Tony Robbins is bekend van de Netflix-documentaire 'I'm not your guru'. In 'Je ongekende vermogens' vertelt hij op heldere wijze wat Neurolinguïstisch Programmeren (NLP) is en wat het voor je kan doen. Hij laat zien dat je leven excellent kan worden als je zelfbewust en positief leert denken, en ongekende vermogens in jezelf ontdekt. Het principe van NLP, een revolutionaire vorm van psychotherapie, is eenvoudig: als je een voorstelling maakt van hoe je wilt zijn of wat je wilt bereiken, dan heeft dat beeld een positieve invloed op het resultaat. Hierdoor kun jij het leven leiden dat je voor ogen hebt. 'Je ongekende vermogens' is een everseller waarvan al 40.000 exemplaren in Nederland en Vlaanderen zijn verkocht.

This book offers a controversial reanalysis of the rise and dominance of managerialist approaches to development. Linking two British inner-city community development projects with projects in the developing world it shows how 'managed development' runs counter to participatory values and aspirations of communities receiving development aid. This, in effect, mutes the voices of these communities. In conclusion, Holmes draws implications for the emerging community development agenda in urban development throughout the world.

Human Resource Management in Sport and Recreation, Third Edition, provides current and future practitioners with a solid foundation in research and application of human resource management in the sport and recreation industries. The third edition prepares students for success by bringing into focus the three divergent groups of people who constitute human resources in sport and recreation organizations: paid professional workers, volunteers, and the clients themselves. Dr. Packianathan Chelladurai, pioneer in the field of sport management, continues to bring his expertise to this edition; he is joined by new coauthor Dr. Shannon Kerwin, an active researcher in organizational behavior and human resource management in sport. With more than 50 collective years of experience in teaching management of human resources, Chelladurai and Kerwin synthesize the core dynamics of human resources and the management of these resources as well as the role of the sport and recreation manager. The third edition's updated references, examples, and studies reflect the increased growth, interest, and complexity in human resource management in recreation and sport in recent years. Additional enhancements of the third edition include the following: • A new opening chapter on the significance of human resources describes consumer services, professional services, and human services and provides a model for the subsequent chapters. • A greater emphasis is placed on recruitment and training as an essential component of success. • New "Technology in Human Resource Management" and "Diversity Management of Human Resources" sidebars connect theory to practice for sport managers as they confront contemporary issues in the workplace. • Case studies at the end of each chapter help students apply concepts

from the chapter to real-world scenarios. • Instructor ancillaries help instructors prepare for class with the use of an instructor guide with a syllabus, tips for teaching, and additional resources, as well as an image bank. In addition, updated pedagogical aids include learning objectives, summaries, lists of key terms, comprehension questions, and discussion questions to guide student learning through each chapter. Sidebars throughout the text provide applied concepts, highlight relevant research, and offer digestible takeaways. Organized into four parts, the text begins by outlining the unique and common characteristics of the three groups of human resources in sport and recreation. Part II focuses on differences in people and how the differences affect behavior in sport and recreation organizations. In part III, readers explore significant organizational processes in the management of human resources. Part IV discusses two significant outcomes expected of human resource practices: satisfaction and commitment. Finally, a conclusion synthesizes information and presents a set of founding and guiding themes. Human Resource Management in Sport and Recreation, Third Edition, explains essential concepts in human resources in the sport and recreation industries. The authors present a clear and concise treatise on the critical aspects of management of human resources within sport and recreational organizations to help aspiring and current professionals maximize their potential in the field.

De wereld verandert snel. Om te overleven moet vrijwel ieder bedrijf het huidige businessmodel tegen het licht houden en nieuwe businessmodellen ontwikkelen. En niet één keer, maar eigenlijk voortdurend, want verandering is het nieuwe normaal. Maar waar begin je met het innoveren van je businessmodel? Je hoeft niet zelf vanuit het niets een revolutionair nieuw businessmodel te bedenken. Laat je gewoon inspireren door bestaande modellen die zich al hebben bewezen. Het is veel effectiever om de businessmodellen van succesvolle bedrijven te bekijken en die aan te passen, te combineren en af te stemmen op je eigen product of markt. De kern van dit boek is daarom een uniek overzicht van 55 krachtige en innovatieve businessmodellen. Van het add-onmodel van Ryanair tot het razor-and-blademodel van Nespresso en het abonnementenmodel van Spotify. Na jarenlang onderzoek en bestudering van honderden modellen bleken deze 55 basismodellen te worden toegepast door 90 procent van alle succesvolle bedrijven. In het boek wordt duidelijk uitgelegd wat businessmodelinnovatie is en hoe je het zelf kunt aanpakken. Daarvoor introduceren de auteurs een slimme en eenvoudige methode, de Business Model Navigator, die je in staat stelt meteen met de principes uit het boek aan de slag te gaan. Het boek barst bovendien van de aansprekende cases en voorbeelden. Oliver Gassmann is hoogleraar Innovatiemanagement aan de Universiteit van St. Gallen en directeur van het Institute of Technology Management (ITEM). This book brings revolution to the African continent. It makes it clear that for Africans to advance in life they require a different approach to life. The book uses proverbs and wise sayings from Africa to enhance the notion that Africa as a continent appreciates issues about change and other players from outside the continent get a buy-in into change management. It is now generally accepted that from Cape

to Cairo one sees a continent pregnant with resources but it is classified as the poorest by bank balance. The book uses African wisdom to help readers around the world to appreciate the African transformation. Change is always hardest at the beginning but it gets easier and better as days transform into years. Nothing in life changes without change. The book suggests ways of how Africa can swing the pendulum and rise to be a global shining star by owning and using its natural resources wisely and embracing transformational leadership. This would rewrite the economic order and turn the richest poor continent into a super rich continent.
