Teaching Poetry is an indispensable source of guidance, confidence and ideas for all those new to the secondary English classroom. Written by experienced teachers who have worked with the many secondary pupils who 'don't get' poetry, this friendly guide will help you support pupils as they access, understand, discuss and enjoy classic and contemporary poetry. With an emphasis on active approaches and the power of poetry to enrich the lives of both teachers and students, Teaching Poetry: Provides a succinct introduction to the major ideas and theory about teaching poetry Covers the key genres and periods through tried and tested favourites and a range of less well known new and historical poetry Illustrates good practice for every approach covered, through case studies of theory and ideas in action in the classroom Includes activities, ideas and resources to support teaching at Key Stages 3, 4 and 5. Teaching Poetry tackles head on one of the aspects of English teaching that new and experienced teachers alike find most difficult. It offers both a comprehensive introduction to teaching poetry and a rich source of inspiration and support to be mined when faced with an unfamiliar text or an unresponsive class.

Mary Brown's engaging book describes the 'lifeline' work of the prison chaplaincy. Written by a Quaker chaplain, it shows how important to prisoners this contact is and how it blends into the ever-pressing world of prison regimes. Among the topics covered are the 'statutory duties' of chaplains, forgiveness, 'prison chapel goers', Christmas in prison, delivering bad news, dealing with grief or anxiety, learning in prison and restorative justice (which is in line with the teachings of many faiths: as old as religion itself). As the author insists, there is 'that of God' to be found in everyone no matter what their crime.

Critical, perceptive and of particular interest to people working in or learning about crime and punishment, Confessions of a Prison Chaplain contains insights for people of all faiths (or none); looks at restorative justice and positive justice; and re-affirms the importance of pastoral support in the reform and rehabilitation of prisoners.

Professional poets spend many hours crafting a finished piece of work, yet we expect children in school to sit down and write when they are told to, whether they feel inspired or not. This series of four books is a toolkit to help you build a positive framework for children to read, write, understand and enjoy poetry - to bring a creative spark to the poetry classroom. A combination of featured poems, creative ideas, structured lesson plans and differentiated photocopiable activity sheets gives the series a uniquely flexible approach - which means you can use the materials in any classroom context. If you're wary of poetry, if you think it's boring, or if you're nervous about teaching poetry, then you've chosen the right book. Key themes covered in BOOK 2: Rhymes, Rhythms and Rattles are rhythm and rhyme in poetry, sounds, alliteration, words to create effects, onomatopoeia, and metaphor and simile. Other books in the series are: BOOK 1: Words and Wordplay; BOOK 3: Style, Shape and Structure; and BOOK 4: Language and Performance.

The first poem I remember writing was school work at the age of ten, about King Canute. The teacher, I think, felt like the King, unable to hold back the tide. The stanzas, like waves, kept coming. Later, English was my main subject in which I got a Degree. However, I chose to teach juniors rather than English at a higher level, perhaps fearing frustration? If anyone asked me the question they asked Mr. Chipping, I would have answered as he did Hundreds of them and all boys. I had a memorable experience at a Summer School at Reading University when I recited two of my bereavement poems. You won't cry, will you? the tutor asked me beforehand. No, I replied, But they will, I could have added with hindsight Every cloud can have a silver lining yes, a good poem. It is good to make people laugh and I do like to, but I prefer the salt in tears crisps and salted peanuts rather than jelly or sweet biscuits at a party. However, in Not Daffodils, I have, as it were, held a mirror to a known poem and reflect its beauty as in Lea-Creaver and Shut Out, more often, humorously to distort it.

Horace lived at a pivotal moment. Rome was facing a profound crisis: though it ruled the world, the values which had made it great were disintegrating. As efficiency and pragmatism became watchwords, Horace championed the 'supremely useless' endeavour of poetry, and glorified friendship and wine. Horace and Me charts Harry Eyres' evolving relationship with the Latin poet to show how, in an era of affluence and excess which seems to be hurtling out of control, Horace can help us navigate our way in uncertain times.

Too often the teaching of poetry is divided into the reading of poetry and the writing of poetry. This division is strange and illogical because the two activities are not only linked, but intermeshed. This book will be an attempt to show how indispensable reading poetry is to writing it and vice versa. The text will be divided into three sections. The first section will be comprised of advice from his own experience on reading poetry to children at KS1 and KS2. The second section will comprise of case studies of children responding to poetry and will show how much children can actually understand. The last section will be comprised of a case study of children writing poems.

