"Het is volle maan maar de zware bewolking en lichte regen belemmeren het zicht. De vuurtoren zwaait met vaste regelmaat haar licht over het trieste schouwspel. Het licht van mijn hoofdlamp gaat verloren in het donker. Langzaam begint het tot me door te dringen dat een stuk van mijn leven wordt afgesloten". In "SoloMan" herbeleeft Jack van Ommen zijn ongelooflijk avontuur dat begon aan de Amerikaanse westkust en negen jaar later tot een voorlopig einde kwam in een wilde storm in de Middellandse Zee. Hij begon zijn droom in een negen meter zeilboot met \$150 op zijn bankrekening. Na 51 landen en 48.000 zeemijlen in het kielzog, komt er een abrupt einde aan zijn ontdekkingsreis. Hij verliest zijn boot en al zijn bezittingen. Dit is het verhaal van een levensveranderende ervaring op zee en hoe hij tegenslagen te boven komt met doorzetten, hoop en houvast in zijn geloof in God en mensheid. Jack van Ommen, Amsterdam 1937. Here are eight wonderful stories and two evocative poems for cat-people of all ages, including "The Hemingway Kittens," "Cat in the Box," "...And Mongo Was His Name-O," "The Cat Tracker Lady of Asad Alley," "The Cat with the Tulip Face," "A Little Pinch Is All You Need," "Hunger," "White Comma," "No Heaven Will Not Ever Heaven Be...," and "Universes." As Robert Reginald says in his Introduction: "This is a woman of enormous talent, whose fiction is utterly without compare among modern American masters. She sees things that no one else sees, she finds connections that no one else has ever imagined, and she makes her prose sing and vibrate with a barely constrained but firmly disciplined power, with immense feeling, with great sympathy for the all-too-human characters who people her literary worlds." And, we should add, she has an understanding for cats that will be recognized by every reader who's ever taken in a stray, starving kitten scratching at his or her door. Great feline fancies and fantasies!

Het bos waarin de negentienjarige Feyre woont is in de lange wintermaanden een koude, sombere plek. Haar overlevingskansen en die van haar familie berusten op haar vermogen om te jagen. Wanneer ze een hert ziet dat opgejaagd wordt door een wolf kan ze de verleiding niet weerstaan om te vechten voor de prooi. Maar om te winnen moet ze de wolf doden en daarop staat een prijs. Niet veel later verschijnt er een beestachtig wezen om vergelding op te eisen. Wanneer ze naar het gevreesde feeënrijk Prythian wordt gesleept, ontdekt Feyre dat haar ontvoerder geen beest is, maar Tamlin – een van de dodelijkste, onsterfelijke magische wezens ooit gekend. Terwijl ze op zijn landgoed verblijft, veranderen haar ijzige vijandige gevoelens voor Tamlin in een vurige passie die elke leugen en waarschuwing over de mooie, gevaarlijke wereld van de Elfyden in rook doet opgaan. Maar een oude, kwaadaardige schaduw groeit over het land, en Feyre moet een manier vinden om het te stoppen of Tamlin en zijn wereld zullen voor eeuwig verdoemd zijn.

Are you online and ready for global smart card and database genealogy for virtual travelers? Here's how to search family history for nations bordering the Baltic Sea, the Balkans countries, Scandinavia, Eastern Europe, and the Middle East. The nations listed in this guide (all faiths) include Finland, Sweden, Norway, Denmark, Iceland, Estonia, Latvia, Lithuania, Poland, Armenia, Assyria, Greece, Lebanon, Syria, and many other lands in the Middle East, the Balkans-Croatia, Macedonia, Bulgaria, Eastern Europe-Hungary, and more. Collecting details about people is moving toward smart card technology and its offspring. The new wave in genealogy is authentication technology. Authentication begins with new-wave technology used to gather population registers. Compare the new technology to the old method of door-to-door census taking, tombstone tracings, and city directory publishing. No, genealogists are not using smart cards this year, but smart card technology is being used to compile population registers in Europe. The future holds a new wave of technology used for authentication for banking transactions being applied to other areas. Currently this technology is used for collecting details for population registrars such as census taking. The application for research is of interest to family historians, librarians, and governments. It's already in use by private industry for electronic authentication. Family history is now about intelligent connections, whether it's a population registrar, census detail, or electronic identity for banking. Smart card genealogy began in 1998 in Finland with governments seeking to put census and population registers in an electronic form that would be available to researchers, and these applications are going global.

When a reader picks up a book, the essence of the text has been translated into the visual

space of the cover. Using Umberto Eco's bestseller *The Name of the Rose* as a case study, this is the first study of book cover design as a form of intersemiotic translation based on the purposeful selection of visual signs to represent verbal signs. As an act of translation, the cover of a book ought to be an 'equivalent representation' of the text. But in the absence of any established interpretive criteria, how can equivalence between the visual and the verbal be determined and interpreted? *Re-Covered Rose* tackles this question in an original and creative way, laying the foundation for a new research trend in Translation Studies. Marco Sonzogni is Senior Lecturer in Italian, School of Languages and Cultures, Victoria University of Wellington, New Zealand. A widely published academic and an award-winning editor, poet and literary translator, he is the Director of the New Zealand Centre for Literary Translation/Te Tumu Whakawhiti Tuhinga.

