Alan Baker weaves an extraordinary, vivid picture of Roman life as his compelling and evocative history tells the story of Rome's most notable gladiators. They were condemned and feared by emperors, slaughtered and adored by the masses and worshipped by their female fans, yet their lives were invariably violently short. Whether their enemy was a starved tiger or a battle-hardened criminal, their numbered days were dark and bloody. Yet men gave up their wealth and freedom to become gladiators and noble-women gave up their positions to be with them. *The Gladiator* illuminates the extraordinary lives of Spartacus, Commodus, Eppia and others - bringing the same energy and passion to the page that Ridley Scott's cinematic triumph bough to the screen.

Rome, 61 v. Chr. Dit is je nieuwe thuis. Vergeet het verleden. Het enige waar het hier om draait is dat je leert vechten en overleven. Marcus Cornelius Primus wordt als jonge rekrut ingewijd in het harde bestaan van gladiator. Zijn dagen worden beheerst door strikte discipline en afmattende trainingen. Maar hij kan zijn verleden niet zomaar vergeten: zijn vader, ooit een gevierde centurio, werd door soldaten vermoord, en zijn moeder werd ontvoerd en als slavin verkocht. Marcus is vastbesloten om Pompeius de Grote, die destijds commandant van zijn vader was, te vinden en hem om hulp te vragen. Het recht moet zegevieren en zijn moeder moet bevrijd worden. Wat Marcus echter niet weet is dat hij een levensgevaarlijk geheim met zich meedraagt. Als de andere Romeinen hier lucht van krijgen, is hij zijn leven niet meer zeker. The ninth novel in Simon Scarrow's bestselling Roman series. While centurions Macro and Cato are returning to Rome from a harrowing campaign against the Parthians, their transport ship is almost capsized by a tidal wave. They barely make it to the port of Matala in Crete where they are stunned to find a devastated town. An earthquake has struck the island, destroying its cities and killing thousands. In the chaotic aftermath, large bands of the island's slaves begin to revolt and local bandits, taking advantage of the slave rebellion, urge the Cretans to overthrow the Roman administration. With many of the island's troops either killed or wounded during the earthquake, the governor of the province calls on Macro and Cato for help. Can they move swiftly enough to counter the rebellion before it sweeps the Romans from the island?

Countering the traditional belief that Jews in antiquity were predominantly disinterested in the popular entertainments of the Greek and Roman world, Loren R. Spielman maps the varieties of Jewish engagement with theater, athletics, horse racing, gladiatorial, and beast shows in antiquity. The author argues that Jews from Hellenistic Alexandria to late antique Sepphoris enjoyed and exploited, or alternatively resisted and scorned, popular forms of public entertainment as they adapted to the political, social, and religious realities of imperial rule. Including references to ancient Jewish actors, athletes, promoters, and plays alongside analysis of rabbinic and other early Jewish critique of sport and spectacle, Loren R. Spielman describes the different ways that attitudes towards entertainment might have played a role in shaping ancient Jewish identity.

First published in 1973, Arena discusses the Year AD 80, when the Colosseum opened with quite the longest and most nauseating organized mass orgy in history. It was a mammoth celebration on the grandest scale, a fitting inauguration for an arena built to epitomize all the

majesty and power of the Roman Empire, a building which also held the seeds of that Empire's decay and destruction. As well as his vivid account of the erection of the Colosseum, Mr Pearson discusses the origins of death spectacles and their evolution into highly organized games intended to enhance imperial prestige and provide the populace with an effective substitute for politics and war. 'Butchered to make a Roman holiday', the victims of this lust for slaughter were slaves and criminals, the human surplus of their day, coached for an almost certain death. One chapter highlights the perverted death-wish of many early would-be martyrs and decisively establishes that there is no evidence for the death of a single Christian martyr in the Colosseum. The book concludes with a brief survey of the building's subsequent history; looted and despoiled yet still the embodiment of Rome's spirit and greatness, it became a sublime romantic ruin, now exposed by slum-clearance as a gigantic traffic island. Mr Pearson is acutely aware of the violence that was endemic in Roman society, and in his shrewd analysis he draws disturbing parallels with the twentieth-century situation.

This deluxe volume on Caesarea, climaxing new excavations in 1992-95, discusses comprehensively a famous ancient city's archaeology, history and culture. New discoveries include the amphitheater and royal palace, temple dedicated to Roma and Augustus, and the spectacular artificial harbor explored under water.

