

Licensure Examination For Agriculture Reviewer

As technology continues to saturate modern society, agriculture has started to adopt digital computing and data-driven innovations. This emergence of "smart" farming has led to various advancements in the field, including autonomous equipment and the collection of climate, livestock, and plant data. As connectivity and data management continue to revolutionize the farming industry, empirical research is a necessity for understanding these technological developments. Artificial Intelligence and IoT-Based Technologies for Sustainable Farming and Smart Agriculture provides emerging research exploring the theoretical and practical aspects of critical technological solutions within the farming industry. Featuring coverage on a broad range of topics such as crop monitoring, precision livestock farming, and agronomic data processing, this book is ideally designed for farmers, agriculturalists, product managers, farm holders, manufacturers, equipment suppliers, industrialists, governmental professionals, researchers, academicians, and students seeking current research on technological applications within agriculture and farming.

"FAO review on development" (varies).

Natural Resources Conservation and Advances for Sustainability addresses the latest challenges associated with the management and conservation of natural resources. It presents interdisciplinary approaches to promote advances in solving these challenges. By examining what has already been done and analyzing it in the context of what still needs to be done, particularly in the context of latest technologies and sustainability, the book helps to identify ideal methods for natural resource management and conservation. Each chapter begins with a graphical abstract and presents complicated or detailed content in the form of figures or tables. In addition, the book compares the latest techniques with conventional techniques and troubleshoots conventional methods with modifications, making it a practical resource for researchers in environmental science and natural resource management. Discusses the pros and cons of past and current endeavors related to natural resource management Presents recent technologies and methods for management and conservation, particularly with applications for sustainability Covers a variety of disciplines, from environmental science to life science Includes a graphical abstract as well as a section on significant achievements in the field and future perspectives

Naakte lunch verscheen in 1959 in Parijs bij Olympia Press (die ook Henry Miller publiceerden) onder de titel *The Naked Lunch*, waarbij het lidwoord werd toegevoegd door de Parijse redacteur. In 1962 verscheen het bij Grove Press onder de titel *Naked Lunch in Amerika*. Naakte lunch is een roman die, zoals het een baanbrekend boek betaamt, het begin (en eind) van een tijdperk is, en de grenzen van de fictie verlegt. Het centrale verhaal van Naakte lunch is dat van de drugsverslaafde William Lee, die in narcotische staat pendelt tussen New York, Tanger en een nachtmerrieachtig landschap dat Interzone wordt genoemd. Deze uitgave bevat niet eerder gepubliceerde essays van Burroughs over de roman, en een appendix die ruim twintig procent met nieuw materiaal bevat.

Een warme, herkenbare roman over vriendschap en boeken Nicole, Harriet, Clare, Susan en Polly komen één keer per jaar samen om een boek te bespreken. En zodra ze het boek van de maand dichtslaan beginnen hun eigen verhalen. De vijf vrouwen zijn zo verschillend als de boeken die ze lezen. Nicole heeft schatten van kinderen en een geweldige man die helaas wel heel veel overwerkt. Harriet twijfelt of ze nog wel van haar perfecte man houdt. Polly's jonge dochter is ongewenst zwanger geraakt. Clare moet na talloze mislukte pogingen om zwanger te worden accepteren dat ze kinderloos zal blijven. En Susan voelt zich schuldig dat ze haar dementerende moeder in een verpleeghuis heeft ondergebracht. Elizabeth Noble woont in New York met haar man en twee dochters. Ze schreef nog drie andere romans, waaronder *Wat ik mijn dochters nog wil vertellen* en *Het weekend ABC*.

Economic growth is a key issue both in economic policy making and in economic research. In eastern nations of the world, the interest in economic growth has been in the centrestage in view of the persistently high rates of unemployment and resurgence of recessionary pressures on these economies due to spillover effects from other developed economies undergoing recessionary phases. Entrepreneurial activities not only open up new doorways of income generation for individuals residing in the economy but is also looked upon now as panacea to treat unemployment by most governments, provided such ventures turn out to be revenue generating for the entrepreneur after all the risk he is willing to undertake. Entrepreneurship contributes to the development of innovative technologies, processes as well as business systems which in turn influences the prevailing market structures in the economy disrupting the competition existing in the markets. Nonetheless it bound to impact the capital formation in the economy and thus the growth of the economy. The inter relations between credit extension by commercial banks, entrepreneurship and economic growth are investigated in this paper empirically using autoregressive models.

