James Rachels's philosophical writings address key questions of contemporary life and the classic dilemmas of moral philosophy. A leading figure in the development of applied ethics, James Rachels became an influential and sometimes controversial thinker on issues concerning animal rights, euthanasia, bioethics, and moral objectivity. This final collection of James Rachels's work brings together fourteen essays that best summarize Rachels's philosophical positions. The essays also shed new light on the depth and breadth of Rachels's work and its importance for contemporary philosophy. Written in Rachels's characteristically lucid, literary prose, these essays address the relationship between morality and reason, the duty to relieve both human and animal suffering, the independence of morality from religion, the rejection of relativism and egoism, and the role of ethics in a democratic society. Rachels offers an argument for vegetarianism, examines a controversial case involving a surrogate mother, and speculates on the ethics of political killing. Other essays range from Rachels's interpretation of Nietzsche's philosophy to his appreciation of movies. Rachels was a strong believer in the ability of moral philosophy to improve our lives. This collection, which brings these important works together for the first time, is a testament to both the value of moral philosophy in understanding our world and the richness of Rachels's contributions to this understanding.

Problems from Philosophy is an introduction to philosophy which is organized around the great philosophical problems—the existence of God, the nature of the mind, human freedom, the limits of knowledge, and the truth about ethics. It begins by reflecting on the life of the first great philosopher, Socrates. Then it

takes up the fundamental question of whether God exists. Next comes a discussion of death and the soul, which leads to a chapter about persons. The later chapters of the book are about whether objective knowledge is possible in science and ethics. Each chapter is self-contained and may be read independently of the others. Problems from Philosophy represents the final work of author and philosopher James Rachels. In it, he brings the same liveliness and clarity to the introduction of philosophy that he brings to his best-selling ethics text, The Elements of Moral Philosophy. The second and third edition have been revised by Rachels' son Stuart, who carefully has carefully refined his father's work to further strengthen its clarity and accessibility.

Filosofie voor beginners maakt op een uitermate originele wijze de leek wegwijs in de filosofie, een terrein dat veel mensen direct geneigd zijn als 'moeilijk' te bestempelen. Filosofie voor beginners verklaart en illustreert - het boek bevat zo'n driehonderd originele tekeningen van de auteur - moeilijke filosofische begrippen op een manier die ze toegankelijk maakt voor degene die weinig of niets van filosofie afweet. De tekeningen hebben een cartoonachtig karakter en zijn juist daardoor een goede hulp bij het verhelderen van complexe filosofische begrippen en theorieën. Filosofie voor beginners geeft een beknopte inleiding in de filosofie. Het begint bij de oude Grieken en schetst de verdere geschiedenis van de filosofie tot en met de behandeling van eigentijdse filosofen. Een docent filosofie over dit boek: 'Zo kan dit boek de leemten vullen in de bibliotheken van het voortgezet onderwijs, maar ook in de boekenkasten van tieners en volwassenen.'

"This [text] is an introduction to some of the main problems of philosophy—the existence of God, the nature of the mind, human freedom, the limits of knowledge, and the truth about ethics. The chapters may be read independently of one another, but when read in order, they tell a more or less continuous story. We begin with some reflections on the life of Socrates and then go on to the existence of God, which is the most basic philosophical question, because our answer to it affects everything else. This leads naturally to a discussion of death and the soul, and then to more modern ideas about the nature of persons. The later chapters are about whether we can have objective knowledge in either science or ethics." -from the Preface Problems from Philosophy represents the final work of author and philosopher James Rachels. A selective bibliography is appended as a guide to further reading. *Ethical Theory 1: The Question of Objectivity* deals with the question of objectivity in ethics and the viability of moral realism, focusing on what moral judgments mean, whether morality can be objective, and whether there are any such things as moral facts.
