lester Sumrall, a world-renowned pastor and evangelist, offers straightforward answers to these burning questions of life. The spiritual realm is all around us, and more things count on spiritual battles than we realize. Sumrall will give you examples of his encounters with angels, demons, and the living God that will convince you that there's more to this world than what you can experience through your senses. God is also concerned with earthly matters-how you live your day-to-day life. Sumrall will show you God's concern and perfect plan for many aspects of your life. Are you ready for God to be revealed to you?

Roberts Liardon chronicles the lives and legacies of men and women who were empowered by the Holy Spirit to bring worldwide revivals. Miracle Workers, Reformers and the New Mystics contains more than 70 photos, illustrations, and biographies of men and women whose lives have demonstrated the phenomenal throughout the ages. Let their stories inspire you to join their ranks as part of this coming revival generation.

Students, scholars, and libraries will all benefit from it.

This practical handbook of the principles & procedures of international commercial arbitration gains in usefulness & prestige each year. Emphasizing the features of American law that pervade international practice in this field, it is of inestimable value to practitioners both in & outside the United States. Introductory chapters on the international business environment & alternative dispute settlement methods apart

from arbitration are followed by a general presentation of common themes in international commercial arbitration. The author then provides an introduction to the American system for the foreign reader. Further chapters cover the arbitration agreement & its enforcement, drafting considerations for the arbitral clause, a survey of arbitral institutions, judicial assistance for arbitration, aspects of arbitral proceedings, & the powers & functions of the arbitral tribunal. Matters relating to the award are also covered, & a final chapter deals with the particular situation of the State as a party to arbitration.

In the course of a single investor-state dispute, an arbitrator may make numerous decisions, from interpreting the treaty or national laws to taking into account case law, customs and policies. In practice, this process raises important issues regarding the consistency of decisions and the predictability and legitimacy of the decision-making process in general. Investment arbitration tribunals have developed a specialised process of legal decision making adapted to the interpretational needs that arise in the context of an investor-state dispute and to the transnational characteristics of the investment arbitration framework. This is the first book to offer an in-depth analysis of the transnational characteristics of investment arbitration and to analyse the interpretive arguments of investment tribunals and the way they use treaties, precedent, policies, general principles of law and customary law in their decision-making process. Drawing on publicly available arbitral case law supplemented with personal interviews with investment arbitrators, the author touches on such concepts and practices as the following: - an overview of various decision-making genres of arbitral tribunals: attitudinal, economic, strategic and legal; - the legal argumentation triptych of language—rhetoric—dialogue; - the specific language arbitrators have developed when interpreting the law; - how arbitrators use the concepts 'standards', 'rules', 'principles' and 'rights'; - the importance of the legal reasoning of arbitral awards and the role of rhetoric therein; - concepts of 'acceptability', 'audience' and 'legitimacy'; - limitations of the public international law interpretive methodology enshrined in the Vienna Convention; - interpretation of precedents, customary law, general principles of law and policies; - the way national and international legal orders interact in the context of interpretation; and - how decision-making is connected to the issues of predictability, consistency and the rule of law. The core of the book proposes a novel, full- edged dialogical network theory for analysing the interpretation process. As an exemplary demonstration of developing theory to keep up with practice, this unique book provides a deeply engaged means for enhancing the practice of international arbitration. Its introduction of a new field of interdisciplinary analysis employing legal argumentation theories is sure to provide inestimable guidance for institutions and policymakers, especially in light of recent proposals for the creation of a permanent investment arbitration court. Given that unveiling the legal decision-making process is critical for the well-being of the whole dispute resolution procedure, and that being aware of how arbitrators interpret the law can constitute a roadmap for counsel's arguments and approaches when dealing with cross-border disputes, the topic of this book is relevant for both academics and practitioners, and its significance can only grow as recourse to investor-state arbitration continues to expand.

Jack Coe, Jr. examines biblical faith principles while exploring how they can be integrated into our lives on a daily basis.