This book shows how the use of biodegradable plastics in agriculture can have a profound positive impact on plasticulture. Starting with an organic chemistry approach to biodegradable and compostable plastics, both natural and synthetic, it then analyzes the technological and agronomic aspects of existing bioplastics for protected cultivation (mulching, direct cover, low tunnels). It describes the new sprayable biodegradable mulching method, which is based on the use of waterborne polysaccharides and cellulosic fibers. A further chapter describes the research and technology of biodegradable plastics for different agricultural practices. It also includes chapters on life cycle assessment (LCA) of biodegradable plastics for agriculture, and existing and developing standards in the field. It is a valuable resource for agronomists, chemical and materials engineers, polymer technologists and scientists, as well as for a more general readership interested in the application of green chemistry principles to the vast world of crop production. Mario Malinconico is Research Director at the Institute of Polymers, Composites and Biomaterials, National Research Council, Italy. /p

Fictieve biografie waarin weinig over de hoofdpersoon bekend wordt doordat de verteller de chronologie op zijn kop zet, voortdurend op komische wijze uitwijdt en goochelt met typografie en hoofdstukindeling.

Het is de laatste week van november 1327 in een welvarende abdij in het noorden van Italië. Broeder William Baskerville, een geleerde franciscaner monnik uit Engeland, komt als speciaal gezant van de keizer met een delicate diplomatieke opdracht naar Italië. Hij moet een ontmoeting organiseren tussen de van ketterij verdachte franciscanen en afgevaardigden van de paus. Al spoedig ontwikkelt zijn verblijf in de abdij zich echter tot een tijd vol apocalyptische verschrikkingen: zeven dagen en nachten zijn William en zijn metgezel Adson getuige van de wonderbaarlijkste en voor een abdij hoogst zonderlinge gebeurtenissen. Er worden zeven geheimzinnige misdaden gepleegd, die de muren van de ontoegankelijke, labyrintvormige bibliotheek met bloed besmeuren. Angstige geruchten gaan door de abdij; niet alleen de abt heeft iets te verbergen, overal worden sporen uitgewist. William, een voormalig inquisiteur, wordt door de onderzoekskoorts bevangen. De ontmaskering van de moordenaar gaat hem veel meer in beslag nemen dan de strijd tussen de keizer en de paus. Hij verzamelt aanwijzingen en ontcijfert manuscripten in geheimtaal. Steeds dieper dringt hij door tot de geheimen van de abdij. Het valt niet mee deze roman te benoemen. Is het een middeleeuwse kroniek, een detective, een ideologische sleutelroman of een allegorie? Wie één oog dichtknijpt en in het boek kijkt als in een ver verwijderde spiegel, zal in ieder geval gemakkelijk de monnikskappen en kardinaalsmijters uit de dagen van William verwarren met de moderne tekens van macht. Umberto Eco (1932) is een van de grootste schrijvers en denkers van deze tijd. Hij is beroemd geworden door zijn grote romans *De naam van de roos*, *De slinger van Foucault*, *Het eiland van de vorige dag*, *Baudolino* en *De mysterieuze vlam van koningin Loana*. Ook schreef hij *De geschiedenis van de lelijkheid* en *De betovering van lijsten*. 'Het bewijs dat een bestseller toch van superieure kwaliteit kan zijn.' *Vrij Nederland* 'Een roman zó vol fantasie en eruditie, als er weinige bestaan.' Elsevier 'virtuoos divertissement' *NRC Handelsblad*

In de letterkunde vertegenwoordigt de figuur Don Juan het idee van de ultieme vrouwenverleider, maar in Lord Byrons satirische epos zijn de

rollen omgedraaid: de onschuldige titelheld laat zich verleiden door een reeks vrouwen. De Britse dichter begon in de zomer van 1818 in Venetië aan het werk en een jaar later werden de eerste twee canto's anoniem in Londen gepubliceerd. De inhoud werd als immoreel beschouwd, en misschien juist daarom werd het gedicht ongekend populair. Byron noemde het zelf een 'epische vertelling' zonder een strakke verhaallijn. In navolging van de door hem bewonderde klassieken beloofde hij wel dat er liefde, oorlog en een storm op zee in zouden voorkomen. Tegenwoordig wordt het als zijn meesterwerk beschouwd.

