Zij is de enige die weet wat er gebeurd is. Ik ben de

enige die haar kan laten praten.' Alicia Berenson lijkt een perfect leven te leiden; ze is kunstenaar, gelukkig getrouwd en woont in een prachtig huis in een goede buurt in Londen. Maar als haar man op een avond thuiskomt doet ze iets verschrikkelijks: ze schiet hem vijf keer in het gezicht. Sindsdien zwijgt ze. Alicia's weigering om te praten, of een verklaring te geven voor haar daad, maakt de moord op haar man tot een mysterie dat tot de verbeelding spreekt van media en publiek. Haar kunst wordt onbetaalbaar, terwijl Alicia zelf ver van alle media in een psychiatrische inrichting is opgenomen. Psychotherapeut Theo Faber heeft lang moeten wachten voor hij de kans krijgt om Alicia te behandelen. Hij is vastbesloten Alicia aan het praten te krijgen en het motief voor haar daad te achterhalen. Maar met zijn vastberaden zoektocht naar de waarheid brengt hij ook zichzelf in gevaar. Zeg je vrienden en familie maar vaarwel. Bereid je voor op een werkweek van 97 uur, beslissingen over leven en dood, een constante vloed aan lichaamssappen en een budget dat eerder gepast lijkt voor een turfsteker. Welkom in het leven van een arts in opleiding. Tijdens de helse dagen en slapeloze nachten hield cabaretier en voormalig arts in opleiding Adam Kay jarenlang in het geheim een dagboek bij. Zijn verslagen van de frontlinies van het ziekenhuis zijn samengebracht in dit afwisselend hilarische, afschuwelijke en ontroerende boek. Dit

doet even pijn vertelt je alles wat je wilt weten over het werk op een ziekenboeg - plus een aantal dingen die je liever níet had willen weten. Mogelijke bijwerkingen: spontane lachstuipen en opwellende tranen. Adam Kay (1980) werkte jarenlang als arts in opleiding, maar is tegenwoordig een succesvol cabaretier en scriptschrijver. Zijn debuut *Dit doet even pijn* werd direct een bestseller in Groot-Brittannië en is inmiddels in vijftien landen vertaald. Activities include lessons on the elements of narrative writing, figurative language, grammar, proofreading/editing skills, and ways to use technology.

Outlines a basic literacy system that includes analyzing the strengths of current approaches, setting high expectations, and identifying where to adjust current curriculum and instruction.

The first section of this research based but practical book has been updated to examine the most recent research in two key areas: dyslexia and the dyslexic experience and the major cognitive and learning styles. In the light of increased controversy around the use of learning style theory in the educational arena, suggestions are made as to ways in which these theories can be utilized to inform teaching and learning and maximize success for vulnerable learners. The second section provides a range of ways in which to enable learners to understand and utilize their individual styles along with techniques to

help students to absorb, process and create responses to information across the curriculum; practical strategies to help teachers to adapt material to suit differing ways of learning and activities to help students to become more flexible and successful in their approach.

"This book will show how to guide students through the various stages of the writing process and teach them to focus on the purpose for writing in all kinds of nonfiction. It will help teachers assess what students know so they can plan more successful instruction." "This practical book also explains how teachers can provide student writers with the concrete, constructive feedback they need. It demonstrates how assessment can guide effective teaching practices."--BOOK JACKET.

Logboek van een van de meest spectaculaire odyssees uit de tijd van de Tweede Wereldoorlog. In mei 1943 stort een Amerikaanse bommenwerper in de Stille Oceaan en zinkt. Boven het oceaanooppervlak verschijnt het hoofd van een jonge luitenant, de piloot van de bommenwerper, die verwoede pogingen doet om op een stuk drijvend hout te klimmen. Zo begint een van de meest indrukwekkende odyssees van de Tweede Wereldoorlog. Hoofdpersoon is Louis Zamperini, die als hardloper uitblinkt tijdens de Olympische Spelen in Berlijn en in de Tweede Wereldoorlog uitgroeit tot een toonbeeld van wilskracht en

doorzettingsvermogen.

Donna Tartt volgt in haar erudiete en bedwelmende debuutroman enkele studenten die door hun eigen morele hoogmoed ten val komen. Richard Papen, een ingetogen jongen van eenvoudige afkomst, wordt tot zijn verbazing opgenomen in een groepje arrogante en excentrieke studenten, dat zich in de ban van een leraar op de bestudering van de Griekse beschaving heeft gestort. In het tweede semester raakt hij betrokken bij een drama dat zich tussen hen heeft afgespeeld. Een drama met grote gevolgen voor iedereen.

