In *Sea Birds*, events that seem to be totally unrelated gradually draw several lives together in the tropical paradise of the U.S. Virgin Islands. *Sea Birds* describes in a series of stories how the personal relationships of the people involved develop. Even in paradise, there is crime, greed, love, hate, and passion leading to an ultimate new beginning. Anjanette was abandoned as a child of mixed heritage. She now, as an adult, operates the Arawak Eco-Camp with the goal of preserving the Caribbean land where it is located and providing educational opportunities for those interested in learning about the Virgin Islands land and the sea around them. Nog altijd even opwindend en tot nadenken stemmend als toen het in 1954 verscheen, schept 'Heer van de vliegen' een gewelddadig, treffend beeld van de menselijke natuur, en wat er met deze gebeurt als de beschaving ten onder gaat. Een groep schooljongens stort neer op een onbewoond eiland. Zonder ouders of ander volwassen toezicht moeten ze met elkaar samenwerken om te overleven, waar ze jammerlijk in falen. Hun strijd om het bestaan krijgt geleidelijk steeds meer barbaarse trekken. Heer van de vliegen werd bij verschijning met lof overladen, maar commercieel succes bleef in eerste instantie uit. Geleidelijk aan werd het echter een cult-favoriet onder studenten en critici, en werd het vaak vergeleken met Salingers *De vanger in het graan* wat betreft invloed op de moderne literatuur.

This book was written in honour of Professor Kalyan K. Sanyal, who was an excellent educator and renowned scholar in the field of international economics. One of his research papers co-authored with Ronald Jones, entitled "The Theory of Trade in Middle Products" and published in American Economic Review in 1982, was a seminal work in the field of international trade theory. This paper would go on to inspire many subsequent significant works by researchers across the globe on trade in intermediate goods. The larger impact of any paper, beyond the number of citations, lies in terms of the passion it sparks among younger researchers to pursue new questions. Measured by this yardstick, Sanyal's contribution in trade theory will undoubtedly be regarded as historic. After completing his Ph.D. at the University of Rochester he joined the Department of Economics at Calcutta University in the early 1980s and taught trade theory there for almost three decades. His insights, articulation and brilliance in teaching international economics have influenced and shaped the intellectual development of many of his students. After his sudden passing in February 2012, his students and colleagues organized a symposium in his honour at the Department of Economics, Jadavpur University from April 19 to 20, 2012. This book, a small tribute to his intellect and contribution, has been a follow-up on that endeavour, and a collective effort of many people including his teachers, friends, colleagues and students. In a nutshell it discusses intermediation of various kinds with significant implications for market integration through trade and finance. That trade can generate many non-trade-service sector links has recently emerged as a topic of growing concern and can trace its lineage back to the idea of the middle product, a recurring concept in Prof. Sanyal's work.

As an intensely practical religion, Buddhism has concentrated on devising a great number of meditations. In recent years psychologists have shown great interest in the therapeutic value of these meditations, but accurate information about them has been hard to come by. The most outstanding original documents have now been made accessible by Edward Conze, who translated them from Pali, Sanskrit and Tibetan. The volume, originally published in 1956, also deals with the meaning of Buddhist meditation, and the relation of its methods and presuppositions to modern psychology.