This volume recognizes that the most challenging aspect of introducing students to anglophone Caribbean literature--the sheer variety of intellectual and artistic traditions in Western and non-Western cultures that relate to it--also offers the greatest opportunities to teachers. Courses on anglophone literature in the Caribbean can consider the region's specific histories and contexts even as they explore common issues: the legacies of slavery, colonialism, and colonial education; nationalism; exile and migration; identity and hybridity; class and racial conflict; gender and sexuality; religion and ritual. This volume considers how the availability of materials shapes syllabuses and recommends print, digital, and visual resources for teaching. The essays examine a host of topics, including the following: the development of multiethnic populations in the Caribbean and the role of various creole languages in the literature oral art forms, such as dub poetry and reggae music the influence of anglophone literature in the Caribbean on literary movements outside it, such as the Harlem Renaissance and black British writing Carnival religious rituals and beliefs specific genres such as slave narratives and autobiography film and drama the economics of rum Many essays list resources for further reading, and the volume concludes with a section of additional teaching resources.

How to Teach Poetry Writing at Key Stage 3 is a practical manual for teachers, to be used directly in the classroom. The book begins with a series of poetry games designed to warm up creativity and strengthen the imagination. These are followed by a series of creative poetry workshops, based on the writer's own experience both as a teacher and poet running workshops in schools, which focus on developing a 'poetry base' for young writers. This imaginative base provides a range of poetic techniques and gives pupils experience in developing a repertoire of different forms. The book also offers advice on how to organize an effective workshop, and demonstrates how to teach poetry writing in a dynamic, creative and imaginative way in relationship with the KS3 national framework. Pie Corbett also provides useful advice on working with visiting poets in school, addresses for relevant web-sites, a list of books for follow-up work and a glossary of poetic forms and techniques. Workshops include writing from first hand observation; autobiography - valuing our lives; writing about paintings, sculpture and music; surreal boxes and the bag of words; secrets, lies, wishes and dreams; creating images, taking word snapshots; riddles - hiding the truth; and red wheelbarrows and messages for mice.

Discusses children's poetry, the techniques and forms of poetry, and related topics, and provides advice for teachers on such aspects of using poetry in the classroom as reading aloud, dramatization, and student poetry writing.

Breakfast Served Any Time All Day collects forty years of writings on poetry in one essential volume by master of American letters Donald Hall. Praise for Breakfast Served: ". . . the essays in this book are engaging, passionate, strange, and unified. Hall has been around a long time, and you can trace the concerns of a generation through the mind of this one man: questions about the diminished scope of poetry, the diminished ambitions of poets, how a poem 'means,' etc. . . . Criticism . . . is an exercise in sanity, of which these essays are a splendid and useful example." -Poetry "A luminous and essential volume about the sensuality of language, its pleasures and sounds." -Ploughshares "It is in this merger of a poet's biography and a poem's body that Hall does his best work. . . . [Breakfast Served Any Time All Day] has an undeniably infectious quality to it. Finishing it, you cannot help but want to return to your bookshelf, and read-again or for the first time-the great forgotten poems of our past." -Nathan Greenwood Thompson, Rain Taxi

Many teachers and pupils find poetry problematic. Andrews argues that we can make poetry accessible to children, we can build bridges between written and oral forms, and that all children can benefit from writing poetry alongside reading and discussing it; and one of the distinguishing features of this book is its focus on the importance of rhythm in poetry. From the time of John Milton to that of William Blake, the literature of Britain absorbed the impact of two major military developments. In the early modern era, the military revolution strove to establish permanent armies under state discipline and, in England, the resistance to this development exhibited in the controversy over standing armies. In this penetrating and highly original study, Gordon demonstrates that military debate, encouraged by Britain's semi-secure insular situation, had a remarkable impact on the British imagination and its narratives. Affected were structure and closure; character evaluation; heroic and mock-heroic styles; attitudes toward love and marriage; and the roles of locality and environment in the shaping of the national and personal character. More remarkable still, these effects signaled the emergence of a civilian consciousness that still influences our literary preference and expectations.

Children should hear poetry read, and grow in their understanding and appreciation of it, so that they enjoy it enough to read it themselves.

Nick Cave is now widely recognized as a songwriter, musician, novelist, screenwriter, curator, critic, actor and performer. From the band, The Boys Next Door (1976-1980), to the spoken-word recording, The Secret Life of the Love Song (1998), to the recently acclaimed screenplay of The Proposition (2005) and the Grinderman project (2008), Cave's career spans thirty years and has produced a comprehensive (and sometimes controversial) body of work that has shaped contemporary alternative culture. Despite intense media interest in Cave, there have been remarkably few comprehensive appraisals of his work, its significance and its impact on understandings of popular culture. In addressing this absence, the present volume is both timely and necessary. Cultural Seeds brings together an international range of scholars and practitioners, each of whom is uniquely placed to comment on an aspect of Cave's career. The essays collected here not only generate new ways of seeing and understanding Cave's contributions to contemporary culture, but set up a dialogue between fields all-too-often separated in the academy and in the media. Topics include Cave and the Presley myth; the aberrant masculinity projected by The Birthday Party; the postcolonial Australian-ness of his humour; his interventions in film and his erotics of the sacred. These essays offer compelling insights and provocative arguments about the fluidity of contemporary artistic practice.