What links Cinderella to Harry Potter? What can The Simpsons teach us about character creation? What is the False Horizon moment? What are the two classic openings and five effective endings of a newspaper story? Covering fiction and non-fiction writing, chapters include guidance on: Story structure Creating characters Persuasive writing Informative writing Scriptwriting Writing techniques By following its step-by-step approach and using the resources and materials provided, teachers can engage their pupils, improve their writing skills dramatically – and have fun while they're doing it. Writing lessons will never be the same again! *Tricks of the Writer's Trade* is an invaluable resource for all Primary Teachers, Key Stage Three English teachers

and literacy coordinators as well as PGCE students. One of the most problematic areas in the teaching and development of literacy appears to concern children's interactions with non-fiction books. Many surveys and reports have commented on the tendency for children to do little more than copy out sections of non-fiction texts. The Exeter Extending Literacy (EXEL) project was set up with the aim of exploring ways in which non-fiction might be used more effectively and profitably than this. In this book David Wray and Maureen Lewis outline the thinking behind the project and describe in detail the many useful teaching strategies and approaches which were developed in collaboration with primary teachers across the country. Teachers of children from five to fourteen will find this book both a stimulating account of a very influential development project and a useful source of practical teaching ideas.

Using Comic Art to Improve Speaking, Reading and Writing uses children's interest in pictures, comics and graphic novels as a way of developing their creative writing abilities, reading skills and oracy. The book's underpinning strategy is the use of comic art images as a visual analogue to help children generate, organise and refine their ideas when writing and talking about text. In reading comic books children are engaging with highly complex and structured narrative forms. Whether they realise it or not, their emergent visual literacy promotes thinking skills and develops wider metacognitive abilities. Using Comic Art not only motivates children to read more widely, but also enables them to enjoy a richer imagined world when reading comics, text based stories and their

own written work. The book sets out a range of practical techniques and activities which focus on various aspects of narrative, including: using comic art as a visual organiser for planning writing openings and endings identifying with the reader, using different genres and developing characters creating pace, drama, tension and anticipation includes 'Kapow!' techniques to kick start lessons an afterword on the learning value of comics. The activities in Using Comic Art start from this baseline of confident and competent comic-book readers, and show how skills they already possess can be transferred to a range of writing tasks. For instance, the way the panels on a comic's page are arranged can serve as a template for organising paragraphs in a written story or a piece of non-fiction writing. The visual conventions of a graphic novel – the shape of speech bubbles or the way the reader's attention is directed – can inform children in the use of written dialogue and the inclusion of vivid and relevant details. A creative and essential resource for every primary classroom, Using Comic Art is ideal for primary and secondary school teachers and TAs, as well as primary PGCE students and BEd, BA Primary Undergraduates.

This book brings together a collection of essays on the teaching of writing. It is a companion to Prue Goodwin's The Literate Classroom and The Articulate Classroom and aims to: augment our existing knowledge about the teaching and learning of writing stimulate thought and provoke discussion about writing offer a blend of theory and practice give 'food for thought' and ideas for teaching writing to primary age children. The topic of writing is one which is under the spotlight with increasing regularity as politicians and policy

makers move on from reading as an 'issue'. This has already happened in England where the National Literacy Strategy is urging more emphasis on the teaching of writing to remedy weaknesses in this area.

Haar naam was Henrietta Lacks, maar de medische wereld kent haar als HeLa. In de jaren '50 werden haar kankercellen zonder dat zij dat wist bij haar weggenomen. Met behulp van deze cellen, die letterlijk onsterfelijk zijn, werden de meest uiteenlopende geneeskundige ontdekkingen gedaan en rond de verkoop ervan ontstond een miljoenenindustrie. Het leven van Henrietta bleef echter vrijwel onbekend en ook haar familie wist tot ruim dertig jaar geleden niet van het bestaan van de cellen af. Rebecca Skloot vertelt het verhaal van de 'HeLa-cellen', maar laat ons vooral ook kennis maken met Henrietta, haar verleden en haar familie, die nog steeds worstelt met de nalatenschap van de cellen. Ze laat zien dat het verhaal van de familie Lacks onlosmakelijk verbonden is met de duistere geschiedenis van het experimenteren met Afrikaans-Amerikanen, het ontstaan van de ethiek binnen de biologie en de juridische strijd over de vraag of we de baas zijn over de materie waarvan we zijn gemaakt.

creates enjoyment and relevance in the task and cultivates a range of decision-making and problem-solving skills that can then be applied across the curriculum. The Countdown series provides all the support you need in helping children to improve their prose, poetry and non-fiction writing.

