Every year like clockwork, animals both big and small are driven by a natural instinct to move, in order to survive. On both land and sea, they fight the odds and the forces of nature to breed, feed, or lead and carry on for future generations. This reader is an introduction to the treacherous trek of the zebra, walrus, and Christmas Island red crab to overcome obstacles that include hungry cheetahs, stinging yellow crazy ants, and even their fellow species to make the often impossible journey of their lives. National Geographic supports K-12 educators with ELA Common Core Resources. Visit www.natgeoed.org/commoncore for more information. From the Trade Paperback edition.

Who could resist celebrating sea turtles? They may seem like lazy ocean reptiles drifting with the oceans' currents, but they are actually long-distance swimmers that spend their entire lives searching for food and a mate. What's more, they come with their own built-in GPS, returning to the exact beach where they were born to lay their own eggs. Kids will learn all about these tranquil and mysterious animals through brilliant photography and illustrations, plus the trusted and distinctive content you love from NG Kids!
