Waarom zijn broodjeaapverhalen zo hardnekkig en vergeten we alledaagse waarheden zo gemakkelijk? Hoe maakt een krant een kop die ervoor zorgt dat we door willen lezen? En waarom onthouden we complexe verhalen wel, maar complexe feiten niet? Waarom floreren sommige ideeën van meet af aan, terwijl andere razendsnel ter ziele gaan? En hoe verbeter je de kansen van waardevolle ideeën? In De plakfactor leggen Chip en Dan Heath uit hoe je de kleefkracht van ideeën kunt versterken. Deze onmisbare gids laat zien dat 'sticky' ideeën hun kracht ontlenen aan zes belangrijke eigenschappen, die ook jij kunt leren beheersen. Dit boek gaat over een van de belangrijkste aspecten van menselijk gedrag en zal de manier waarop je ideeën overbrengt ingrijpend veranderen. De plakfactor is provocerend, onthullend en vaak verrassend grappig. Het onthult de cruciale principes van succesvolle ideeën en de strategieën om je eigen boodschap meer kleefkracht te geven.

With 80 percent of the world's commodities being transported by water, ports are the pillars of the global economy. Port Management and Operations offers readers the opportunity to enhance their strategic thinking and problem-solving skills, while developing market foresight. It examines global port management practices at the regulatory, commercial, technological, operational, financial, and sociopolitical levels. This powerful sourcebook describes how seaports are being affected by the changes occurring nationally, regionally, and globally. Evaluating the new regulatory framework, it pinpoints the industry's implementation readiness and identifies potential problem areas. The book classifies the spectrum of interrelated port management principles, strategies, and activities in a logical sequence and under four cornerstones—Port Strategy and Structure, Legal and Regulatory Framework, Input: Factors of Production, and Output and Economic Framework. Detailing best practices and the latest industry developments, the book highlights emerging challenges for port managers and identifies opportunities to develop forward-thinking strategies. It examines the effectiveness of current strategies, tactics, tools, and resources of numerous global ports and highlights the necessity of adopting a proactive stance in harmonizing the laws, regulations, and policies pertaining to the maritime, oil, and gas industries. The shipping industry has myriad complexities and this book provides maritime managers and professionals with the wide-ranging and up-to-date understanding required to thrive in today's highly competitive and evolving environment.

This book covers all of the core topics in marketing and is written and designed specifically for the needs of MBA students. Assuming no prior knowledge, this text covers the basics before quickly moving on to explore more advanced issues and concepts. It is strongly grounded in theory and linked to best practice, and is the ideal MBA course text.

Brand management to sustain corporate reputation and customer loyalty is essential for both multinationals and indigenous firms in Africa. This book provides a practical overview of country branding and positioning activities in Africa, based on a broad definition of base of the pyramid (BoP) marketing, which includes both goods and services, as well as business-to-business marketing, corporate branding, and country branding. The text highlights branding strategies that can be adopted in BoP markets, as well as marketing mix strategies appropriate for much of the continent. Taking into account the role of social networks, culture, and religion, the book explores avenues for developing and building competitive advantage, and how African countries can leverage country branding as part of the development process. The book is ideal for researchers, educators and advanced students in international marketing, management, and brand strategy who are interested in the unique branding characteristics of the African continent.

The very best business isn't born out of hunches, macho tactical skirmishing or simply 'being busy', but is the product of careful calculation and understanding customers' needs, wants and aspirations. Marketing Strategy Masterclass is a 'how to' book of marketing strategy focused on doing what our customers want us to do, how they want it done. Included throughout are the wise words of a choice selection of history's masters, depicted on the book's front cover. Aimed at professional marketing managers, business development managers and students, this real and practical masterclass is an indispensable reference for use on its own or alongside Marketing Strategy, 3rd edition, also published by Butterworth-Heinemann. ABOUT THE AUTHOR Paul Fifield has been extensively involved in strategic marketing training and education since 1980. His professional assignments have ranged

"Since the sixth edition of this book, published in 2017, many economies around the world have continued to feel the aftershocks of the deepest recession since the Great Depression of the 1930s, which started with the well-publicised 'credit crunch'. Despite continuing academic debate about the causes and extent, there is now little doubt that climate change and global warming is beginning to have a significant impact on our physical environment. Technology and the ever-growing acceptance and use of social media are having a profound effect on customer expectations, experience and behaviour. Despite ongoing economic difficulties and turbulence, climate change has not been ignored, and it presents significant challenges and opportunities for businesses. Sustainable energy technologies, such as wind, solar, wave and thermal biomass, are now being pursued more vigorously and attempts to reduce energy consumption (of cars, buildings and airplanes) are creating new business opportunities. Increasingly, companies, public sector organisations, individuals and nations are adopting and implementing measures, such as sourcing more raw materials locally to reduce 'carbon miles' and limiting the use of high-emission travel options to reduce their carbon footprint"--

Thoroughly updated with new examples and the latest research findings, this new edition also boasts case studies in each chapter, taken from recent editions of the Financial Times, that illustrate the practical implications of the issues raised. Small and medium-sized enterprises (SMEs) dominate the market in terms of sheer number of organizations. Their role in the business world is difficult to overstate. Despite this, there is a high failure rate among smaller organizations, which can be explained to a significant degree by a lack of marketing understanding in this sector. Introducing the importance of marketing to entrepreneurial firms this book guides the student through the fundamentals of marketing within the SME context, providing a more value-added learning experience than your standard marketing run-through. The authors deal directly with "people issues" (i.e. everyday entrepreneurial marketing interactions) to prepare students for the "dragon's den" of entrepreneurialism. This new and lively textbook provides a fresh and unfettered approach for marketing students who require a more real-world understanding of the impact of their discipline on entrepreneurial firms. The growing student body involved with studying entrepreneurship will also benefit from the customer insight offered by this approach.