Navertelling van verhalen over Koning Arthur en de ridders van de Ronde Tafel. Vanaf ca. 9 jaar.

Self-Study Mode Ten Sample Question Papers covering important concepts from an examination perspective (1-5 solved and 1-5 for Self-Assessment) Exam Preparatory Material Answers from the CBSE Marking Scheme up to March 2020 Exam with detailed explanations as per the word limit to score full marks in exam. Answering Tips & Commonly Made Errors for clearer thinking. All-in-One On tips notes, Mind Maps & Grammar charts facilitate quick revision of chapters NCERT & Oswaal 150+ concept videos for digital learning. Latest CBSE Curriculum Strictly based on the latest & reduced CBSE for Academic Year 2020-2021, for class 10th following the latest NCERT Textbook. Latest Typology OF Questions Objective Type Questions & latest Visual Case Study based Questions included as per the latest design of the question paper 2020 issued by CBSE on 9th October 2020. Most Likely Questions 'Most likely questions' generated by our editorial Board with 100+ years of teaching experience.

The application of mathematical concepts has proven to be beneficial within a number of different industries. In particular, these concepts have created significant developments in the engineering field. Mathematical Concepts and Applications in Mechanical Engineering and Mechatronics is an authoritative reference source for the latest scholarly research on the use of applied mathematics to enhance the current trends and productivity in mechanical engineering. Highlighting theoretical foundations, real-world cases, and future directions, this book is ideally designed for researchers, practitioners, professionals, and students of mechatronics and mechanical engineering.

Includes Practice Test Questions CSP Comprehensive Practice Exam Secrets helps you ace the Certified Safety Professional Exam, without weeks and months of endless studying. Our comprehensive CSP Comprehensive Practice Exam Secrets study guide is written by our exam experts, who painstakingly researched every topic and concept that you need to know to ace your test. Our original research reveals specific weaknesses that you can exploit to increase your exam score more than you've ever imagined. CSP Comprehensive Practice Exam Secrets includes: The 5 Secret Keys to CSP Exam Success: Time is Your Greatest Enemy, Guessing is Not Guesswork, Practice Smarter, Not Harder, Prepare, Don't Procrastinate, Test Yourself; A comprehensive General Strategy review including: Make Predictions, Answer the Question, Benchmark, Valid Information, Avoid Fact Traps, Milk the Question, The Trap of Familiarity, Eliminate Answers, Tough Questions, Brainstorm, Read Carefully, Face Value, Prefixes, Hedge Phrases, Switchback Words, New Information, Time Management, Contextual Clues, Don't Panic, Pace Yourself, Answer Selection, Check Your Work, Beware of Directly Quoted Answers, Slang, Extreme Statements, Answer Choice Families; Comprehensive sections including: Hazardous Materials Spill, Storage of Hazardous Materials, NHTSA, Occupational Safety and Health Agency (OSHA), Heinrich's Pyramid Theory, William Haddon's Energy Theory, Safety Audit, Classes of Hazards, United States Code (USC), Department of Agriculture, NIST, Department of Health and Human Services, NIOSH, Bureau of Labor Statistics, Federal Emergency Management Agency (FEMA), Environmental Problems, Product Life Cycle, Fault Tree Analysis, Ventilation, Combustible Liquids, Tripping Hazards, Sound, Facility Development Process, Scattergram, Spearman Correlation Coefficient, Multiple Factor Theory, Privity, Risk, Training and Procedures, and much more...

Hoe belandt een doodgewoon meisje uit een nette buurt in Melbourne in de wereld van prostitutie en drugs? In de verbluffende autobiografie 'Onder mijn huid' vertelt Kate Holden openhartig over hoe ze veranderde van uitmuntende kunstgeschiedenis student tot een verloren meisje in de greep van heroïne, schimmige figuren en de seksindustrie. Ondanks alles wat Kate heeft meegemaakt, weet ze haar verhaal zonder enige schaamte en met een goede dosis humor en relativering te beschrijven. Hoe heeft de jonge, afgedwaalde Kate haar leven weer in het gareel gekregen? De Australische Kate Holden (1972) heeft met haar autobiografie 'Onder mijn huid' haar naam op de internationale kaart gezet als talentvolle debuutschrijver. Haar boek omvat een unieke vertelling over hoe ze als nette student in de schimmige wereld van seks en drugs in Melbourne belandde. Naast de dramatische gebeurtenissen is het haar gelukt om een literair meesterwerk te schrijven waarin ze haar memoires op een persoonlijke en soms humoristische manier met de wereld deelt. Intussen is haar boek in elf landen verschenen en heeft ze drie internationale reizen achter de rug om haar unieke verhaal te vertellen, en met succes. 'Onder mijn huid' is genomineerd voor meerdere prijzen, waaronder beste debuut in 2005 en beste Australische bestseller in 2006. Haar schrijfcarrière nam een plotse vogelvlucht, en geeft haar een hoopvolle toekomst.

