A First in a Series of Short Stories highlighting today's dynamic world and issues in perspective including mental health awareness a key aspect in the Authors thoughts and message. For all to enjoy and relate in a way that one can positively take away something from my writing to use in their day to day life happiness and motivation.

An idealistic young medical doctor, Giancarlo Avellino, inspired by a radical colleague, Sigismondo Malatesta decides that the biological hands of time can be scientifically reversed in the elderly, making them young again! Convinced that a combination of pharmaceutical compounds and nutraceutical dietary supplements may be one of the keys to the fountain of youth, he boldly decides to prove it, clinically treating five aging physicians and a sixth surprise volunteer. The results of the treatment at first seem promising, but then a mysterious death occurs, jeopardizing the program. The police and the FDA become involved, paving the way for the U.S. Congress to enter challenging the will of the young doctor to continue his couragous endeavor. Primarily conversational, the bulk of the story is concerned with addressing how people deal with this bold effort, describing their thoughts and their individual reactions to the turning back of their hands of time.

The School of Hard Knocks is A collection of funny, heartfelt, and serious pieces of advice being offered to those perhaps leaving home for the first time. From those of us who have lived it and learned the hard way. This book is intended to make us all aware we need to slow it down and consider the consequences we, and those around us may pay should we fall short on common sense.

People often asked him, why do they call you Lucky Phil?After two decades enjoying the freedom of an uneasy truce, the slow thaw between Sydney's two controlling underworld families is about to come to a sudden end. The time had come to settle some old scores, and for his plan to be foolproof, Irish born Patrick O'Finlay needed a fall guy. After twelve toxic years spent in foster care, and with no family, no friends and no clue, Phil Kelly looked like the perfect patsy. And now nine dealers lie dead in what the cops say was a drug deal gone wrong while the God's Garbage biker gang share a sworn oath to hunt down the man who murdered their Sergeant of Arms.Then Kelly meets the smooth-talking supermodel, Madeleine O'Hara, who weaves her seductive magic to dangle the one lure she knows Kelly cannot resist.Relying on just his street smarts, can Lucky Phil stay alive long enough to track down a possible sister he has never met? In his version of life, there is no grey, only answers in black and white. Bloodlines are strong, and payback can be a real bitch.

As redheaded orphans and hip-hop impresarios alike have observed, life can be full of hard knocks, challenges, and unlucky mishaps. But according to Ralph Parlette, these so-called obstacles often present us with the greatest opportunities for learning and growth. Originally a popular lecture-circuit presentation, this insightful text is chock-full of clever insights and inspirational truths.

"Most books about pension fund investing are theory. Rusty Olsons book is fact. Its a report from the frontlines of the management of pension fund assets at a time when new investment vehicles were being developed on a regular basis. Rusty and his crew at the Kodak fund were the pioneers who tried many of these new ideas, some of which flew while theirs crashed. This is a blow-by-blow account of the learning experience, the successes and failures (mostly successes), and the ultimate investment success of the Kodak fund. It should be read by anyone managing assets in a fiduciary capacity. Michael J. Clowes

May you enjoy this glimpse of the past and the thoughts and actions of an undisciplined, unsupervised little boy growing up in an era of history marked by many of the same fears and obstacles little boys and their families are facing today.

This important new history of the development of a leadership corps of officers during World War I opens with a gripping narrative of the battlefield heroism of Cpl. Alvin York, juxtaposed with the death of Pvt. Charles Clement less than two kilometers away. Clement had been a captain and an example of what a good officer should be in the years just before the beginning of the war. His subsequent failure as an officer and his redemption through death in combat embody the question that lies at the heart of this comprehensive and exhaustively researched book: What were the faults of US military policy regarding the training of officers during the Great War? In The School of Hard Knocks, Richard S. Faulkner carefully considers the selection and training process for officers during the years prior to and throughout the First World War. He then moves into the replacement of those officers due to attrition, ultimately discussing the relationship between the leadership corps and the men they commanded. Replete with primary documentary evidence including reports by the War Department during and subsequent to the war, letters from the officers detailing their concerns with the training methods, and communiqués from the leaders of the training facilities to the civilian leadership, The School of Hard Knocks makes a compelling case while presenting a clear, highly readable, no-nonsense account of the shortfalls in officer training that contributed to the high death toll suffered by the American Expeditionary Forces in World War I.

