Gospel Shaped Church is a curriculum from The Gospel Coalition that will help whole congregations pause and think carefully and prayerfully about the kind of church they are called to be. This seven-week whole-church curriculum explores what it means to be a worshiping community. The Leader's Guide contains everything you need to lead this flexible course. Christians are people who have discovered that the one true object of our worship is the God who has revealed himself in and through Jesus Christ. For most believers, worship is what happens for an hour on Sunday morning as we sing and pray together. But the Bible reveals a much bigger vision for what worship really is and how it should shape our lives. So what exactly is worship? What should we be doing when we meet together for "church" on Sundays? And how does that connect with what we do the rest of the week? As we search the scriptures together we will discover that true worship is more than this-it is to encompass the whole of life. This engaging and flexible resource will challenge us to worship God every day of the week, with all our heart, mind, soul and strength. This flexible resource will train your whole church through teaching, preaching, daily reading and small-group

Nanotechnology means that we can design and build materials from the ground up, atom by atom, to exact design specifications. If Levi's came to dominate the jeans market because they used nanostructured materials that have a softer feel than cotton, won't wrinkle, and can prevent stains, what happens to the denim sector? What about the local dry cleaner and laundry detergent makers? Uldrich and Newberry teach readers how to think strategically about nanotechnology and how to apply this newfound knowledge to make wise and profitable investment decisions. They will chronicle the factors driving nanotechnology's rapid developments and detail the events, forces and people who will usher in the next revolution.