Advances in Remediation Techniques for Polluted Soils and Groundwater focuses on the thematic areas for assessment, mitigation, and management of polluted sites. This book covers advances in modelling approaches, including Machine Learning (ML)/ Artificial Intelligence (AI) applications; GIS and remote sensing; sensors; impacts of climate change on geogenic contaminants; and socio-economic impacts in the poor rural and urban areas, which are lacking in a more comprehensive manner in the previous titles. This book encompasses updated information as well as future directions for researchers working in the field of management and remediation of polluted sites. Introduces fate and transport of multi-pollutants under varying subsurface conditions Details underlying mechanisms of biodegradation and biotransformation of geogenic, industrial and emerging pollutants Presents recent advances and challenges in assessment, water quality modeling, uncertainty, and water supply management Provides authoritative contributions on the diverse aspects of management and remediation from leading experts around the world Unleash the power of cloud computing using Azure, AWS and Apache HadoopKey features Provides a sound understanding of the Cloud computing concepts, architecture and its applications Explores the practical benefits of Cloud computing services and deployment models in details Cloud Computing Architecture, Cloud Computing Life Cycle (CCLC), Load balancing approach, Mobile Cloud Computing (MCC), Google App Engine (GAE) Virtualization and Service-Oriented Architecture (SOA) Cloud Computing applications - Google Apps, Dropbox Cloud and Apple iCloud and its uses in various sectors - Education, Healthcare, Politics, Business, and Agriculture Cloud Computing platforms - Microsoft Azure, Amazon Web Services (AWS), Open Nebula, Eucalyptus, Open Stack, Nimbus and The Apache Hadoop Architecture Adoption of Cloud Computing technology and strategies for migration to the cloud Cloud computing adoption case studies - Sub-Saharan Africa and India Chapter-wise Questions with Summary and Examination Model Question papers Description With the advent of internet, there is a complete paradigm shift in the manner we comprehend computing. Need to enable ubiquity, convenient and on-demand access to resources in highly scalable and resilient environments that can be remotely accessed, gave birth to the concept of Cloud computing. The acceptance is so rapid that the notion influences sophisticated innovations in academia, industry and research world-wide and hereby change

the landscape of information technology as we thought of. Through this book, the authors tried to incorporate core principles and basic notion of cloud computing in a step-by-step manner and tried to emphasize on key concepts for clear and thorough insight into the subject. This book begins with the fundamentals of cloud computing, its service and deployment models, architecture, as well as applications and platforms. It presents some key enterprise strategies and models for the adoption of and migration to cloud. Privacy and security issues and challenges also form a major part of our discussion in the book as well as case studies of cloud computing adoption in Sub-Saharan Africa and India. The book concludes with a discussion of several advanced topics, such as Amazon Web Services (AWS), Open Nebula, Microsoft Azure, Apache Hadoop and Google App Engine (GAE). What will you learn

Learn about the Importance of Cloud Computing in Current Digital Era Understand the Core concepts and Principles of Cloud Computing with practical benefits Learn about the Cloud Deployment models and Services Discover how Cloud Computing Architecture works Learn about the Load balancing approach and Mobile Cloud Computing (MCC) Learn about the Virtualization and Service-Oriented Architecture (SOA) concepts Learn about the various Cloud Computing applications, Platforms and Security concepts Understand the adoption Cloud Computing technology and strategies for migration to the cloud Case Studies for Cloud computing adoption - Sub-Saharan Africa and India Who this book is for This book is intended for students of B.E., B.Tech., B.Sc., M.Sc., M.E., and M.Tech. as a text book. The content is designed keeping in mind the bench marked curriculum of various universities (both National and International). The book covers not only the technical details of how cloud works but also exhibits the strategy, technical design, and in-depth knowledge required to migrate existing applications to the cloud. Therefore, it makes it relevant for the beginners who wants to learn cloud computing right from the foundation. Aspiring Cloud Computing Researchers Instructors, Academicians and Professionals, if they are familiar with cloud, can use this book to learn various open source cloud computing tools, applications, technologies. They will also get a flavor of various international certification exams available. Table of contents