Calling all writers! *10 Secrets to a Bestseller* is the self-publishing guide you've been looking for. Whether you've dreamed of writing the Great American Novel, have a series of techno-thrillers in your drawer, or are drafting a self-help fitness book, you know in your heart of hearts that you're a writer. You know it because you have always felt the drive to write; because you're constantly coming up with new ideas; because you have something to say to the world . . . The only problem is getting the world to listen. That's where *10 Secrets to a Bestseller: An Author's Guide to Self-Publishing* comes in. Thoughtfully crafted by Tim McConnehey, the creative force behind numerous award-winning and bestselling books, this in-depth, approachable guide will help you navigate the complex world of self-publishing, from crucial steps like researching your market and designing a great cover, to challenges like finding the right editor. In the past, authors were limited to a fine chemistry between themselves, an agent,

and a publisher, and the selling process became increasingly focused on the commercially viable (as defined by the editor, marketing . . . everyone but the reader). Now, a diversity of self-publishing options has opened up a whole new world to aspiring authors where they can reach their readers directly—but a world so diverse it can be bewildering. McConnehey helps you make sense of the process involved in bringing your book to market. Looking at real-world success stories from his self-publishing company, Izzard Ink, you'll learn the added value of professional design, what should be on your pre-publishing checklist, why proofreading is an essential (though often overlooked) step, how to market and distribute your book in ways proven to maximize your sales, and much more. Whether you're just beginning to outline your first memoir or you're well into your fifth novel, *10 Secrets to a Bestseller* will help you get your work into the hands of readers and take your writing career to the next level. Praise for Tim McConnehey and Izzard Ink "I have worked with the world's leading multinational companies for my books, as well as managing my many speaking engagements. Izzard Ink's consultation services were some of the best. I am especially grateful for the guidance with my website and social media marketing campaigns. Izzard Ink's focus is on building authors and people. I would recommend Izzard Ink for any published or non-published author, regardless of the phase they are in the process."--Dan Clark, New York Times bestselling author of *The Art of Significance*, National Speaker Association Hall of Fame "My husband, W. Cleon Skousen, wrote several books, including *The Naked Communist* and *The Naked Capitalist*. We were so happy when each of those became bestsellers. I was told that, at last count, those two books had sold more than two million copies combined. I've had Izzard Ink refresh five of Cleon's books and all of them turned out crisp and new and attractive."--Jewel P. Skousen, editor and

spouse of USA Today and New York Times bestselling author W. Cleon Skousen "I am a self-publishing author/publisher and have had the best experience, bar none, with the Izzard Ink group. They are the best bunch of hard-working professionals that I have ever had the privilege of working with; I would recommend them to anyone looking to design a cover, create a beautiful interior, and I would recommend them for all your creative publishing needs. Tim McConnehey has held my hand through the entire process and answered my questions at all hours of the day and night. I couldn't be more pleased with the results."--Diane Merrill Wigginton, author and owner of Jeweled Dagger Publishing "I owe my new friends at Izzard Ink a tremendous debt of gratitude. They walked me through self-publishing 101 and helped me turn my non-sellers into great sellers. One title was a bestseller on Amazon. Until I met Izzard, I didn't know how little I knew about post-writing development to produce a polished, professional-looking book. They cared about making me a success. And where some prior efforts produced a couple of duds, they guided me to help so I could repair the flaws and try again. It was worth it. Highly recommend Izzard Ink. Sometimes you just need somebody who knows the way."--Paul Skousen, bestselling author and former White House CIA analyst "Working with Tim was as effective as it was enjoyable. As a first-time author speaking on the phone with Tim for the first time, one of the first things he said to me was, 'I just want to see your book be successful.' That simple statement was the clear motivation of every interaction we had from that very first conversation all the way to me holding a finished copy of my book in my hands. It is immediately clear when speaking with Tim that his knowledge of this business is only surpassed by his willingness to help. I couldn't be more satisfied and grateful for his help to make my book a reality. I would recommend Izzard Ink to anyone and everyone without

any hesitation. Tim and the Izzard Ink team offer professional advice and hands-on help that truly does range from A to Z."--Robbie Tripp, public speaker and author of *Create Rebellion*

"The Honeymoon's Over!" "It's not as if we married for the usual reasons!" Briony protested as Finn Lawrence carried her off on their honeymoon.... This book explores how military memoirs come to be written and published. Looking at the journeys through which soldiers and other military personnel become writers, the authors draw on over 250 military memoirs published since 1980 about service with the British armed forces, and on interviews with published military memoirists who talk in detail about the writing and production of their books. A range of themes are explored including: the nature of the military memoir; motivations for writing; authors' reflections on their readerships; inclusions and exclusions within the text; the memories and materials that authors draw on; the collaborations that make the production and publication of military memoirs possible; and the issues around the design of military memoirs' distinctive covers. Written by two leading commentators on the sociology of the military, *Bringing War to Book* offers a new and original argument about the representations of war and the military experience as a process of social production. The book will be of interest to students and scholars across a range of disciplines

