multidisciplinary perspectives such as health and safety, climate change, policy and regulation and the recreation/leisure context. It further reveals critical management issues of economic, environmental and socio-cultural impacts related to scuba diving tourism which extends to the influence of climate change on the industry's operations and future. This significant volume which conceptualizes the issues surrounding scuba diving tourism now and in the future is written by leading experts in this field and will be valuable reading for all those interested in marine leisure and tourism.

Well-travelled divers all acknowledge that the best diving in the world is found in the warm waters of tropical Asia. No other region on earth presents such a rich variety of marine life, and none can boast as many different types of dive sites: tiny, isolated atolls, World War II wrecks draped in beautiful soft corals, shallow, bommie-filled fringing reefs and pinnacles, all swarming with fish and vibrant color. Diving in Southeast Asia is a comprehensive diving guide covering Indonesia, Malaysia, the Philippines, and Thailand. It presents in great detail the very best dive sites in the tropical western Pacific. Our seasoned diver-authors have an aggregate half-century of experience exploring these waters, and each site receives thorough coverage, including detailed maps, color photos, and a full description of access, conditions, and facilities. This Southeast Asia diving guide features: Practicalities: Detailed travel information for every budget, including accommodations, transportation, prices, seasons, and dive operators. Information: Local history, diving lore, site conditions, and more than 50 maps. Photography: More than 100 color photographs by top photographers.