1. Foundation of Cloud Computing
2. Cloud Services and Deployment Models
3. Cloud Computing Architecture
4. Virtualization Technology
5. Service Oriented Architecture
6. Cloud Security and Privacy
7. Cloud Computing Applications
8. Cloud Computing Technologies, Platform and Services
9. Adoption of Cloud Computing
10. Model Paper 1
11. Model Paper 2
12. Model Paper 3
13. Model Paper 4

About the author Kamal Kant Hiran is working as Associate Professor & Head IT in the BlueCrest University College, Liberia, West Africa as well as Research Fellow, Aalborg University, Copenhagen, Denmark. He has rich experience of 14+ years as an academician and researcher in Asia, Africa and Europe. His research interests include Cloud Computing adoption theories and framework, Internet of Things (IoT) and Digital Image and Video Processing. He has several awards on his credit such as International travel grant for Germany from ITS Europe, Gold Medal Award in M. Tech (ICT), IEEE Ghana Section Award, IEEE Senior Member Recognition, IEEE Student branch award and Best Research paper award from the University of Gondar, Ethiopia. He has published research papers in peer-reviewed international journals and conferences. He is Reviewer and Editorial board member of various reputed International Journals in Elsevier, Springer, IEEE, Bentham Science, IGI Global, IJSET, IJTEE, IJSTR and IJERT. He is the active member in organizing many international seminars, workshops and conferences in India, Ghana, Liberia, Denmark, Jordan and Ethiopia. His website: <http://www.kamalhiran.in/> His LinkedIn profile: <https://www.linkedin.com/in/kamal-kant-hiran-4553b643/>

Ruchi Doshi is having more than 10 years of academic, research and software development experience in Asia and Africa. She is working as Registrar in the BlueCrest University College, Liberia, West Africa an also worked with BlueCrest University College, Ghana; Amity University, India & Trimax IT Infrastructure & Services as software engineer. She is interested in the field of Cloud computing, Computer vision, Artificial Intelligence and latest technology used in the higher education. She has published research papers in peer-reviewed international journals and conferences. She is Reviewer, Advisor, Ambassador & Editorial board member of various reputed International Journals and Conferences such as MIR Labs, USA, IEEE W4S, IJCS and IJERT. She is the active member in organizing many international events in India, Ghana, and Liberia. Her LinkedIn profile: <https://www.linkedin.com/in/ruchi-doshi-96bb63b4/>

Dr. Fagbola Temitayo is currently a Post-Doctoral Fellow (PDF) at Durban University of Technology, South Africa and an Assistant Professor in the Department of Computer Science, Federal University, Oye-Ekiti, Nigeria with over 10 years of proven teaching and research experience. He bagged a Ph.D., M.Sc and B.Tech degrees in Computer Science with strong research interests in cloud computing ecosystem, deep learning, computational intelligence, social media big-data analytics, information security, decision support system and video processing. Dr Fagbola is a member of the South African Institute of Computer Scientists and Information Technologists (SAICSIT), Asian Council of Science Editors (ACSE), Machine Intelligence Institute of Africa (MIIA), Computer Professionals (Registration Council) of Nigeria (CPN), the International Association of Engineers (IAENG) and DataHack4FI in Africa. He has over 50 refereed publications in referred international journals and conference proceedings to his credit and currently serves as a reviewer for over 15 reputable international journals. He is also a recipient of the ACM FAT's grant in November 2018. His LinkedIn profile: <https://www.linkedin.com/in/temitayo-fagbola-5941a2169/>