Countdown to Non-Fiction Writing is a comprehensive and flexible resource which you can use in different ways. It includes: 37 stand-alone modules which cover all aspects of writing and understanding non-fiction texts, including the nature of language, logical thinking, recognising 'facts' and planning; A countdown flowchart provides an overview, showing how modules are linked and allowing teachers and pupils to track their progress; Photocopiable activity sheets for each module that show how to make decisions and solve problems which writers face on the journey to a finished piece of work; Teachers' notes for each module with tips and guidance, including how modules can be used in the classroom, links to other modules and curriculum links, and advice on helping and guiding pupils in their writing; A self-study component so pupils can make their own progress through the material. This option gives young writers a sense of independence in thinking about their work and through offering a scaffolding of tasks, encourages confident and effective writing; 'Headers' for each module showing where along the 'countdown path' you are at that point; Contents page for quick access to particular modules and relevant aspects of writing. In short, Countdown to Non-Fiction Writing saves valuable planning time and gives you all the flexibility you need in helping pupils to prepare for, understand, and write non-fiction. The structure of the book allows teachers to utilise the modules for 'self-study', as a longer programme following the 'countdown' structure, or to dip into the book for individual lesson activities and ideas to fit in with wider programmes of study.

If you are interested in this book, I presume you have written a book or plan to write one, and are thinking of self-publishing it. If so, this is the place to start. If you self-publish a non-fiction book of interest to a defined target market, or a book of fiction for people who read the genre you have produced, you can begin to promote it to interested readers. I have sold close to 10,000 books. So while I'm no E.L. James (author of the originally self-published 50 Shades of Grey), I am a happy and profitable self-published author. Perhaps you can become one too. Having said that, your desire to self-publish may not be all about book sales. You may be looking to write a book to give to family and friends. You may be looking to gain the credibility that publishing a book gives a speaker or workshop leader. You may have other reasons for publishing your book. No matter your reason, this book will answer many of your self-publishing questions, point you in the right direction and get you started. In short, as the title says, this book will help you produce, price and promote your self-published book.

There is much attention currently being given to argument-based inquiry in national and state curriculum documents. Students are being required to be able to generate and evaluate science knowledge, and to think critically and judge the value of evidence and explanations. The intent of the book is to provide a rich and broad view of the impact of argument-based inquiry in the elementary classrooms from the perspective of the teacher. All the teachers and professional development authors were engaged in promoting and using argument based inquiry as the approach to teaching science. They were implementing the Science Writing Heuristic (SWH) approach as the argument based approach for classroom practice. As researchers we constantly work to present our views of these experiences with the voice of the teachers only being relayed through the

perspective of the researcher. The intent of this book is to provide an opportunity for us as a community to listen to what the teachers are telling us. Importantly as demands are being placed on classroom experiences that provide opportunities for students to pose questions, make claims, and provide evidence, that is, to think critically and reason like scientists, we need to understand what this looks like from the perspective of the teacher. This book brings together a range of elementary teachers from kindergarten through to year 6 who have used the Science Writing Heuristic approach to teach argument-based inquiry. These teachers have all gone through professional development programs and successfully implemented the approach at a high level.

In november 1959 leest Truman Capote in The New York Times een bericht over het boerengezin Clutter in Holcomb, Kansas, dat brutaal wordt uitgemoord door twee jonge criminelen. Hij stort zich op de zaak en besluit deze tot het onderwerp te maken van een roman. Zes jaar lang doet hij onderzoek, hij interviewt alle betrokkenen en begeleidt de moordenaars tijdens hun laatste gang naar hun executie op 14 april 1965. In koelen bloede is de magistrale reconstructie van een gruwelijke moordzaak, waarin Capote de kunst van de romanschrijver paart aan de techniek van de journalist. Met de publicatie in 1965 van dit overrompelende boek was een nieuw literair genre geboren: de non-fictieroman, ook wel *faction* geheten. Capote laat zien hoe één enkele daad van stompzinnig geweld talloze levens voor altijd verandert. *Talk for Writing across the Curriculum* takes a dynamic and creative look at how writing non-fiction can be taught across

the curriculum.

This bestselling resource has been fully updated, putting formative assessment at the heart of the Talk for Writing process and showing how to help children love writing across the curriculum. By helping children speak the language of non-fiction in a fun engaging way before they attempt to write, the Talk for Writing approach builds children's confidence and linguistic ability enabling them to craft their own writing. In the new edition, this practical resource offers:

- Fully worked, tried and tested examples of how to apply Talk for Writing to each non-fiction text type
- A wide range of fun activities helping children internalise how to express and link text effectively
- A process that co-constructs learning so that children learn how to structure text and create toolkits of key ingredients
- Guidance for teachers in England on how to apply the approach across the primary curriculum
- An OLC including new footage of Pie Corbett demonstrating Talk for Writing and new footage of classes engaged in the approach
- Advice on how to use the DVD and handouts to train all staff in the approach
- Evidence of impact from cold to hot tasks