Condemned and yet feared by emperors, almost certain to be slaughtered and yet adored by the masses, the gladiator was the superstar of his day. His existence was invariably short and violent, improved only faintly by the prospect of honor, wealth, and public attention. Yet men gave up their freedom to become gladiators, noblewomen gave up their positions to elope with them, and Emperors risked death to fight them. This thrilling popular history of ancient Rome's gladiators charts the evolution of the games; introduces us to the legendary fighters, trainers, and emperors who participated in the violent sport; and re-creates in gripping detail a day at the bloody games. Alan Baker reveals the techniques of the training school, then sets us ringside to witness the torturous battles between bulls, lions, jaguars, and battle-hardened human beings. With each breathtaking scene, the complex culture of world that created and adored these bloody games between man and beast comes into clear focus. A work of history that reads like fiction, *The Gladiator* brings to life Spartacus, Commodus, Caligula, and all of the other memorable players of the nearly thousand-year-long gladiatorial era.

Illustrated with striking Pompeian depictions of these ancient combatants, *Gladiators at Pompeii* presents a complete picture of the gladiators of the Roman Empire and the highly organized and regulated tournaments in which they competed. Luciana Jacobelli reveals the latest evidence on the best-documented categories of gladiators, their origins, social status, equipment, and training. Originally staged for the funeral rights of prominent Roman citizens, gladiatorial games eventually became a tool for career politicians to both gain popularity and appease the often turbulent masses. While most gladiators were slaves or prisoners of war forced into a career of battle, others were criminals or free men from prominent families who aspired to fame and fortune. Surprisingly, there are even records of women gladiators.

? Chariot races. Gladiatorial combat. Fishing. Hunting. Swimming. The ancient Romans enjoyed these sports--sometimes with fanatical enthusiasm. This reference book contains more than 100 entries covering sporting events and activities of the era, and the Romans who sponsored, competed in and attended them. Charioteer Appuleius Diocles, in a career spanning 24 years, competed in 4,257 races, winning an astounding 1,462 of them. Alypius, the young friend of St. Augustine, was both drawn to and repulsed by gladiatorial battles and struggled to shake his mania for the spectacle of blood sport. Brief abstracts of the entries are included for quick reference, along with an expansive glossary

and biographical notes on the ancient authors cited.

Of all aspects of Roman culture, the gladiatorial contests for which the Romans built their amphitheatres are at once the most fascinating and the most difficult for us to come to terms with. They have been seen variously as sacrifices to the gods or, at funerals, to the souls of the deceased; as a mechanism for introducing young Romans to the horrors of fighting; and as a direct substitute for warfare after the imposition of peace. In this original and authoritative study, Thomas Wiedemann argues that gladiators were part of the mythical struggle of order and civilisation against the forces of nature, barbarism and law breaking, representing the possibility of a return to new life from the point of death; that Christian Romans rejected gladiatorial games not on humanitarian grounds, but because they were a rival representation of a possible resurrection.

Romulus and Fabiola are twins, born into slavery after their mother is raped by a drunken nobleman. At thirteen years old they are sold - Romulus to gladiator school, Fabiola into prostitution, where she will catch the eye of one of the most powerful men in Rome. Tarquinius is an Etruscan, a warrior and soothsayer, born enemy of Rome, but doomed to fight for the Republic in the Forgotten Legion. Brennus is a Gaul, his entire family killed by the Romans, and he rises to become one of the most famous and feared gladiators of his day. The lives of these characters are bound and interwoven in an odyssey which begins in a Rome riven by political corruption and violence, but ends far away, at the very border of the known world, where the tattered remnants of a once-huge Roman army - the Forgotten Legion - will fight against overwhelming odds, and the three men will meet their destiny.

Using previously unpublished correspondence and personal journal entries from screenwriter Abraham Polonsky, neglected notices in *Variety* and other Hollywood trade publications, and a variety of published sources, this narrative backstory of rival movie productions of *The Gladiators* vs *Spartacus* documents that intense competition with greater precision and clarity than any other existing account. The key role that this little-known chapter of Hollywood's blacklist history played, in connection with Dalton Trumbo's successful effort to win screen credit for *Spartacus*, is now for the first time available to film historians and lay readers. A companion study, Volume 2, is devoted to Abraham Polonsky's rediscovered screenplay.

Around 180 CE, in the lavish amphitheatres of the Roman Empire, trained gladiators entertained vast audiences by fighting to the death. Armed with a sword, a lance or a harpoon, the gladiator faced his opponent: a wild animal ready to strike, or a condemned criminal looking to save his own life. This book is a study of the city and urban life in Roman Palestine during the Talmudic period, 100-400 B.C. Rather than focus on a specific city, Daniel Sperber synthesizes what is known about city life in Talmudic Palestine to create a paradigmatic hypothetical Palestinian city. Drawing on numerous literary records for his information, he describes the structure and use of many physical aspects of the city, such as its markets, pubs, streets, bathhouses, roads, walls, toilets, and water supply. Rounding out the study is a chapter describing the archeological evidence, written by Sperber's colleague, Professor Joshua Schwartz. With the recent upsurge of interest in urbanization in the Greco-Roman world, The City in Roman Palestine will attract not only scholars of Judaic literature and history, but also classicists and ancient historians.