A nostalgic view of Collingwood Technical School, following the decision of the Minister of Education to close the school at the end of 1987. Enrollments fell from 800 in 1963 to 200 in 1985, to 100 in 1987. The school was opened around 1913.

Vicky Harris is a single parent of three children. She was inspired to write this book during the roughest time in her life, as she was striving to make her mark in this world in spite of numerous

trials and tribulations. Each day brought new challenges: her recovery from almost losing her oldest son during the Iraq War; the ups and downs of self-employment; the break-up with someone very dear in her life; and the lost connection with some of her dearest friends. However, being a soldier, she endured, and these were some of the words of inspirational wisdom that helped her through her daily struggles of being a mother, companion and friend. Her purpose for writing this book was for others to read and realize they're not alone in their struggles. Perhaps her words of inspiration can help pass along wisdom to others, reminding them to keep striving and DONT EVER GIVE UP!

Minister, Pastor, Teacher, Professor, School Administrator, Author, Father; gives a candid view of the life he has lead, describing the jolts and successes of his life. A story that provides a legacy to those who want to share his life. Well written. I enjoyed it thoroughly.

Level Three opens with the kids exciting two week trip to China where they spend time with students from six other schools. Besides learning the history, they get to experience much of it; symbolically, emotionally and visually. The High Judge makes his appearance as the overseer of all the schools. Sing's whole world is turned upside down the first day they arrive; only to be followed by the High Judge's instructions the kids will spend four days with personalities just like them. The surprises continue when they find out why they are called back to the school early. When they finally settle down for Level Three, they find a new instructor waiting for them. Professor Gobeyondthenorm is to be their meditation teacher for the rest of the levels. My musical compositions make their first appearance in Level Three with the words and music at the end of the book.

We have a sophisticated healthcare system in the United States. It is riddled with pitfalls that can lure the consumer into making costly mistakes. SCHOOL OF HARD KNOCKS exposes many of the mistakes that I made and hopefully will help others know the right questions to ask to avoid the difficulty path I was coerced into following by trusting my doctors to make decisions for me.

This is a story of an educator. A tough inner-city kid who eventually grew to be Principal, a job he never aspired. How life's experiences, the School of Hard Knock and life's peculiar twists of fate somehow predetermined that for short moment in time he would be the head of an urban high school. This is a story of five encounters on one particular day and how they impacted his life and the lives of teachers, parents and students. Mr. Franciscos flashbacks to his youth on the streets of New York's West Side are musing and heart piercing. They provide the basis and experience for his problem solving and decision making. The author questions the over emphasis on acquisition of facts and assessment and the lack of student interaction with ideas and experiences. He questions the lack of development of character in our schools. He advocates student and teacher incentives grounded in effort and productivity. In the end, we are reminded that life's experiences from the School of Hard Knocks often remain with us for a lifetime.

A memoir of a difficult childhood.

Rick and his crew live on the edge of Earth Corps space where the law is what you make it and the taxman doth fear to tread. While a war rages he salvages its wreckage, profiteering from the misery of others. Despite his plan to sit it out from the side lines and fill his pockets Rick is drawn into a galactic conflict. When an alien armada is set to crash down upon Sol he has to choose between cold hard cash or his conscience.

"Hard Knocks and Consequences Too, by Fred G. Dickenson, is a folksy and practical walk down the path of life; it is about learning from personal experiences in ways that imprint upon one's character. Fred's devotional anthology is fun to read, and it inspires the reader to reflect a little deeper into how everyday life can teach profound spiritual lessons. Whether read as a daily devotional or as a biographical journey, it will inspire any reader. I recommend Hard Knocks and Consequences Too for any believer who desires to learn how to learn from experience."

—David Martz, EdD, author and adult educator "In Hard Knocks and Consequences Too, you are gently coaxed into mental and spiritual exercise that begins to plant principles from God's Word, into your heart. Once you have read it, not only will more seed be planted, but you will begin to see a harvest. It will impact your life in a positive way." —Missionary Wilson Gauntt, MEd, professor at Global University "Fred has a gift in assessing his life—past and present—with a candid approach to proving that God has a hand in everything ... and he does it with an enjoyable sense of humor and humility. I recommend both books for your personal library, as a gift to a loved one in spiritual need (or not); for church libraries and ministries; and to anyone for enjoyment and a trip down memory lane." —Donna Gentry Weeden, 2013 president of Paradise Historical Society, Inc.; past Texas municipal court judge
