Nineteenth-century British periodicals for girls and women offer a wealth of material to understand how girls and women fit into their social and cultural worlds, of which music making was an important part. The Girl's Own Paper, first published in 1880, stands out because of its rich musical content. Keeping practical usefulness as a research tool and as a guide to further reading in mind, Judith Barger has catalogued the musical content found in the weekly and later monthly issues during the magazine's first thirty years, in music scores, instalments of serialized fiction about musicians, music-related nonfiction, poetry with a musical title or theme, illustrations depicting music making and replies to musical correspondents. The book's introductory chapter reveals how content in The Girl's Own Paper changed over time to reflect a shift in women's music making from a female accomplishment to an increasingly professional role within the discipline, using 'the piano girl' as a case study. A comparison with musical content found in The Boy's Own Paper over the same time span offers additional insight into musical content chosen for the girls' magazine. A user's guide precedes the chronological annotated catalogue; the indexes that follow reveal the magazine's diversity of approach to the subject of music.

Reprint of the original, first published in 1867.

What is music -- where does it come from and what does it mean? If music is in the background, and no one listens to it, does it still exist? Why do composers write music, and how do they learn their profession? What about Canadian music -- a regional dialect of this "universal language"? How has it been created inside the country -- how well is it understood abroad? Music papers are reflections from a life of composing and teaching. These articles, talks and reviews, whether intended originally for general or professional audiences, communicate a passion for music rooted in a North American culture and place, informed by long and loving familiarity with masterpieces from elsewhere. Also included are alternative versions of the early life of Glenn Gould, proofs of the existence of musical life in Toronto, and some questions still unanswered.

Looking for a notebook/journal for your musical compositions and notes? This special blank music sheet is made for musicians like you. With 12 staves for each page and with enough space in between staves you can write in your notes and lyrics. Create your musical compositions with this blank music sheet. This book is a work of press history that considers how the music press represented permissive social change for their youthful readership. Read by millions every week, the music press provided young people across the country with a guide to the sounds, personalities and controversies that shaped British popular music and, more broadly, British culture and society. By analysing music papers and oral history interviews with journalists and editors, Patrick Glen examines how papers represented a lucrative entertainment industry and mass press that had to negotiate tensions between alternative sentiments and commercial prerogatives. This book demonstrates, as a consequence, how music papers constructed political positions, public identities and social mores within the context of the market. As a result, descriptions and experiences of social change and youth were contingent on the understandings of class, gender, sexuality, race and locality.