This book is a unique collection of comprehensive cases that explore concepts and issues surrounding strategic marketing. Chapters explain what strategic marketing is, and then discuss strategic segmentation, competitive positioning, and strategies for growth, corporate branding, internal brand management, and corporate reputation management. With case studies from a broad range of global contexts and industries, including Burger King, FedEx, and Twitter, readers will gain a working knowledge of developing and applying market-driven strategy. Through case analysis, students will learn to: examine the role of corporate, business, and marketing strategy in strategic marketing; recognize the implications of markets on competitive space with an emphasis on competitive positioning and growth; interpret the various elements of marketing strategy and apply them to a

particular real-world situation; apply sound decision-making strategies and analytical frameworks to specific strategic marketing problems and issues; apply ethical frameworks to strategic marketing situations. Strategic Marketing: Concepts and Cases is ideal for advanced undergraduate and postgraduate students, as well as those studying for an MBA or executive courses in strategic marketing or marketing management.

Essay from the year 2008 in the subject English - Miscellaneous, grade: A, University of Wales Institute, Cardiff (University of Wales Institute, Cardiff), course: International and Strategic Marketing, 18 entries in the bibliography, language: English, abstract: The market leader represents the most dominant form of market interferes in a specific market industry. Usually, there is in one industry one firm that interacts as the market leader. It is characterized by having the largest market share. Furthermore, the market leader determines pace and bases of competition as for example the pricing or advertising intensity and last its ability to create a benchmark which means that it then influences the activities of other companies (Wilson and Gilligan, (2006)). For example the sports brand NIKE is the market leader in the sports industry in the USA but also operating strongly on a global basis due to an enormous potential purchasing power worldwide. However, regarding the European market, ADIDAS dominates the sports industry market (Smit, 2006). [...]

How do you give your brand a competitive edge in a 'me-too' situation? How do you differentiate your brand and give it a distinctive identity? How, in short, do you secure competitive advantage for your brand? Especially in a 'mine-too' situation. The author answers all these questions and more, by discussing the concepts and principles involved in developing sound positioning strategy. He brings into focus its practice and applications with cases and examples from the Indian market. A large number of packaged goods, as well as some widely used durables such as two-wheelers, TV sets, etc. have been analysed. The second edition has new chapters on positioning of services and celebrity endorsements. Also new cases and examples have been included. With this coverage, the book will help markets and advertisers create sound positioning strategies for their brands. The third edition of this established book brings the reader up to date with the latest repercussions of new technology upon marketing planning and implementation, and launches a new strategy model (SCORPIO) at the core of the book. As in previous editions, 'Marketing Strategy' strips away the confusion and jargon that surround what ought to be one of the most straightforward areas of modern business. Retaining a clear focus on the relationships between people as the basis of marketing, the book offers analysis of the pivotal role of marketing in the business strategy process. It shows how to: * develop a business strategy * devise a marketing strategy * implement a marketing strategy Providing a good balance between sound theory and practical know-how in an increasingly competitive environment, the book is indispensable for marketing practitioners, general managers and students alike.

This book is aimed at final year marketing students, MBA students and marketing managers. Focusing on how to create and sustain superior performance in the market place this book deals with the two central issues in marketing strategy formulation: the identification of target markets and the customers that the company will seek to serve; and the creation of a differential advantage, or competitive edge, that will enable a company to serve the customers more effectively than the competition. positioning of a company from which the implementation of the marketing programme and the elements of the marketing mix are dictated. The book discusses the issues of segmentation and positioning, and how best to apply

these approaches. Strategies are presented for defending one's own and attacking one's competitors' positions. Important issues for the 1990s are identified and a framework for developing marketing strategy is presented. British and European examples are given, for example Unilever, Amstrad and American theme parks. Marketing Strategy and Competitive Positioning 6e deals with the process of developing and implementing a marketing strategy. The book focuses on competitive positioning at the heart of marketing strategy and includes in-depth discussion of the processes used in marketing to achieve competitive advantage. The book is primarily about creating and sustaining superior performance in the marketplace. It focuses on the two central issues in marketing strategy formulation – the identification of target markets and the creation of a differential advantage. In doing that, it recognises the emergence of new potential target markets born of the recession and increased concern for climate change; and it examines ways in which firms can differentiate their offerings through the recognition of environmental and social concerns. The book is ideal for undergraduate and postgraduate students taking modules in Marketing Strategy, Marketing Management and Strategic Marketing Management.

Meet any business or competitive analysis challenge: deliver actionable business insights and on-point recommendations that enterprise decision makers can't and won't ignore! All you need is one book: *Business and Competitive Analysis, Second Edition*. This generation's definitive guide to business and competitive analysis has now been thoroughly updated with additional methods, applications and examples. Craig S. Fleisher and Babette E. Bensoussan begin with a practical primer on the process and context of business and competitive analysis: how it works, how to avoid pitfalls, and how to communicate results. Next, they introduce their unique FAROUT method for choosing the right tools for each assignment. The authors then present dozens of today's most valuable analysis methods. They cover "classic" techniques, such as McKinsey 7S and industry analysis, as well as emerging techniques from multiple disciplines: economics, corporate finance, sociology, anthropology, and the intelligence and futurist communities. You'll find full chapters outlining effective analysis processes; avoiding pitfalls; communicating results; as well as drill-downs on analyzing industries, competitive positioning, business models, supply chains, strategic relationships, corporate reputation, critical success factors, driving forces, technology change, cash flow, and much more. For every method, Fleisher and Bensoussan present clear descriptions, background context, strategic rationales, strengths, weaknesses, step-by-step instructions, and references. The result is a book every analyst, strategist, and manager can rely on – in any industry, for any challenge.