Mehul Mahrishi is currently working as an Associate Professor in the Faculty of Computer Science & Engineering at the Swami Keshvanand Institute of Technology, Management and Gramothan, Jaipur, India. He is a life member of International Association of Engineers and has published several research articles in National/International Journals, Conferences including Global Journals, ICCCTAM-Dubai, ICMLC-Singapore, IACC and chapters in books. He is also an active technical reviewer of Journal of Parallel and Distributed Computing (SCI & Scopus-Elsevier). His research activities are currently twofold: while the first research activity is set to explore the developmental enhancements video processing and analysis; the second major research theme is focused on the emerging capabilities of cloud computing. Mr. Mahrishi is rewarded at number of occasions in various domains including Recognition as an active reviewer by Journal of Parallel and Distributed Computing (JPDC, Elsevier, SCI & Scopus Indexed), IEEE continuing education certification for "e;Cloud Computing Enable Technologies and Recognition for outstanding performance in Campus Connect Program by Infosys, India. His LinkedIn profile: <https://www.linkedin.com/in/mehuk-mahrishi-30979026/>

The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security. Founded by Manhattan Project Scientists, the Bulletin's iconic "Doomsday Clock" stimulates solutions for a safer world. Een tiener wordt door haar stiefvader seksueel misbruikt en vindt bij haar moeder geen steun. Samen met haar vrienden probeert ze hulp buitenshuis te zoeken. Bevat adressen van hulpverlenende instanties in Nederland en België. Vanaf ca. 14 jaar.

The internet of things (IoT) has drawn great attention from both academia and industry, since it offers a challenging notion of creating a world where all things around us are connected to the internet and communicate with each other with minimal human intervention. Another component for helping IoT to succeed is cloud computing. The combination of cloud computing and IoT will enable new monitoring services and powerful processing of sensory data streams. These applications, alongside implementation details and challenges, should also be

explored for successful mainstream adoption. IoT is also fueled by the advancement of digital technologies, and the next generation era will be cloud-based IoT systems. Integration and Implementation of the Internet of Things Through Cloud Computing studies, analyzes, and presents cloud-based IoT-related technologies, protocols, and standards along with recent research and development in cloud-based IoT. It also presents recent emerging trends and technological advances of cloud-based IoT, innovative applications, and the challenges and implications for society. The chapters included take a strong look at the societal and social aspects of this technology along with its implementations and technological analyses. This book is intended for IT specialists, technologists, practitioners, researchers, academicians, and students who are interested in the next era of IoT through cloud computing.

Within higher education, there are enormous untapped opportunities for product/services companies, administrators, educators, start-ups, and technology professionals to begin embracing artificial intelligence (AI) across the student ecosystem and infuse innovation into traditional academic processes by leveraging disruptive technologies. This type of human-machine interface presents the immediate potential to change the way we learn, memorize, access, and create information. These solutions present new openings for education for all while fostering lifelong learning in a strengthened model that can preserve the integrity of core values and the purpose of higher education. Impact of AI Technologies on Teaching, Learning, and Research in Higher Education explores the phenomena of the emergence of the use of AI in teaching and learning in higher education, including examining the positive and negative aspects of AI. Recent technological advancements and the increasing speed of adopting new technologies in higher education are discussed in order to predict the future nature of higher education in a world where AI is part of the fabric of universities. The book also investigates educational implications of emerging technologies on the way students learn and how institutions teach and evolve. Finally, challenges for the adoption of these technologies for teaching, learning, student support, and administration are addressed. Highlighting such tools as machine learning, natural language processing, and self-learning systems, this scholarly book is of interest to university administrators, educational software developers, instructional designers, policymakers, government officials, academicians, researchers, and students, as well as international agencies, organizations, and professionals interested in implementing AI in higher education.

Artificial Intelligence to Solve Pervasive Internet of Things Issues discusses standards and technologies and wide-ranging technology areas and their applications and challenges, including discussions on architectures, frameworks, applications, best practices, methods and techniques required for integrating AI to resolve IoT issues. Chapters also provide step-by-step measures, practices and solutions to tackle vital decision-making and practical issues affecting IoT technology, including autonomous devices and computerized systems. Such issues range from adopting, mitigating, maintaining, modernizing and protecting AI and IoT infrastructure components such as scalability, sustainability, latency, system decentralization and maintainability. The book enables readers to explore, discover and implement new solutions for integrating AI to solve IoT issues. Resolving these issues will help readers address many real-world applications in areas such as scientific research, healthcare, defense, aeronautics, engineering, social media, and many others. Discusses intelligent techniques for the implementation of Artificial Intelligence in Internet of Things Prepared for researchers and specialists who are interested in the use and integration of IoT and Artificial Intelligence technologies