This is life. Clear and open and exact details into my life, very transparent it is; however, its for God's glory, so its a must I show my readers that I not just know what I'm talking about, I've lived what I'm talking about and survived what I'm talking about. Heeft Tolstoj Anna Karenina echt beschreven? Heeft Melville ons ooit precies laten weten hoe Ismaël eruitzag? Of Faulkner zijn personage Benjy Compson? De verzameling van versplinterde beelden in een boek – hier een sierlijk oor, daar een losgeraakte krul, een zwierig opgezette hoed – en andere hints en aanwijzingen helpen ons lezers om een beeld van een personage of van de setting te krijgen, zonder dat de schrijver het expliciet beschrijft. Sterker nog: dit is precies wat lezen zo leuk maakt. Aan de hand van talloze voorbeelden uit de wereldliteratuur laat dit schitterende en rijk geïllustreerde boek zien hoe dit unieke visuele proces van de lezer werkt. Peter Mendelsund is de huisontwerper van uitgeverij Alfred A. Knopf en voormalig pianist. Hij ontwierp omslagen voor onder anderen Martin Amis, Stieg Larsson, David Mitchell en Kazuo Ishiguro. The Wall Street Journal heeft zijn ontwerpen omschreven als 'de herkenbaarste en meest beeldende boekomslagen in hedendaagse fictie'.

We all know we're not supposed to judge books by their covers, but the truth is that we do just that nearly every time we walk into a bookstore or pull a book off a tightly packed shelf. It's really not something we should be ashamed about, for it reinforces something we sincerely believe: design matters. At its best, book cover design is an art that transcends the publisher's commercial imperative to reflect both an author's ideas and contemporary cultural values in a vital, intelligent, and beautiful way. In this groundbreaking and lavishly illustrated history, authors Ned Drew and Paul Sternberger establish American book cover design as a tradition of sophisticated, visual excellence that has put shape to our literary landscape. *By Its Cover* traces the story of the American book cover from its inception as a means of utilitarian protection for the book to its current status as an elaborately produced form of communication art. It is, at once, the intertwined story of American graphic design and American literature, and features the work of such legendary figures as Rockwell Kent, E. McKnight Kauffer, Paul Rand, Alvin Lustig, Rudy deHarak, and Roy Kuhlman along with more recent and

contemporary innovators including Push Pin Studios, Chermayeff & Geismar, Karen Goldberg, Chip Kidd, and John Gall.

Here are 102+ ways to use training in family history and genealogy when applied to real-world careers in education, business, or government, including creative entrepreneurial start-ups. With the future marriage of genealogy to smart cards, online databases, or similar authentication technology for family history, population registration (census), and library research, it may be easier to research family lines, not only by DNA matches through DNA testing for deep ancestry, but also with smart, electronic cards designed for electronic identity. It's also a way to track military records as another way to trace family history. Careers and research may focus on various state libraries or historical associations. History and family studies are part of an interdisciplinary liberal arts program that emphasizes research and writing. Journalism courses help round out your ability to express in plain language the results of your reading, explorations, and interpretations. Obtaining a degree or even taking one course or self-study in Family, Public, or Social History can lead to broad, interdisciplinary careers. Graduate work in library science, law, journalism, public history, or genetics counseling (with a double major in the life sciences and social work) also lead to careers in which an historical education may be used.

This book advocates for a new analytical framework that extends our understanding of multimodal meaning-making in the novel. Integrating theoretical

traditions from stylistics and the influential social semiotic approach to multimodal communication developed by Kress and van Leeuwen, Nørgaard applies this method of analysis in order to build on existing stylistic practices that look at linguistic features in the novel to encompass other semiotic resources found in the form, such as typography, layout, images, paper and book-cover design. The volume grounds the discussion with supporting examples from novels that feature experimentation with multiple semiotic resources as well as more traditional novels, furthering the argument that all novels are inherently multimodal. Offering new insights and tools for unpacking multimodal meaning-making in this critical literary genre, this volume is an indispensable resource for graduate students and researchers in multimodality, stylistics and literary studies. Preservation: Issues and Planning provides a definitive and authoritative analysis of how to plan for and ensure the long-term health of an institution's collection in this digital age.

This intriguing book examines how material objects of the 20th century—ranging from articles of clothing to tools and weapons, communication devices, and toys and games—reflect dominant ideas and testify to the ways social change happens. • Supplies numerous examples of the ways in which American innovation depended on immigrants who invented new technologies and contributed immeasurably towards a uniquely powerful American economy • Demonstrates how American material life was created through globalization, from products imported into this country, such as Atari's video game console, to American products dependent upon imported materials, such as American cigarettes that used imported tobacco, and the coffee percolator on the kitchen table, serving up imported brewed coffee beans • Highlights how the ongoing struggle to achieve true equality and democracy is evidenced through objects such as a voting machine from 1900, the bus that Rosa Parks boarded, the buttons worn by gay rights activists, and the robe Muhammad Ali, a converted Muslim American, fought in—material items that played a role in the ongoing project of American political life
