Tijdens een zware sneeuwstorm wordt de kleuterjuf van een joodse school in Stockholm doodgeschoten op het schoolplein. Aanvankelijk wordt gedacht aan een afrekening in het criminele circuit, omdat de partner van de kleuterjuf een bekende van de politie is. Als echter diezelfde middag twee 10-jarige jongens uit dezelfde joodse gemeenschap worden ontvoerd en de volgende dag doodgeschoten worden gevonden, neemt het politieonderzoek een heel andere wending. Kristina Ohlsson (1979) is politicoloog en werkte voor het Zweedse ministerie van Buitenlandse Zaken en de geheime dienst. Haar succesvolle debuut Ongewenst is vertaald in 15 talen. Daarna verschenen Verzwegen en Engelbewaarders, die beide werden genomineerd voor de belangrijkste Zweedse thrillerprijs. 'Voor liefhebbers van Zweedse thrillers is dit verplichte leesstof.' NBD over Engelbewaarders 'Verzwegen is geschreven in prachtig proza.' Crimezone.nl

This book highlights the basic concepts underpinning the OSCE, its development and implementation in practice. Practical guidelines and tips are provided based on the authors' extensive experience gained over 40 years. Case studies are included to illustrate the OSCE's use in a wide range of settings and professions to assess the expected learning outcomes. The text is supplemented with personal accounts and anecdotes. Used globally in all phases of education in the different healthcare professions, the OSCE was first described by the lead author, Harden, in 1975 and it is now the gold standard for performance assessment. "This book is an invaluable addition. It pulls together in one place pretty well everything that is known about the OSCE; what works and what doesn't. It is a welcome addition to the bookshelf of any educational leader." Geoff Norman's Foreword

In Zweden wordt op een regenachtige zomerse dag een klein meisje uit een overvolle trein ontvoerd. Haar moeder is per ongeluk op het vorige station achtergebleven. De bemanning van de trein was op de hoogte gebracht en zou een oogje op het slapende kind houden. Maar zodra de trein het station van Stockholm inrijdt, is het meisje spoorloos verdwenen. Inspecteur Alex Recht en zijn team, geholpen door onderzoekster Fredrika Bergman, nemen de zaak op zich. Aanvankelijk lijkt het op een klassieke ruzie over de voogdij. Maar als het kind dood wordt gevonden met het woord *„ongewenst“* op haar voorhoofd, verandert de zaak in de ergste nachtmerrie van het onderzoeksteam *„de jacht op een briljante en meedogenloze moordenaar“*. Kristina Ohlsson (1979) werkt als veiligheidsanalist voor de Zweedse politie. Met haar overrompelende debuut *Ongewenst* bewijst ze dat ze een Scandinavische auteur is om rekening mee te houden. Kristina woont in Stockholm.