Designed for busy teachers, Talk for Writing across the Curriculum, second edition, will help transform children's writing and attainment across the curriculum. "This book celebrates the importance of talk in becoming and growing as a writer: talk to share ideas; talk to analyse text; talk to co-construct writing; and to talk to evaluate writing. Throughout the book constantly underlines the importance of talk for learning and the many creative and rich ways talk can be used to help young writers internalise the rhythms and patterns of text. Full of practical ideas and activities, the teaching combines being creative and being critical in a wholly integrated way. An invaluable resource for primary school teachers!" Debra Myhill, Professor of Education at the University of Exeter, UK "The teaching of reading has always

taken priority in policy and practice in literacy. Pie Corbett and Julia Strong have produced a very welcome counterweight to that dominance in their Talk for Writing Across the Curriculum. It is so refreshing to see suggestions for teaching to bring elements of language together, especially when done in such an entertaining and engaging way as this. This new edition makes a 'classic' even better." David Wray, Emeritus Professor, University of Warwick, UK "This latest update of Pie and Julia's best-selling book reflects changes in the curriculum, strengthening the T4W approach, using cold and hot tasks, showing new worked examples of how to apply T4W to each non-fiction type and placing formative assessment at the heart of the process. It is exciting to see how all the best ideas and findings in education are converging, evidenced in this latest 'up to the minute' excellent publication." Shirley Clarke, Formative Assessment Expert

Als jouw zorgen over de opwarming van de aarde zich beperken tot angst voor de stijgende zeespiegel, dan zie je slechts het topje van de ijsberg. Het is veel, veel erger dan je denkt. Klimaatverandering wordt vaak beschouwd als een langzaam proces, maar de onheilspellende effecten ervan zien we nu al: hete zomers, grote droogte, allesverwoestende overstromingen en orkanen. Natuurrampen die zich vroeger maar één keer in een mensenleven voltrokken, overvallen de mensheid tegenwoordig jaarlijks. In *De onbewoonbare aarde* brengt David Wallace-Wells de laatste wetenschappelijke inzichten samen tot een schokkende aanklacht: we slagen er maar niet in om een betere toekomst voor ons te zien, laat

staan dat we naar zo'n idee handelen. Wallace-Wells luidt de alarmklok en vertelt ons alles wat we niet willen maar wel moeten weten over klimaatverandering. Als we onze aanpak van dit probleem en onze manier van leven niet snel veranderen, zullen delen van de aarde door desastreuze ontwikkelingen in de nabije toekomst onbewoonbaar worden. Er is meestal maar een klein zetje nodig om de bal aan het rollen te krijgen. Wie het beslissende moment herkent, heeft een recept voor succes in handen. Hoe wordt een onbekende debutant een bestsellerauteur? Waarom is een televisieprogramma als Sesamstraat zo goed om kinderen te leren lezen? Malcolm Gladwell onderzoekt waarom grote veranderingen vaak zo plotseling beginnen. Ideeën, gedrag, meningen en producten verspreiden zich als ziektes. Zoals één zieke een griep epidemie kan starten, zo kan één graffitimaker de criminaliteit doen toenemen of één tevreden klant de lege tafels in een restaurant vullen. Het beslissende moment leest als een avonturenverhaal vol aanstekelijk enthousiasme over de macht van nieuwe ideeën. Het is een kaart voor verandering, met een hoopvolle boodschap: één creatieve persoon kan de wereld veranderen.

This accessible and wide-ranging book is an invaluable introductory guide through the choices to be made when deciding how to report research. *Writing and Presenting Research* covers research written as theses and dissertations; chapters, books, reports and articles in academic, professional or general media such as newspapers; and also reviews the options for presenting research orally as lectures, keynotes, conference papers and even TV game shows. These forms of reporting research have well-established conventions for their formats, but they also have growing numbers of alternative possibilities. This has generated debate about what is, or is not, acceptable, and the aim of this book is to make this debate more manageable for those wanting to assess which of the conventional or alternative possibilities on offer is most appropriate for reporting their current research. Arranged in easily followed sections enlivened with checklists, style variations, examples and reflection points, *Writing and Presenting Research* has relevance to the social sciences, arts, humanities, natural and applied sciences and law and is an invaluable reference tool for new and experienced researchers alike. In 'Diep werk' wijst Cal Newport op de noodzaak van geconcentreerd werken om maximaal te kunnen presteren, een vaardigheid die we langzaam zijn kwijtgeraakt. Newport gebruikte de term 'diep werk' voor het eerst op zijn populaire blog. Hij raakte een zenuw: Newport's artikelen over dit onderwerp werden honderdduizenden keren gelezen en overgenomen. De meeste mensen laten zich gemakkelijk onderbreken en besteden een groot deel van de dag aan oppervlakkige werkzaamheden. Dit boek bevat talloze inspirerende verhalen en praktische adviezen over hoe je je werk anders kunt organiseren om diep werk een vaste plek te geven. Want alleen door iets met volle aandacht te doen, ontwikkel je je denkkracht en bereik je meer in minder tijd.
