Local government expenditure represents about a quarter of all public expenditure, and the data are used in the monitoring of public expenditure and the compilation of the national accounts. Local government finance data are also used by the Government to inform the allocation of resources to local government and the development and monitoring of local government finance policy. It is also used more widely, by local authorities (including fire, police, transport and waste authorities, libraries and schools), central government, private sector businesses and the general public. This volume contains detailed outturn summaries of local government expenditure and income for years up to 2010-11, the latest year for which complete information is available, and estimates for 2011-12. It brings together local government finance topics all in one place. Topics include revenue expenditure and financing, capital expenditure and financing, local tax, borrowing and investments, pensions and pay and workforce. The structure and responsibilities of local government are also presented.

An up-to-date, comprehensive, and detailed how-to manual for planning and financing successful capital projects, written by a nationally known and award-winning expert on capital budgeting, A. John Vogt. Clearly explains capital budgeting approaches and methods, especially for local jurisdictions under 200,000 in population. Indispensable to managers, assistant managers, finance and budget officials, planning directors, public works administrators, and elected officials for choosing wisely among various approaches, using capital budgeting tools, and analyzing trade-offs during the process. Gathers together and clearly presents the accepted and successful policies, practices, and procedures from across the country and describes in detail every step, from selecting projects, to planning how to pay for them, to structuring and selling debt. Provides an abundance of local government documents, working papers, charts,

checklists, and examples from successful jurisdictions. Approach and recommendations consistent with the National Advisory Council on State and Local Government Budgeting, emphasizing goal setting and planning. Tips on prioritizing projects, winning political support for projects, and selling debt successfully. A book for every manager's bookshelf.

Explores how fiscal decentralisation takes place alongside administrative decentralisation. This book considers the revenue sources available, systems of intergovernmental transfers between central and local government, and the procedures necessary to ensure that local governments use their financial resources appropriately.

Local budgeting serves important functions that include setting priorities, planning, financial control over inputs, management of operations and accountability to citizens. These objectives give rise to technical and policy issues that require open discussion and debate. The format of the budget document can facilitate this debate. This book provides a comprehensive treatment of all aspects of local budgeting needed to develop sound fiscal administration at the local level. Topics covered include fiscal administration, forecasting, fiscal discipline, fiscal transparency, integrity of revenue administration, budget formats, and processes including performance budgeting, and capital budgeting.
