In the past, assessment was underplayed or neglected in the training of physical education teachers. Physical education lay, largely, outside of school's formal structures of assessment, and books on assessment completely ignored this area of the school curriculum. This book examines in detail the issues as they affect teachers.

Written in a user-friendly style with lively features to guide students through the course. Fully revised throughout and contains new chapters on Understanding the Public Sector and Teamwork in the Public Services. Completely re-structured to cover the new grading criteria. Letterkunde, taalkunde, geschiedenis, theologie, filosofie: ze behoren alle tot de geesteswetenschappen. Hebben deze vakgebieden in al hun verscheidenheid iets gemeen wat ze onderscheidt van bijvoorbeeld natuurkunde of economie? De indeling van de wetenschappen in natuur-, geestes- en maatschappijwetenschappen lijkt vanzelfsprekend, maar is van recente datum en allerminst onomstreden. Dit boek beschrijft de invloedrijkste visies op wetenschappelijke kennis vanaf Aristoteles en Galilei tot aan Karl Popper en Thomas Kuhn, en de kennisidealen en stijlen van argumenteren die ze verwoorden. Vervolgens spitst het zich toe op de hedendaagse filosofische en methodologische visies op aard en culturele taak van de geesteswetenschappen, zoals logisch empirisme, hermeneutiek, kritische theorie, (post-) structuralisme en postkolonialisme. Wat dit boek - nog steeds - uniek maakt is de systematische aandacht voor de methodologische vragen en filosofische achtergronden van de geesteswetenschappen. Bestaande handboeken richten zich doorgaans op de natuurwetenschappen en in mindere mate de maatschappijwetenschappen, terwijl wij juist het

Annotation. This book has been written in response to a perceived need in initial teacher training to address the pedagogy of vocational programmes in the field as a vocational subject. It is not, therefore, a text book on physical education, but rather focuses on teaching and learning related to preparation for working in the industry.
