Conscience: Phenomena and Theories was first published in German in 1925 as a dissertation by Hendrik G. Stoker under the title *Das Gewissen: Erscheinungsformen und Theorien*. It was received with acclaim by philosophers at the time, including Stoker's dissertation mentor Max Scheler, Martin Heidegger, and Herbert Spielberg, as quite possibly the single most comprehensive philosophical treatment of conscience and as a major contribution in the phenomenological tradition. Stoker's study offers a detailed historical survey of the concept of conscience from ancient times through the Middle Ages up to more modern thinkers, including Schopenhauer, Nietzsche, Freud, and Cardinal Newman. Stoker analyzes not only the concept of conscience in academic theory but also various types of theories of conscience. His work offers insightful discussions of problems and theories related to the genesis, reliability, and validity of conscience. In particular, Stoker analyzes the moral, spiritual, and psychological phenomena connected with bad conscience, which in turn illuminate the concept of conscience. The book is deeply informed by the traditions of western Christianity. Available for the first time in an accessible English translation, with an introduction by its translator and editor, Philip E. Blosser, it promises to be of interest to philosophers, especially in Christian philosophy and phenomenology, and also to all those interested in moral and religious psychology, ethics, religion, and theology.

Death, Desire and Loss in Western Culture is a rich testament to our ubiquitous preoccupation with the tangled web of death and desire. In these pages we find nuanced analysis that blends Plato with Shelley, Hölderlin with Foucault. Dollimore, a gifted thinker, is not content to summarize these texts from afar; instead, he weaves a thread through each to tell the magnificent story of the making of the modern individual.

Either way, the results of their efforts are often disappointing. Without a lasting solution, managers find the same problems resurfacing time and again. In this very personal and inspiring book, Harley Lovegrove, an interim manager with over 25 years of commercial and industrial experience, takes a broad view on effective problem solving and project management. He shares with us his proven nine-step approach to identifying and tackling the fundamental issues that are key to achieving genuine and lasting results - even for problems that seem to be impossible to solve or too risky to tackle. Illustrated throughout with Harley's own personal anecdotes and stories, Making a Difference is an insightful and entertaining compilation of practical tools and techniques aimed at helping managers to understand and overcome the challenges that confront them.

When Bobby Fischer died in January 2008, he left behind a confounding legacy. Everyone knew the basics of his life: he began as a brilliant youngster, then became the pride of American chess, then took a sharp turn, struggling with paranoia and mental illness. But nobody truly understood him. What motivated him from such a young age, and what was the source of his remarkable intellect? How could a man so ambivalent about money and fame be so driven to succeed? What drew this man of Jewish descent to fulminate against Jews, and how was it that a mind so famously disciplined could unravel so completely? From his meteoric rise, to an utterly dominant prime, to his eventual descent into madness, the book draws upon hundreds of newly discovered documents and recordings, and numerous firsthand interviews conducted with those who knew Fischer best, to paint, for the very first time, a complete picture of one of the most enigmatic icons. This is the definitive account of a fascinating man and an extraordinary life, one that at last reconciles Fischer's deeply contradictory legacy and answers the question: 'Who was Bobby Fischer?'

In *The Poetics of Slumberland*, Scott Bukatman celebrates play, plasmatic possibility, and the life of images in cartoons, comics, and cinema. Bukatman begins with Winsor McCay's *Little Nemo in Slumberland* to explore how and why the emerging media of comics and cartoons brilliantly captured a playful, rebellious energy characterized by hyperbolic emotion, physicality, and imagination. The book broadens to consider similar "animated" behaviors in seemingly disparate media—films about Jackson Pollock, Pablo Picasso, and Vincent van Gogh; the musical *My Fair Lady* and the story of *Frankenstein*; the slapstick comedies of Jerry Lewis; and contemporary comic superheroes—drawing them all together as the purveyors of embodied utopias of disorder.

How does Ultra-Orthodox Jewish literature describe the male body? What does the body represent? What is the ideal male body? This book is a philosophical-theological exploration of the different images of the male body in Ultra-Orthodox literature since the holocaust. The body is not incidental to this community but is the axis by which it tries to

understand its meaning and its role in life. In the first part of the book, Yakir Englander explains the "problem of the body" and the different ways that Ultra-Orthodox theology deals with it. These different and even contradictory voices can teach the reader about the shifting of ideas inside Ultra-Orthodox thought in the last decades. The second part of the book focuses on the image of the ideal body and describes how the rabbis train their bodies to reach ultimate form.

Foreign Aid and Journalism in the Global South: A Mouthpiece for Truth examines the way in which foreign aid has shaped professional ideologies of journalism as part of systematic and orchestrated efforts since the beginning of the twentieth century to shape journalism as a political institution of the Global South. Foreign aid pushed for cultural convergence around a set of ideologies as a way of exporting ideology and expanding markets, reflecting the market society along with the expansion of U.S. power and culture across the globe. Jairo Lugo-Ocando argues that these policies were not confined to the Cold War and were not a purely modern phenomenon; today's journalism grammar was not invented in one place and spread to the rest, but was instead a forced colonial and post-colonial nation-building exercise that reflected both imposition and contestation to these attempts. As a result, Lugo-Ocando claims, journalism grammar and ideology differ between societies in the Global South, regardless of claims of universality. Scholars of journalism, international relations, Latin American Studies, and history will find this book particularly useful.

