Instructors consistently ask for a Human Biology textbook that helps students understand the main themes of biology through the lens of the human body. Mader's Human Biology, 15th Edition accomplishes the goal of improving scientific literacy, while establishing a foundation of knowledge in human biology and physiology. The text integrates a tested, traditional learning system with modern digital and pedagogical approaches designed to stimulate and engage today's student. Dr. Michael Windelspecht represents the new generation of digital authors. Through the integration of an array of multimedia resources, Michael has committed to delivering the tried-and-true content of the Mader series to the new generation of digital learners. A veteran of the online, hybrid, and traditional teaching environments, Michael is well-versed in the challenges facing the modern student and educator. Michael personally guided and oversaw all aspects of Connect and LearnSmart content accompany Human Biology, 15th Edition.

The Laboratory Manual to accompany Sylvia Mader's Essentials of Biology reflects all of the exceptional features of the Essentials of Biology text. Instructors appreciate the refined exercises that are so numerous you won't need to look anywhere else for student activities. Author Sylvia Mader's writing in the laboratory manual, just as in the text, emphasizes clarity, with carefully worded study questions that are direct in their intent and purpose. The lab manual's accessible writing accompanies unparalleled illustrations to provide students with clear exercises and questions. The visuals have been updated to be even easier for students--both majors and non-majors--to comprehend. The dramatic illustrations and photographs not only help students understand concepts and process, but also give them an appreciation for the beauty of organisms and biological structure. McGraw-Hill's Biology Digitized Video Clips on the accompanying DVD will capture students' interest while illustrating key biological concepts and processes.

Dr. Sylvia Mader's succinct, precise writing style. Sylvia's writing is what has earned her a reputation as one of the most successful introductory biology textbook authors ever, and it is the most compelling feature of this text. Updated Boxed Readings Throughout --Human Biology features three different types of boxed readings. These readings have been thoroughly updated by Dr. Mader, as well as experts in the field, throughout the book to remain current. A complete set of chapter learning aids includes a listing of chapter concepts, brief concept summaries within the chapter, boldface key terms, summary, and objective questions. Students value tools within the text that help them grasp the concepts.

Customize this book through Primis Online! This title is tentatively planned to be part of the Primis Online Database: www.mhhe.com/primis/online Benefit : Professors can customize this book to meet their exact needs and mix and match with other items on Primis Online--allowing them maximum choice and flexibility. The homeostasis sections at the end of specific chapters and the accompanying homeostasis illustrations, have been revised for greater clarity and explain in depth how the body systems work together to maintain homeostasis. The laboratory exercise in this manual are coordinated with Human Biology, a general biology text that covers the entire field of biology. The text emphasizes how we can apply biological knowledge to our own lives and to our relationships with other organisms.

Essentials of Biology is an introductory biology text for non-major students that combines Dr. Sylvia Mader's superb and accessible writing style with clear visuals, a comprehensive learning system, and abundant applications and relevancy. Essentials of Biology explains the principles of biology clearly and illustrates them in a captivating, easy-to-understand manner. It emphasizes the relevance of biology to students' lives within a framework of biodiversity and is organized around the major concepts of biology—cells theory, gene theory, evolution, the theory of homeostasis, and ecosystems. The integration of text and the digital world are now complete with the addition of Dr. Michael's Windelspecht's expertise in the development of digital learning assets. Dr Windelspecht has acted is the leading architect in the design of the Mader media content for McGraw-Hill's ConnectPlus and LearnSmart. ConnectPlus suite of learning tools. These assets will allow you to easily design interactive tutorial materials, enhance presentations in both the online and traditional environments, and assess the learning objectives and outcomes of your course. THE MADER/WINDELSPECHT STORY... The twelfth edition of Biology is a traditional, comprehensive introductory biology textbook, with coverage from Cell Structure and Function to the Conservation of Biodiversity. The book, which centers on the evolution and diversity of organisms, is appropriate for any one- or two-semester biology course. Biology, 12th Edition is the epitome of Sylvia Mader's expertise. Its concise, precise writing-style employs lucid language to present the material as succinctly as possible, enabling students—even non-majors—to master the foundational concepts before coming to class. “Before You Begin”, “Following the Themes”, and “Thematic Feature Readings” piece together the three major themes of the text—evolution, nature of science, and biological systems. Students are consistently engaged in these themes, revealing the interconnectedness of the major topics in biology. Sylvia Mader typifies an icon of science education. Her dedication to her students, coupled with her clear, concise writing-style has benefited the education of thousands of students over the past three decades. The integration of the text and digital world has been achieved with the addition of Dr. Michael Windelspecht's facility for the development of digital learning assets. For over ten years, Michael served as the Introductory Biology Coordinator at Appalachian State University—a program that enrolls over 4,500 non-science majors annually. Michael is the lead architect in the design of McGraw-Hill's Connect Plus and LearnSmart media content for the Mader series. These assets allow instructors to easily design interactive tutorial materials, enhance presentations in both online and traditional environments, and assess the learning objectives and outcomes of the course.