Scoring the Hollywood Actor in the 1950s theorises the connections between film acting and film music using the films of the 1950s as case studies. Closely examining performances of such actors as James Dean, Montgomery Clift, and Marilyn Monroe, and films of directors like Elia Kazan, Douglas Sirk, and Alfred Hitchcock, this volume provides a comprehensive view of how screen performance has been musicalised, including examination of the role of music in relation to the creation of cinematic performances and the perception of an actor's performance. The book also explores the idea of music as a temporal vector which mirrors the temporal vector of actors' voices and movements, ultimately demonstrating how acting and music go together to create a forward axis of time in the films of the 1950s. This is a valuable resource for scholars and researchers of musicology, film music and film studies more generally.

An Indonesian-English Dictionary.

Antisthenes was famous in antiquity for his studies of Homer's poems, his affiliation with Gorgias and the sophistic movement, his pure Attic writing style, and his inspiration of Diogenes of Sinope, who founded the Cynic philosophical movement. Antisthenes stands at two of the greatest turning points in ancient intellectual history: from pre-Socraticism to Socraticism, and from classical Athens to the Hellenistic period. Antisthenes' works form the path to a better understanding of the intellectual culture of Athens that shaped Plato and laid the foundations for Hellenistic philosophy and literature. Antisthenes of Athens keeps in mind the goals and polemics framing each philosophical and textual discussion. The volume considers the ancient traditions about Antisthenes' rejection of Plato's "Theory of Forms," his assertion of the paradox, "It is impossible to gainsay," and his denial that definition of essence is possible, as well as the plausible intentions of Antisthenes. In cases where these questions are not easily settled, and where modern interpretation has varied, Susan H. Prince identifies the roots of the disagreements. The goal and meaning of Antisthenes' other famous ancient paradox, "I would rather go mad than have pleasure," is illuminated by comparison with other evidence showing that pleasure does have a place in his ideology. Evidence for his relationship to Diogenes of Sinope, and for his receptions by the Cynics, Stoics, Skeptics, Christians, and Neo-Pagans is examined for both its historical value and its distorting tendencies.

A guide for game preview and rules: history, definitions, classification, theory, video game consoles, cheating, links, etc. While many different subdivisions have been proposed, anthropologists classify games under three major headings, and have drawn some conclusions as to the social bases that each sort of game requires. They divide games broadly into, games of pure skill, such as hopscotch and target shooting; games of pure strategy, such as checkers, go, or tic-tac-toe; and games of chance, such as craps and snakes and ladders. Het verhaal van een legendarische platenzaak Als twintigjarige jongen kwam Ewoud Kieft te werken in een van de oudste platenzaken van Nederland: Concerto in Amsterdam. Opgericht in 1955, is Concerto door de decennia heen een trekpleister voor muzikliefhebbers gebleven. In de zeven jaar dat Kieft er werkte, passeerde een bonte stoet zijn balie: van stoffige jazzverzamelaars tot techno-dj's, van folkpuristen tot B-boys, van metalheads tot disco-diva's. Met humor en inlevingsvermogen vertelt Kieft de vele verhalen van Concerto, die voeren naar de jazzscene van de jaren vijftig, de nachtclubs in de jaren zestig en zeventig, en vervolgens naar punkholen, hiphop-hang-outs en housefeesten: met telkens de platenzaak als vertrekpunt van de reis, want Concerto is altijd een verzamelplek van de meest uiteenlopende muzikale stromingen en subculturen geweest. Concerto is een veelzijdige, levendige muziekgeschiedenis die de lezer als in een tijdmachine meevoert naar al die momenten dat muziek levens veranderde, troost en hoop bood, nieuwe werelden opende en revoluties ontketende.

Lust for Life is the classic fictional re-telling of the incredible life of Vincent Van Gogh. "Vincent is not dead. He will never die. " Walking down the streets of Paris the young Vincent Van Gogh didn't feel like he belonged. Battling poverty, repeated heartbreak and familial obligation, Van Gogh was a man plagued by his own creative urge but with no outlet to express it. Until the day he picked up a paintbrush. Thomas G. Masaryk was founding and first president of the State of Czechoslovakia. He was also a dissident charter member of the theoretical vanguard that established modern sociology in the nineteenth century. Many social scientists are aware of Masaryk's political role, but do not know about his significant contributions to sociology. With the publication of this book, Imber and Woolfolk hope to restore Masaryk to his rightful place in history as a founding sociological theorist. This compilation of some of Masaryk's major writings reveals the intertwining

of politics and social theory that is characteristic of his thinking. Chapters in Constructive Sociological Theory include "The Development of the Modern Suicide Tendency"; "Essence and Method of Sociology"; "The Epistemological Problem of Russian Philosophy"; "The Religious Question and Modern Philosophy"; "The Class Structure of Society"; "Central Problems of Marxist Policy"; and "Democracy versus Theocracy." Constructive Sociological Theory also presents these writings together in English for the first time. Alan Woolfolk's substantial introduction extensively discusses Masaryk's biographical background, academic life, political career, religious views, and interpretations of Marx and Comte, among other subjects. This landmark volume will be an essential addition to the libraries of political theorists, sociologists, philosophers, and theologians.
